

ROAD AND SIDEWALK MAINTENANCE

Damaged sections of existing roadways, sidewalks and curbs are repaired on a priority basis as part of the Engineering and Works Division's maintenance program.

To report emergency situations or request maintenance work, call:

Works Dispatch

Phone: 905-615-3000

www.mississauga.ca/worksmaintenance

ROAD RESURFACING

Mississauga's computer-based pavement management system and annual staff reviews combine to determine which city roads require resurfacing during the current year. If your street has been selected for resurfacing, you will receive a hand-delivered notice approximately one week prior to construction.

If road resurfacing is scheduled to occur on your street within the next ten days, city staff will begin pre-marking the roadway with spray paint and construction crews will then arrive on site. Your patience during this disruption is greatly appreciated.

The City of Mississauga accepts no responsibility for any damages to private fixtures placed on city property.

Road Resurfacing Contact:

Phone: 905-615-3200 ext. 5184

Website:

www.mississauga.ca/roadresurfacing

DRIVEWAY WIDENING

The City of Mississauga zoning by-laws contain provisions restricting the width of driveways. These provisions can differ throughout the City. Prior to widening your driveway, contact:

Zoning Plans Examination

Phone: 905-615-3200 ext. 5581

A building permit is not required to widen your driveway, however if you wish to alter the curb cut, you must obtain permission from the Transportation and Works Department by phoning 905-615-3200 ext. 4950. To look into incorporating driveway widening with our Resurfacing Program, please contact us within two business days of receiving your notification letter of road resurfacing taking place on your street:

Driveway Widening Contact:

Phone: 905-615-3200 ext. 5176 or ext. 5136

If your subdivision is not yet assumed by the City, you must also obtain the developer's permission to widen your driveway.
