

Borrow Video Games

Nintendo Wii, Microsoft XBox 360 and Sony Playstation 3

Mississauga Library System

It's Game On at the Library – Library Adds Video Games to its Collection

The Mississauga Library System announces coming in March 2010 it adds **video games** for the Nintendo Wii, Microsoft XBox 360 and Sony Playstation 3 to its borrowing collection.

Studies show that the video gaming industry now reaches to almost every market including young children, teens, adults and seniors with a wide range of strategy, recreational, educational and athletic games. Hand-eye coordination, following instructions, the ability to pick up clues from a multi-media environment, planning and anticipating consequences, problem solving and lateral thinking are all valuable skills found in games for even the youngest gamer.

Your free library card is your key to 14 branch libraries and the Library's 1.35 million items. To meet the needs of its residents, the Library provides access to materials in many formats: print and audio books, magazines, comics, graphic novels, electronic databases, CDs and DVDs. Due to popular demand, the Library now adds video games to its list of circulating items. This video collection is made possible through funding from an Ontario Ministry of Culture grant program for public libraries.
