

building our future mississauga

Revitalization of Mississauga's Downtown Civic Square is now underway!

Mississauga has begun redevelopment of the Civic Square and Central Library Square, as the City's major Infrastructure Stimulus Fund (ISF) project funded equally by the federal, provincial and municipal governments.

You can look forward to a larger public square, expansion of the ice rink, an interactive water feature, an improved amphitheatre, better accessibility to the Civic Centre, a large open lawn for activities, a permanent event stage, a media wall for digital arts and a seasonal open air market!

To facilitate construction, City Centre Drive, from Duke of York Boulevard to Living Arts Drive, will be closed for approximately two years. Access to the Civic Centre and the Central Library, and all services in both buildings will be maintained.

Watch the vision unfold!
