

Projects for 2013 Construction Season	Project Manager 905-615-3200
<p><b>Credit River Tributary</b></p> <p><i>This project includes the construction of erosion control measures and stabilization works along the Credit River Tributary @ Credit Valley Golf and Country Club extending from the storm outfall on top of the valley, down the ravine approximately 150m.</i></p>	<p>D. Galati, C.E.T., L.E.L.  <a href="mailto:domenic.galati@mississauga.ca">domenic.galati@mississauga.ca</a>  (extn 5792)</p>
<p><b>Reconstruction of Tannery Street from Queen Street South to Joymar Drive</b></p> <p><i>This project includes the construction of a new storm sewer along Tannery Street with connection to future development at the north-west side of Canadian Pacific Railway tracks. The new storm sewer along Tannery Street will be emptying into the creek and will be embedded in the abutment of the bridge structure. Also, the Region of Peel will be doing sanitary sewer improvements as part of this joint project.</i></p>	<p>Z. Subic, P. Eng.  <a href="mailto:zeljko.subic@mississauga.ca">zeljko.subic@mississauga.ca</a>  (extn 5830)</p>
<p><b>Intersection Improvement Program</b></p> <p><i>This project consists of 10 Intersections</i></p> <ul style="list-style-type: none"> <li>• Burnhamthorpe Road at Grand Park Drive</li> <li>• Ridgeway Drive at Eglinton Avenue West</li> <li>• City Centre Drive at Duke of York Boulevard</li> <li>• City Centre Drive at Living Arts Drive</li> <li>• Hazelton Place at Plantation Place</li> <li>• Mavis Road at Louis Drive</li> <li>• Southdown Road at Wiseman Court</li> <li>• Erindale Station Road at Forestwood Drive</li> <li>• Erindale Station Road at McBride Avenue</li> <li>• Rathburn Road Lay-By</li> </ul>	<p>D. Breuer, P. Eng.  <a href="mailto:dagmar.breuer@mississauga.ca">dagmar.breuer@mississauga.ca</a>  (extn 5184)</p>
<p><b>Retrofit Loyalist Creek Storm Water Management Pond #5903 – West of Winston Churchill Boulevard, South of The Collegeway</b></p> <p><i>The purpose of this project is primary to provide water quality control and improve erosion and quantity control where possible. The work to be constructed includes site preparation of the pond, excavation and removal of material, modification of control structure(s), access road, landscaping improvements and restoration of disturbed areas.</i></p>	<p>K. Truong, P. Eng.  <a href="mailto:kenneth.truong@mississauga.ca">kenneth.truong@mississauga.ca</a>  (extn 5937)</p>
<p><b>Sheridan Creek Erosion Control – Downstream of Benedet Drive</b></p> <p><i>This construction project will provide stabilization to the creek bed and banks to protect private and public property from erosion hazards.</i></p>	<p>A. Kong, P. Eng.  <a href="mailto:alice.kong@mississauga.ca">alice.kong@mississauga.ca</a>  (extn 3163)</p>
<p><b>2013 Sidewalk Program</b></p> <p><i>Construction of approximately 7.5 kilometres of new sidewalk including construction of a Multi-Use Trail on Creditview Road from Britannia Road to Kenninghall Boulevard.</i></p> <ul style="list-style-type: none"> <li>• Kaneff Crescent</li> <li>• Admiral Boulevard (2 locations)</li> <li>• Beverly Street</li> <li>• York Street</li> <li>• Britannia Road East</li> <li>• Orlando Drive (3 locations)</li> <li>• Thamesgate Drive</li> <li>• Whittle Road</li> <li>• Britannia Road East</li> <li>• Ordan Drive</li> <li>• Shawson Drive</li> <li>• Tristar Drive</li> <li>• Meadowpine Boulevard</li> </ul>	<p>D. Galati, C.E.T., L.E.L.  <a href="mailto:domenic.galati@mississauga.ca">domenic.galati@mississauga.ca</a>  (extn 5792)</p>
<p><b>Torbram Road Grade Separations</b></p> <p><i>This project consists of eliminating the road/rail at-grade crossings on Torbram Road at the CN Halton Subdivision and the Metrolinx Weston Subdivision. The work will include the construction of two underpass grade separations and associated road and rail diversions, road reconstruction, utility relocations, storm water pumping station, culvert and channel improvements and streetlighting. The project limits are from Kimbel Street to Highway 407.</i></p>	<p>M. Boyd, P. Eng.  <a href="mailto:max.boyd@mississauga.ca">max.boyd@mississauga.ca</a>  (extn. 5141)</p>
<p><b>Sheridan Creek Erosion Control – Clarkson Road to Meadow Wood Road</b></p> <p><i>This project will consist of armour stone bank and river stone creek bed protection. The proposed creek stabilization system is essentially a step- pool system consisting of armour stone weirs with pools located between them.</i></p>	<p>D. Galati, C.E.T., L.E.L.  <a href="mailto:domenic.galati@mississauga.ca">domenic.galati@mississauga.ca</a>  (extn 5792)</p>
<p><b>Rehabilitation of Creditview Road Bridge over the Credit River</b></p> <p><i>This project will consist of repairs, rehabilitation and widening on both sides of the Creditview Road Bridge over the Credit River approximately located 0.5 km north of Britannia Road. The structure will include a multi-use trail (west side) and sidewalk (east side) with a low traffic barrier at the edge of the road to separate pedestrians/cyclists and vehicles.</i></p>	<p>D. Galati, C.E.T., L.E.L.  <a href="mailto:domenic.galati@mississauga.ca">domenic.galati@mississauga.ca</a>  (extn 5792)</p>

<p><b>Cooksville Creek Erosion Control – North of Dundas Street East</b></p> <p><i>This construction project consists of channel re-alignment, channel repair and floodplain terracing to provide erosion protection, improve conveyance, and provide environmental enhancement.</i></p>	<p>A. Kong, P. Eng.  <a href="mailto:alice.kong@mississauga.ca">alice.kong@mississauga.ca</a>  (extn 3163)</p>
<p><b>Whittle Road from Britannia Road to MTO Eastbound Off Ramp</b></p> <p><i>This project involves the extension of the eastbound off ramp to intersect with the existing Whittle Road by way of a roundabout. The roundabout provides a high capacity intersection and allows all turning movements into the neighbouring development.</i></p>	<p>Z. Subic, P. Eng.  <a href="mailto:zeliko.subic@mississauga.ca">zeliko.subic@mississauga.ca</a>  (extn 5830)</p>
<p><b>Mineola Road West over Mary Fix Creek</b></p> <ul style="list-style-type: none"> <li>• Mineola Road West over Mary Fix Creek</li> </ul> <p><i>This project covers the rehabilitation of the culvert.</i></p>	<p>Z. Subic, P. Eng.  <a href="mailto:zeliko.subic@mississauga.ca">zeliko.subic@mississauga.ca</a>  (extn 5830)</p>
<p><b>Applewood Creek Erosion Control – Behind Dixie Outlet Mall</b></p> <p><i>This project consists of erosion mitigation and naturalization through the removal of existing debris present within the creek and the installation of armourstone retaining walls and bioengineering along the banks of the existing channel or stabilization and to prevent additional erosion from occurring.</i></p>	<p>A. Kong, P. Eng.  <a href="mailto:alice.kong@mississauga.ca">alice.kong@mississauga.ca</a>  (extn 3163)</p>
<p><b>Retrofit Loyalist Creek Storm Water Management Pond #5901 – West of Winston Churchill Boulevard, North of Dundas Street West</b></p> <p><i>The purpose of this project is primary to provide water quality control and improve erosion and quantity control where possible. The work to be constructed includes site preparation of the pond, excavation and removal of material, modification of control structure(s), access road, landscaping improvements and restoration of disturbed areas.</i></p>	<p>K. Truong, P. Eng.  <a href="mailto:kenneth.truong@mississauga.ca">kenneth.truong@mississauga.ca</a>    (extn 5937)</p>
<p><b>Noise Attenuation Barrier Replacements</b></p> <p><i>The existing fence/barrier will be removed from private property and a new concrete noise barrier will be constructed on City property, to be maintained by the City. Locations to be Determined</i></p>	<p>Z. Subic, P. Eng.  <a href="mailto:zeliko.subic@mississauga.ca">zeliko.subic@mississauga.ca</a>    (extn 5830)</p>
<p><b>Cooksville Creek Flood Protection – Dyking Downstream of Central Parkway East, Behind Rhonda Valley</b></p> <p><i>This project is to construct the flood protection berm adjacent to Cooksville Creek to protect homes along Rhonda Valley.</i></p>	<p>A. Kong, P. Eng.  <a href="mailto:alice.kong@mississauga.ca">alice.kong@mississauga.ca</a>    (extn 3163)</p>
<p><b>Reconstruction of Main Street to Church Street</b></p> <p><i>The Streetsville Main Street Square project will transform a disjointed space into a vibrant urban destination that can be expanded for community use and help revitalize Streetsville's main public gathering space. It will include the cenotaph re- location, reconfiguration of the space with concrete works and repaving of the road. Construction is scheduled to start in July 2013.</i></p>	<p>D. Breuer, P. Eng.  <a href="mailto:dagmar.breuer@mississauga.ca">dagmar.breuer@mississauga.ca</a>    (extn 5184)</p>
<p><b>Cooksville Creek Erosion Control – Camilla Road to North Service Road</b></p> <p><i>This project will provide erosion protection at two high priority sites between Camilla Road and North Service Road. Storm sewer outfalls that are failing will be protected. A very tight bend will be re-aligned with a proper bend radius and protected using riverstone treatments.</i></p>	<p>D. Galati, C.E.T., L.E.L.  <a href="mailto:domenic.galati@mississauga.ca">domenic.galati@mississauga.ca</a>  (extn 5792)</p>
<p><b>Rehabilitation of Creditview Road Bridge over the Credit River</b></p> <p><i>This project includes repair and rehabilitation works to the Creditview Road bridge and the City intends to consider widening of the existing bridge to accommodate increased future transportation needs as the City's Official Plan designates Creditview Road as a major collector with a 30m right-of-way.</i></p>	<p>D. Galati, C.E.T., L.E.L.  <a href="mailto:domenic.galati@mississauga.ca">domenic.galati@mississauga.ca</a>  (extn 5792)</p>
<p><b>Multi-Use Trails</b>  This project consist of 4 multi-use trails</p> <ul style="list-style-type: none"> <li>• Cawthra Road (west) to Meadows Boulevard to Eastgate Parkway</li> <li>• Creditview Road (west) to Bristol Road to Britannia Road</li> <li>• Southdown Road (east) to Orr Road to Hartland Drive</li> <li>• Winston Churchill Boulevard (east) to Erin Centre Boulevard to Britannia Road</li> <li>•</li> </ul>	<p>A. Kong, P. Eng.  <a href="mailto:alice.kong@mississauga.ca">alice.kong@mississauga.ca</a>  (extn 3163)</p>
<p><b>Credit River Erosion Control – South of Dundas Street West behind Jarvis Street</b></p> <p><i>This project involves undertaking remedial work to address the project of erosion on the east bank of the Credit River, approximately 400m south of Dundas Street.</i></p>	<p>Z. Subic, P. Eng.  <a href="mailto:zeliko.subic@mississauga.ca">zeliko.subic@mississauga.ca</a>    (extn 5830)</p>
<p><b>247 Queen Street Parking Lot</b></p> <p><i>Construction of an asphalt Municipal Parking Lot adding 14 spaces and connecting to the existing parking lot on Church Street. This lot will feature sustainable storm water management low impact development (L.I.D.) features.</i></p>	<p>D. Galati, C.E.T., L.E.L.  <a href="mailto:domenic.galati@mississauga.ca">domenic.galati@mississauga.ca</a>  (extn 5792)</p>
