

KEY MONTHLY LIBRARY ACTIVITIES - 2012

Month: March

Location: Courtneypark

REACHING OUT TO...

FAMILIES AND CAREGIVERS

1. Courtneypark Library held a very successful March Break week of programs – eight programs were conducted over six days, with close to 400 participants. The programs were wide-ranging – young children were invited to construct their own recipe books, older kids were enthralled by a science workshop, and everyone was enchanted by Roberto the Magician. Many compliments were received regarding the wide variety of programs that were conducted by both hired performers and by the Courtneypark team.
2. The Reading Buddies Spring session started on March 28 and 29 – and will run for six weeks on Wednesday and Thursday evenings. Parents and children were welcomed and introduced to the volunteer Reading Buddies.

YOUTH

1. The Courtneypark Teen Advisory Group played an essential role in the March Break programming conducted at Courtneypark Library. The teens were present at numerous programs, were fantastic puppeteers at the annual Courtneypark puppet show and hosted two game evenings, where students were welcomed into the program room to chill with their friends and participate in video game competitions. Some of the TAG members are now donating their time to the branch's "Reading Buddies" program. Their hard work is definitely appreciated.
2. Courtneypark Library presented 13 class visits with 276 participants.
