City of Mississauga

Briefing Note - Update

Date: 2022/01/20

To: George Carlson, Ward 11 Councillor

From: Helen Noehammer
Director, Infrastructure Planning & Engineering Services

Andy Harvey
Director, Traffic Management & Municipal Parking

Subject: 2021 Roads and Stormwater Capital Plan for Ward 11 - Update

The purpose of this briefing note is to provide an update on the roads and stormwater infrastructure construction and assessment works undertaken for Ward 11 in 2021. These works are also illustrated on the attached Ward 11 Roads and Stormwater Capital Plan Map.

Under ***Ontario Regulation 82/20***, all construction projects were deemed an essential service because they involved the repair and maintenance of the City's infrastructure. The City's Contractors carried out all construction activities in accordance with applicable laws, including the ***Occupational Health and Safety Act*** (and regulations) and the advice, recommendations and instructions of public health officials. These recommendations included training of all employees, contractors and trades on COVID-19 policies, maintaining physical distancing of 2 metres, providing on-site sanitation, and tracking and monitoring of workers and site visitors. The City closely monitored and worked with their service providers to ensure complete adherence to all COVID-19 regulations and policies.

Roadway Rehabilitation

Street Name	**Street From**	**Street To**	**Update/Completion Date**
Barbertown Road	Mississauga Road	Road End	Completed Nov. 2021
Battleford Road	Erin Mills Parkway	East End	Completed Oct. 2021
