Credit Reserve Association

Petition to amend Tree Removal By Law

July 10, 2010

Dear Neighbor,

We seek your support to place a new addendum to the existing Tree By Law before the City of Mississauga Parks & Recreation department.

This amendment is designed to extend the existing By Law to provide additional protection for the particularly large and mature trees that are so much a part of our neighborhood. We are modeling this amendment on the newly amended Tree Protection By Law for the Town Of Oakville (2008) which aims to protect and monitor the felling of these large, mature trees.

While some degree of tree removal is required to ensure safety in cases where trees are damaged or dead, the majority of trees removed in our neighborhood are healthy, mature. The ongoing removal of so many large trees threatens to irreplaceably change the local environment and destroy the unique character of our neighborhood. Healthy mature trees are often removed to make way for substantial real estate development. The Bylaw amendment would protect our environment by allowing a moratorium on any tree removal.

Current By Law for Mississauga states that property owners require a permit to remove 5 or more trees that are 15cm (6in) in diameter or larger from their private property in a calendar year. The amended proposal to the By Law would seek to require home owners and developers to submit an application for a tree removal permit in the following circumstance:

- Application for Tree Permit
  - Five or more trees greater than 15 centimetres in diameter measured at 1.37 meters per calendar year.  
  - Any tree greater than 76 centimetres (24 inches) in diameter, measured at 1.37 meters per calendar year.

**proposed change to the current Law**

A fully documented proposal will be submitted by the members of the Credit Reserve Association to the City of Mississauga for their review and approval.

We seek your support now to make this happen!

I support the proposed addendum to the existing Tree By Law for the City of Mississauga.

Petition to amend Tree Removal By Law

July 10, 2010

Dear Neighbor,

We seek your support to place a new addendum to the existing Tree By Law before the City of Mississauga Parks & Recreation department.

This amendment is designed to extend the existing By Law to provide additional protection for the particularly large and mature trees that are so much a part of our neighborhood. We are modeling this amendment on the newly amended Tree Protection By Law for the Town Of Oakville (2008) which aims to protect and monitor the felling of these large, mature trees.

While some degree of tree removal is required to ensure safety in cases where trees are damaged or dead, the majority of trees removed in our neighborhood are healthy, mature. The ongoing removal of so many large trees threatens to irreplaceably change the local environment and destroy the unique character of our neighborhood. Healthy mature trees should not be removed to make way for residential development and this By Law addendum would provide an opportunity for assessing the necessity for tree removal.

Current By Law for Mississauga states that property owners require a permit to remove 5 or more trees that are 15cm (6in) in diameter or larger from their private property in a calendar year. The amended to the By Law would seek to require home owners and developers to submit an application for a tree removal permit in the following circumstance:

<table>
<thead>
<tr>
<th>You Must Fill Out an Application for Tree Permit Form if Removing:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Five or more trees greater than 15 centimetres in diameter measured at 1.37 metres per calendar year.</td>
</tr>
<tr>
<td>• Any tree greater than 76 centimetres (24 inches) in diameter, measured at 1.37 metres per calendar year. **</td>
</tr>
</tbody>
</table>

**proposed change to the current By Law

A fully documented proposal will be submitted by the members of the Credit Reserve Association to the City of Mississauga for their review and approval.

We seek your support now to make this happen!

I support the proposed addendum to the existing Tree By Law for the City of Mississauga.

We are modeling this amendment on the newly amended Tree Protection By Law for the Town Of Oakville (2008) which aims to protect and monitor the felling of these large, mature trees.

While some degree of tree removal is required to ensure safety in cases where trees are damaged or dead, the majority of trees removed in our neighborhood are healthy, mature. The ongoing removal of so many large trees threatens to irreplaceably change the local environment and destroy the unique character of our neighborhood. Healthy mature trees are being removed to make way for residential development and this By Law addendum would seek to ensure that owners are assessed the necessity of tree removal.

Current By Law for Mississauga states that property owners require a permit to remove 5 or more trees that are 15cm (6in) in diameter or larger from their private property in a calendar year. The amended proposal to the By Law would seek to require home owners and developers to submit an application for a tree removal permit in the following circumstance:

<table>
<thead>
<tr>
<th>You Must Fill Out an Application for Tree Permit Form if Removing:</th>
</tr>
</thead>
<tbody>
<tr>
<td>▪ Five or more trees greater than 15 centimetres in diameter measured at 1.37 metres per calendar year.</td>
</tr>
<tr>
<td>▪ Any tree greater than 76 centimetres (24 inches) in diameter, measured at 1.37 meters per calendar year.</td>
</tr>
</tbody>
</table>

**proposed change to the current By Law**

A fully documented proposal will be submitted by the members of the Credit Reserve Association to the City of Mississauga for their review and approval.

We seek your support now to make this happen!

I support the proposed addendum to the existing Tree By Law for the City of Mississauga.

Petition to amend Tree Removal By Law

July 10, 2010

Dear Neighbor,

We seek your support to place a new addendum to the existing Tree By Law before the City of Mississauga Parks & Recreation department.

This amendment is designed to extend the existing By Law to provide additional protection for the particularly large and mature trees that are so much a part of our neighborhood. We are modeling this amendment on the newly amended Tree Protection By Law for the Town Of Oakville (2008) which aims to protect and monitor the felling of these large, mature trees.

While some degree of tree removal is required to ensure safety in cases where trees are damaged or dead, the majority of trees removed in our neighborhood are healthy, mature. The ongoing removal of so many large trees threatens to irreplaceably change the local environment and destroy the unique character of our neighborhood. Healthy mature trees are often removed to make space for residential development and this By Law addendum would provide an opportunity for assessing the necessity of tree removal.

Current By Law for Mississauga states that property owners require a permit to remove 5 or more trees that are 15cm (6in) in diameter or larger from their private property in a calendar year. The amended proposal to the By Law would seek to require home owners and developers to submit an application for a tree removal permit in the following circumstance:

<table>
<thead>
<tr>
<th>You Must Fill Out an Application for Tree Permit Form if Removing:</th>
</tr>
</thead>
<tbody>
<tr>
<td>▪ Five or more trees greater than 15 centimetres in diameter measured at 1.37 metres per calendar year.</td>
</tr>
<tr>
<td>▪ Any tree greater that 76 centimetres (24 inches) in diameter, measured at 1.37 metres per calendar year. **</td>
</tr>
</tbody>
</table>

We seek your support to place a new addendum to the existing Tree By Law before the City of Mississauga Parks & Recreation department.

This amendment is designed to extend the existing By Law to provide additional protection for the particularly large and mature trees that are so much a part of our neighborhood. We are modeling this amendment on the newly amended Tree Protection By Law for the Town Of Oakville (2008) which aims to protect and monitor the felling of these large, mature trees.

While some degree of tree removal is required to ensure safety in cases where trees are damaged or dead, the majority of trees removed in our neighborhood are healthy, mature. The ongoing removal of so many large trees threatens to irreplaceably change the local environment and destroy the unique character of our neighborhood. Healthy mature trees are never removed to make way for residential development and the By-Law addendum would provide an opportunity for assessing the necessity of tree removal.

Current By Law for Mississauga states that property owners require a permit to remove 5 or more trees that are 15cm (6in) in diameter or larger from their private property in a calendar year. The amended proposal to the By Law would seek to require home owners and developers to submit an application for a tree removal permit in the following circumstance:

<table>
<thead>
<tr>
<th>You Must Fill Out an Application for Tree Permit Form If Removing:</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Five or more trees greater than 15 centimetres in diameter measured at 1.37 metres per calendar year.</td>
</tr>
<tr>
<td>2. Any tree greater than 76 centimetres (24 inches) in diameter, measured at 1.37 meters per calendar year. **</td>
</tr>
</tbody>
</table>

**proposed change to the current By Law

A fully documented proposal will be submitted by the members of the Credit Reserve Association to the City of Mississauga for their review and approval.

We seek your support now to make this happen!

I support the proposed addendum to the existing Tree By Law for the City of Mississauga.

Proposed Amendments to the City of Mississauga Tree Permit By-Law

We the citizens of Mississauga support the proposed amendments to the Tree Permit By-Law 475-05 which include, but are not limited to the following:

1. Change the name of the existing by-law to ‘Private Tree Protection By-Law’ to better reflect its purpose and intent.
2. Require a permit for the removal of any healthy individual tree 30cm in diameter or greater.
3. Require a replacement tree for every 15 cm of tree diameter removed instead of the existing ‘one for one’ replacement guidelines.
4. Amend the fees to reduce the current $320.00 fee to $150.00 for the removal of 5 healthy trees between 15cm and 29cm in diameter in a calendar year; and the addition of a $150.00 fee for the removal of any one healthy tree 30cm in diameter or greater.

I agree with the above amendments to the current Tree Permit By-Law.

Proposed Amendments to the City of Mississauga Tree Permit By-Law

We the citizens of Mississauga support the proposed amendments to the Tree Permit By-Law 475-05 which include, but are not limited to the following:

1. Change the name of the existing by-law to ‘Private Tree Protection By-Law’ to better reflect its purpose and intent.
2. Require a permit for the removal of any healthy individual tree 30cm in diameter or greater.
3. Require a replacement tree for every 15 cm of tree diameter removed instead of the existing ‘one for one’ replacement guidelines.
4. Amend the fees to reduce the current $320.00 fee to $150.00 for the removal of 5 healthy trees between 15cm and 29cm in diameter in a calendar year; and the addition of a $150.00 fee for the removal of any one healthy tree 30cm in diameter or greater.

I agree with the above amendments to the current Tree Permit By-Law.

I am afraid I cannot support the revenue amendment.

My experience in obtaining a building permit for an attached garage gave me a sense of red tape experience never to be forgotten. I moved new force anybody to have to deal with the personnel in City Hall.

I fully support the Predecessor's operation to deal with administratively with the City organization in support for planning or similar purposes.

I would have liked to have seen a few remarks on the #10 interchanges. It has some serious deficiencies worthy of comment.

E.g., the so-called drainage pond is a hazard. Should a car mount the good rail & face a 20' drop, is hardly what I would call modern highway design. Not having a center island for the N & S service roads is unbelievable. Image trying to cross at night, snow covered, gliding lines, having a light change you may also have made the decision.

S. B. road intersection is extremely difficult to maneuver safely at the right line and observe.

Credit Reserve Association  

To whom it may concern:  

Unfortunately I have misplaced the notice of tonight’s meeting and so I am unable to quote from it by other than memory. However you suggest that there should be a 5 tree limit on the number of trees, over a certain size, that can be cut down in the event of redevelopment of private property. Although this would not affect our property, notwithstanding that we have over 30 mature trees, we believe that there can be few absolutes in planning of this nature. Each case should be looked at based on its merits.  

I can not be with you tonight because of a previous engagement. It is disconcerting to receive notice a few days before you plan to discuss such a suggested change and not have an opportunity to discuss it in open forum.  

I am also very concerned about the municipality’s plans to install a streetcar line from Brampton to Port Credit on Highway 10 without our having details of such plans and an opportunity to review them and to comment on them. There has been no effort made to inform us of the details involved. We live in an area that has become increasingly difficult to exit in an automobile. This could be a very serious barrier, particularly if the track right of way is to be elevated along any portion of the route as it is in Toronto on the St. Claire Line.  

Yours sincerely,  

G. V. Stewart
In the summer of 2009, 2 large mature trees fell into my backyard. NOT MY TREES!
I was responsible for 1/2 the costs of removing dead trees. One of these trees would
be approx 60 yrs old & 40-50' ft. The owner said 'how was he to know it would fall?'
The second tree, a cedar, was 40-50' also. It was only 30-40 yrs. old
split into two. There are still 8-10 trees remaining in my backyard - we are lucky! we fear, waiting.
The mature trees should be well chipped northern by the city. The age of trees in this area are
known to the city. If there is any possibility of a mature falling , it should be removed immediately by the owner. - Peg Getter
