Cultural Landscape
Heritage Impact Statement Terms of Reference

Introduction

The City of Mississauga adopted a Cultural Landscape Inventory in 2005. Cultural landscapes include neighbourhoods, roadways, waterways and more. The Cultural Landscape Inventory is available online at [http://www5.mississauga.ca/pdfs/Cultural_Landscape_Inventory_Jan05.pdf](http://www5.mississauga.ca/pdfs/Cultural_Landscape_Inventory_Jan05.pdf).

All of the properties listed on the Cultural Landscape Inventory are listed on the City’s Heritage Register. As such, as per section 3.20.2.2 of the Mississauga Plan, applications to develop such property require a Heritage Impact Statement. Properties adjacent to a property identified on the City’s Heritage Register as a cultural heritage landscape may also require a Heritage Impact Statement.

1. General requirements include:

   - Property owner contact information
   - A location map
   - A site plan of existing conditions, to include buildings, structures, roadways, driveways, drainage features, trees and tree canopy, fencing, and topographical features
   - A written and visual inventory (legible photographs – we suggest no more than two per page) of all elements of the property that contribute to its cultural heritage value, including overall site views. For buildings, internal photographs and floor plans are also required.
   - A site plan and elevations of the proposed development
   - For cultural landscapes or features that transcend a single property, a streetscape plan is required, in addition to photographs of the adjacent properties
   - Qualifications of the author completing the report
   - Four hard copies and a PDF

The City reserves the right to require further information, or a full Heritage Impact Statement. These terms of reference are subject to change without notice.
2. Addressing the Cultural Landscape or Feature Criteria

Cultural Heritage Landscape Inventory Heritage Impact Statements must demonstrate how the proposed development will conserve the criteria that render it a cultural heritage landscape and/or feature. Each cultural heritage landscape and feature includes a checklist of criteria. The Heritage Impact Statement need only address the checked criteria for the pertinent cultural heritage landscapes or features. (Please note, some properties constitute more than one cultural heritage landscape.) Criteria include the following:

**Landscape Environment**
- scenic and visual quality
- natural environment*
- horticultural interest
- landscape design, type and technological interest

**Built Environment**
- aesthetic/visual quality
- consistent with pre World War II environs
- consistent scale of built features
- unique architectural features/buildings
- designated structures

**Historical Associations**
- illustrates a style, trend or pattern
- direct association with important person or event
- illustrates an important phase of social or physical development
- illustrates the work of an important designer

**Other**
- historical or archaeological interest**
- outstanding features/interest
- significant ecological interest
- landmark value

Descriptions of these criteria are available in the Cultural Landscape Inventory document (pages 13 to 16).

*For cultural landscapes or features noted for their **natural environment** (i.e. checked off in the Cultural Landscape Inventory document), and when also required as part of the Planning process, a copy of a certified arborist’s report will be included as part of the scope of the Heritage Impact Statement.

**For cultural landscapes or features noted for their **archaeological interest** (i.e. checked off in the Cultural Landscape Inventory document), and when also required as part of the Planning process, a stage 1 archaeological assessment is required.
3. Property Information

The proponent must include a list of property owners from the Land Registry office. Additional information may include the building construction date, builder, architect/designer, landscape architect, or personal histories.

4. Impact of Development or Site Alteration

An assessment identifying any impact the proposed development or site alteration may have on the cultural heritage resource(s). Negative impacts on a cultural heritage resource(s) as stated in the *Ontario Heritage Tool Kit* include, but are not limited to:

- Destruction of any, or part of any, significant heritage attributes or features
- Removal of natural heritage features, including trees
- Alteration that is not sympathetic, or is incompatible, with the historic fabric and appearance
- Shadows created that alter the appearance of a heritage attribute or change the viability of an associated natural feature, or plantings, such as a garden
- Isolation of a heritage attribute from its surrounding environment, context or a significant relationship
- Direct or indirect obstruction of significant views or vistas within, from, or of built and natural features
- A change in land use where the change in use negates the property’s cultural heritage value
- Land disturbances such as change in grade that alter soils, and drainage patterns that adversely affect cultural heritage resources

The proponent must demonstrate how the new proposed built form reflects the values of the identified cultural landscape and its characterizations that make up that cultural landscape.

5. Mitigation Measures

The Heritage Impact Statement must assess alternative development options and mitigation measures in order to avoid or limit the negative impact on the cultural heritage resources. Methods of minimizing or avoiding negative impact on cultural heritage resources, noted by the Ministry of Culture, include but are not limited to the following:

- Alternative development approaches
- Isolating development and site alteration from the significant built and natural heritage features and vistas
- Design guidelines that harmonize mass, setback, setting and materials
- Limiting height and density
- Allowing only compatible infill and additions
- Reversible alterations
6. Qualifications

The qualifications and background of the person(s) completing the Heritage Impact Statement will be included in the report. The author(s) must demonstrate a level of professional understanding and competence in the heritage conservation field of study. The Statement will also include a reference for any literature cited, and a list of people contacted during the study and referenced in the report.

7. Recommendation

The consultant should provide a recommendation as to whether the subject property is worthy of heritage designation in accordance with the heritage designation criteria per Regulation 9/06, *Ontario Heritage Act*. Should the consultant not support heritage designation then it must be clearly stated as to why the subject property does not meet the criteria as stated in Regulation 9/06.

The following questions should be answered in the final recommendation of the report:

- Does the property meet the criteria for heritage designation under Ontario Regulation 9/06, *Ontario Heritage Act*?
- If the subject property does not meet the criteria for heritage designation then it must be clearly stated as to why it does not
- Regardless of the failure to meet criteria for heritage designation, does the property warrant conservation as per the definition in the Provincial Policy Statement:

> “Conserved: means the identification, protection, use and/or management of cultural heritage and archaeological resources in such a way that their heritage values, attributes and integrity are retained. This may be addressed through a conservation plan or heritage impact assessment.”

Please note that failure to provide a clear recommendation as per the significance and direction of the identified cultural heritage resource will result in the rejection of the Heritage Impact Statement.

8. Approval Process

Four copies of the Heritage Impact Statement will be provided to Heritage staff, along with a PDF version. Hard copies must be single sided and pages must be no larger than 11 x 17 inches. Staff will ensure that copies are distributed to the Planning and Building Department and relevant staff and stakeholders within the Corporation. The Heritage Impact Statement will be reviewed by City staff to determine whether all requirements have been met and to evaluate the preferred option(s). The applicant will be notified of Staff’s comments and acceptance, or rejection of the report.

All Heritage Impact Statements will be sent to the City Heritage Advisory Committee for information.
An accepted Heritage Impact Statement will become part of the further processing of a
development application under the direction of the Planning and Building Department. The
recommendations within the final approved version of the Heritage Impact Statement will be
incorporated into development related legal agreements between the City and the proponent
at the discretion of the municipality.
