**(b) Doors Open Mississauga 2008 - Meadowvale**

Paola Polleto, Supervisor, Office of the Arts and Culture, addressed Council with respect to the Doors Open Mississauga 2008 event which will showcase Meadowvale on September 27, 2008. She explained that each year they focus a different area of Mississauga and the event was open to visitors to explore the City's heritage and cultural spaces. There is an old and new Meadowvale and this year they will also feature the Meadowvale Village as it is the first Conservation Village, encompassing several wards. With the use of a power point presentation, she explained the buildings and areas that they will feature along with the other events that will occur that day including a BBQ hosted by Councillor Saito.

Councillor Pat Saito stated that they were expecting this to be a huge event and hoped to welcome several hundred people to the Meadowvale Theatre and the community BBQ thereafter.

Councillor Saito requested Martin Powell, Commissioner, to make appropriate arrangements to allow for leniency in the on-road parking particularly on Montevideo Road. She pointed out that that last year, parking was enforced and many attendees were ticketed.

**(c) Mississauga Natural Environment "Mega Project"**

Ms. Rae Horst, CAO, Credit Valley Conservation, addressed Council with respect to the "Mississauga Natural Environment Retrofit CVC's Green Cities Project". She explained that there was need for an overall environmental plan and with the use of a power point presentation, she explained the components of the project. Ms. Horst explained that they are working closely with city staff on the project, particularly on development applications impacting natural areas, shoreline strategy, Rattray Marsh, Sheridan Creek, Credit River, climate change, intensification and in supporting the City's direction to protect natural areas, making this a coordinated effort across all city departments.

Ms. Horst advised that the Region of Peel approved funding in the amount of \$2 million in 2008 and the natural environment retrofit project will include studies, monitoring and identification of about 30 sites which they have identified to work on. Further, Ms. Horst explained the Credit River Water Management Strategy, stormwater management initiatives, and watershed studies. Also, she explained the projects in the Cooksville and Sheridan Creeks as well as the work proposed on the Lake Ontario Shoreline. She also explained the community outreach and education planned as it related to protecting the environment, responsibly draining of pools etc.

Ms. Horst concluded stating that the CVC was looking for council support as they move through the sub-water sheds.

Councillor Pat Mullin complimented on the good working relationship between the CVC and the City. She noted that intensification and climate change is playing a major role in terms of storm water management and given the changes in this area, the presentation was timely and policies were needed in this regard. Councillor Mullin advised that she and the CVC met with the Minister of Natural Resources and put forward the City's needs including funding, adding that the Sheridan Creek was critical and affects the Rattray Marsh. Further the Councillor indicated that they have written to the Minister following the meeting, with respect to the issues raised and hoped that with her support and funding, the City can move forward in a positive way. Also, she hoped that with recent changes in the Planning Act, more care will be taken to protect these sensitive areas and felt that the monies will be put to good use.

Councillor Maja Prentice suggested that the presentation be sent to the Toronto Region Conservation or make a similar presentation at one of their future meetings. She also felt that it was important for the CVC and the TRC to work together and was advised that they work closely together and share information.

Councillor Carolyn Parrish complimented the project and suggested that she share the information with other organizations and individuals like veterinarians so that they can promote the impacts of chemicals on lawns which hurt animals; adding that chemicals in swimming pools are then drained into the storm sewer. She advised that she has a salt water pool and residents should be told that they should not drain their pools into the sewers but should be professionally maintained.

Mayor Hazel McCallion concurred adding that people needed to be educated on the simple solutions that are available i.e. not draining pool water into the storm sewer system, converting to salt water pools, etc. She stated that it is her understanding that there is a problem with salt water pools and suggested that this be brought to attention before people convert their pools and find out that there was a problem as the conversion was costly. Phil James, Water Resources Engineer at the CVC responded to Mayor McCallion's queries with respect to draining salt water pools and its disposal in a safe way without impacting the neighbour, damaging property, etc.

Mayor McCallion was advised that staff at the CVC were looking at salt water pools which are a relatively new use and were looking at educating on how to deal with pool water in a responsible way. The Mayor complimented the CVC for their work on the environment and thanked them for working with staff in the city.

(d) International Soccer Club

Tarek Sabry, Volunteer with the International Soccer Club addressed Council to speak about their soccer organization serving children in Mississauga from 5 – 12 years in age. He explained that they were a not for profit organization based in the north west of Mississauga. With the use of a power point presentation, Mr. Sabry explained that their objective is for their organization to provide children athletic and social fusion through the game of soccer which is played in many countries. Their program, launched in May of this year, consists of professional coaches and they have attempted to have every team in every age group come from a different country so that they get to learn about the countries as well as the sport.

Mr. Sabry advised that they charge a nominal registration fee and have the support of 14 embassies in Ottawa who provide them with education material to enhance the learning experience. Mr. Sabry requested that Council support their work and assist them in their request to become affiliated.

Councillor Eve Adams complimented the program which would bring together education about world geography using sports and offered to promote it in her community.

Councillor Pat Saito also expressed support for the program stating that she was impressed that children were learning while having fun. She advised that she has a meeting arranged with staff to go over the concerns raised with respect to the affiliation process. She hoped that the City can work with his group so that the program can continue. Councillor Saito felt that there was enough need for soccer organizations in Mississauga to meet the need,

however, there could be a problem with availability of the soccer fields because they are booked well in advance.

Councillor Nando Iannicca expressed support for the group as he felt that soccer was very affordable when compared with hockey even from a City maintenance point of view as it related to a soccer field versus an arena. He hoped that the City can have more artificial turf pitches as they are very cost effective.

Councillor Sue McFadden advised that she has met with the organizers and offered to work with Councillor Pat Saito to assist the group to make their dream of bringing children from all countries to together in a game of soccer while learning about the countries.

Mayor Hazel McCallion suggested that one of the groups should represent Canada and all attempts must be made to integrate these children into Canada. She felt their uniforms could showcase Canada as well as the country they represent or their where their parents came from. She stressed that there was a job to do in promoting Canada, the country that these children live in. Mayor McCallion added that Canada, Ontario and Mississauga should be actively promoted, adding that she wished there be a Canadian Team participating in World Soccer as well.

Mr. Sabry advised that their objective is to have a Canadian team in each age group. He explained that their coaches are professional teachers and are paid for their services.

Councillor Carolyn Parrish also complimented the program and suggested a Canada patch on their uniforms to comply with Mayor McCallion's suggestion relating to Canada.

(e) Car Free Day Festival and Challenge – September 21 & 22, 2008

Glenn Gumulka, Executive Director of Smart Commute Mississauga, addressed Council with respect to plans for the Car Free Day Festival and Challenge on September 21 and 22, 2008. With the use of a power point presentation, he explained the Smart Commute objectives, their Mississauga member clients and the services they provide. Mr. Gumulka advised that their members cover most areas of the City and suggested that the councillors refer Smart Commute to companies who complain about traffic congestion. He pointed out that they have launched 14 corporate carpool programs and eliminated approximately 16,000 car trips.

Mr. Gumulka promoted the car free event and requested that Council also promote the event, adding that they hope to have at least 1000 Mississauga residents pledge to be car free during the event. He stated that the program is in partnership with “My Mississauga” Also, with funding from the Trillium Foundation, he has worked with the Sierra Club and hoped to make it a big event. Further, Mr. Gumulka advised that he hoped to get a letter signed by Mayor McCallion challenging employees to ride their bike on September 22, 2008. He complimented the cooperation from Metrolinks, Environmental Committee, Cycling Advisory Committee, Mississauga Transit, GO Transit, etc.

Mr. Gumulka urged residents to ride their bikes on September 21 and 22 to the Civic Centre where there will be bands, roaming acrobats, and other family events with displays, prizes and give aways.

Members of council thanked Mr. Gumulka for his momentum and applauded the event. Councillor George Carlson complimented on his efforts as being an asset to the Environmental Advisory Committee and hoped that similar events can be held more frequently.

Councillor Carmen Corbasson stated that she is a big supporter of carpooling and stated that she has observed a high volume of cars on Hurontario Street with one person per car and there was an opportunity to capitalize on carpooling in this section of Mississauga. Also, Councillor Corbasson asked if Smart Commute had been in contact with Astra Zeneca and suggested that they be contacted again.

Mayor Hazel McCallion asked if carpooling was promoted within the City of Mississauga employees and was advised by the City Manager, Janice Baker, that staff are looking on car pooling, pay parking and alternative ways of transportation to work. She also pointed out to an internal website on how they can carpool.

Mayor McCallion also announced that she plans on riding her bike on September 22<sup>nd</sup> and challenged other members of council to join her ride to work that day. Further Mayor McCallion noted that carpooling on Hwy. 401 was working and education was key to getting people off their cars.

(f) Kids.Now Canada

Diana Davis, Volunteer Management Coordinator for Peel Region and Halton Region addressed Council regarding the Kids Now Canada educational and leadership program. It is a free educational leadership afterschool program in

both school boards and is voluntary to the children. Ms. Davis explained the curriculum which included receiving and giving feedback, stress management, conflict management, etc. Also she stated that pre-teen children are faced with a lot of challenges and tend to go to their friends for advice and guidance instead of their parents and may not make the right choice. She explained that this program would give children an opportunity to get direction, develop self esteem and interest in skills and hobbies. The program also compliments school curriculum, teaches positive behaviours and helps to reduce drug use, improves student behaviour and attitude towards the school in general. Further, she noted that coaches also benefit from the program. Several companies have contributed in a variety of ways including funding.

Ms. Davies provided the opportunities available for Mississauga residents and asked Council to promote the program in schools and their need for coaches who are energetic and enthusiastic about the program to help kids.

Councillor Katie Mahoney noted that the program has corporate funding from Corporate Sponsors including State Farm.

Mayor Hazel McCallion suggested that the program be taken before the School Boards, adding that the City's community centres and libraries are already open to children after school to keep them mentally and physically healthy.

Councillor Eve Adams referred the deputant to the Walmart At Play program which also keeps children occupied after school. She explained the various activities offered under this program which included arts and craft, recreation, etc. and offered to get her in contact with the organizers of the Walmart at Play program.

R-2 Supplemental Report Bill 20: Rezoning Application OZ.06/010  
1505 Hurontario Street (Ward 1)

---

Report dated August 18, 2008 from the Commissioner of Planning and Building seeking approval of Rezoning OZ.06/010 subject to a condition.

RECOMMENDATION:

That the Report dated August 18, 2008, from the Commissioner of Planning and Building recommending approval of the application under File OZ.06/010 W1, Kieran Concannon, 1505 Hurontario Street, east side of Hurontario Street, north of Pinewood Trail, be adopted in accordance with the following:

1. That notwithstanding that subsequent to the public meeting, a change to the application has been proposed, Council considers that the change does not require further notice and, therefore, pursuant to the provisions of subsection 34(17) of the *Planning Act*, R.S.O. 1990, c.P.13, as amended, any further notice regarding the proposed amendment is hereby waived.
2. That the application to change the Zoning from "R1-20" (Detached Dwelling or Office) to "R1-20, as amended" (Detached Dwelling, Office or Office with one Dwelling Unit) to permit an increase in the maximum permitted gross floor area from 200.00 m<sup>2</sup> (2,152.85 sq. ft.) to 383.00 m<sup>2</sup> (4,122.71 sq. ft.) for office and/or residential uses, in accordance with the proposed zoning standards described in the Information Report, be approved subject to the following condition:
  - (a) That the applicant agree to satisfy all the requirements of the City and any other official agency concerned with the development.

3. That the decision of Council for approval of the rezoning application be considered null and void, and a new development application be required unless a zoning by-law is passed within 18 months of the Council decision.

R-3 Naming of New Fire Training Centre – 7535 Ninth Line (Ward 9)

Report dated September 2, 2008 from the Commissioner of Community Services with respect to the Naming of New Fire Training Centre – 7535 Ninth Line (Ward 9)

RECOMMENDATION:

1. That the new Fire Training Centre to be located at 7535 Ninth Line in Ward 9 be named “The Garry W. Morden Centre – *Dedicated to Fire and Life Safety*”.
2. That Council waive the 30 day consideration period as outlined in the City’s Property and Facility Naming and Dedications Policy.
3. That Council waive the requirement that recognition of an individual be posthumous, as outlined in the City’s Property and Facility Naming and Dedications Policy.

Councillor Pat Saito spoke to the Corporate Report stating that it was timely to recognize the dedication and contribution of the Fire Chief, Garry Morden, to fire services in Mississauga and it was only appropriate to do the naming at the ground breaking ceremony of the new fire training centre as he was instrumental in this facility moving forward. Councillor Saito stated that both Council and staff are behind this naming and requested a recorded vote. She stated that council wished to recognize the incredible contribution by the Fire Chief and as they move into the ground breaking, the timing of this naming is appropriate.

Mayor Hazel McCallion stated that all members of council were behind him and hoped he would be in better health to come back to be with them. Also, Mayor McCallion asked that staff revisit the corporate policy to allow a facility to be named while they are living so that an exemption is not required by Council.

A recorded vote was requested with the following results:

R-4 Vancouver Olympic Games, Olympic Torch Relay Community Celebrations

Report dated September 4, 2008 from the Commissioner of Community Services seeking direction to make application to have Mississauga identified as a torch relay celebration site as part of the 2010 Olympic Winter Games to be held in Vancouver, BC.

RECOMMENDATION:

1. That the City of Mississauga be considered as an Olympic Torch Celebration site.
2. That the Commissioner of Community Services be authorized to sign and submit documentation to the 2010 Vancouver Olympic Organizing Committee.
3. That, subject to approval of the request, staff submit a further report providing budget and program details of the proposed celebration.

In response to a query by Mayor Hazel McCallion about the budget and sponsorship for the above event, Paul Mitcham, Commissioner, advised that the budget could be in excess of about \$100,000 and they were looking at sponsorship. He stated that the program for the day was not yet in place and a budget figure would be premature, adding that they were hoping to plan an outstanding and compelling program that would have merit to the community. Mr. Mitcham indicated that his department would come back with a further

report once they had an outline for the event and costs were known. Janice Baker, City Manager, added that other potential sources of funding could be investigated including the Arts Reserve for the cultural portion of the event.

Councillor Pat Saito reminded that in 1988, Mississauga was selected for the Olympic Torch relay, it was a full day event and Petro Canada was the sponsor at that time. She suggested that the documentation make notation that Mississauga has done this successfully before, adding that the Olympic Committee was very impressed. Councillor Saito suggested that staff check with the Communications Department where she worked at the time, for the records for that event to provide guidance in how it was done.

Mayor McCallion noted the Province wished to bid for the PanAm Games and the City should be prepared to bid for it.

P-1 **Increase in Senior's Annual Bus Pass**

Petition dated August 11, 2008 from seniors expressing concern with the annual increase in the cost of the annual bus pass.

Councillor Carolyn Parrish advised that she sympathized that the cost of the senior's pass has been going up and wondered if staff have checked with the other municipalities on the cost for such passes. Also, she asked if the department had statistics as to the average use by seniors and whether there was merit in placing restriction on when seniors could travel using these passes.

Councillor Nando Iannicca expressed concern that the number of seniors across Canada was growing rapidly and the City could be asked to address how they deal with rising costs for seniors. He pointed out that there will be a need to distinguish between the seniors who are in need and those who are not, especially given that statistics indicate that one in three will be a senior.

Mayor Hazel McCallion concurred with the remarks made by Councillor Iannicca stating that there were many services that would be impacted if the City began to grant seniors discounts and this would put City budgets in jeopardy.

Councillor Maja Prentice explained that one of the reasons the cost has been rising is because the senior fare was very low and it was decided that the fare be increased each year on a gradual basis until it was comparable with other municipalities. Also, she pointed out that fuel is a huge impact on transit.

Councillor George Carlson enquired about the number of passes sold on an annual basis which was felt to be relatively low. Martin Powell, Commissioner, responded that seniors could also purchase monthly passes which was put in place to help seniors who did not wish to put out all the money at one time. Also, some seniors are away for several months of the year and the monthly passes would help them.

Referred to the Transit Division, Transportation and Works Department, for response

#### 14. **OTHER BUSINESS**

(i) **Motion – Conversion of Single Family Homes to Rooming Houses**

Councillor Katie Mahoney introduced a motion with respect to single family homes around the University of Toronto, Mississauga Campus, which were being converted into student rooming houses. She read out the motion stating that the situation was critical and there was an urgent need for staff to review the City's Official Plan and Zoning By-laws as many additional bedrooms were being created within the residential home. She advised that these conversions can only be enforced currently under a complaint against a building or fire code infraction.

Councillor Mahoney stated that there are many students living in Mississauga but had concerns with the current trend of homes being purchased and converted into rooming houses particularly in Wards 7 and 8 and requested that staff bring back a report as soon as feasible.

A verbal motion by Councillor Mahoney, seconded by Councillor Iannicca to deal with this matter, was voted on and carried.

Mayor Hazel McCallion suggested that staff look at the Cities of London, Guelph, Kitchener-Waterloo and Hamilton to see how they deal with this matter.

(iii) **Resignation of Doug Watson from the Credit Reserve Association (CRA)**

Councillor Carmen Corbasson thanked Doug Watson, President, CRA, for the countless hours he spent on the CRA Executive and was now stepping down after about 17 years and helped in dealing some major issues that shaped Port Credit through a very thorough and in-depth consultative process. The Ward

Councillor also thanked his wife for her contribution to assist him in his duties.

Mayor McCallion added that his comments and research were not limited to Port Credit but an overview of the City as a whole.

(vi) Streetsville's 150<sup>th</sup>. Anniversary

Councillor George Carlson spoke about the kick off of the Streetsville's 150<sup>th</sup>. Anniversary and spoke of the events planned for that day and all were welcome. He thanked the organizers for all their work during this past year.

(vii) Rooming Houses

Councillor Maja Prentice advised that she had received numerous calls about rooming houses in residential neighbourhoods where a large number of individuals live in a home with disregard to the neighbours. She stated that they create problems relating to parking, garbage and noise.

Councillor Prentice asked how other municipalities were dealing with this and how it could be controlled.

(viii) Audio Equipment in the Council Chambers

Councillor Pat Saito expressed concern with the inconvenience of having a staff person to work the microphone system every time a member of council wished to speak during committee and council. She advised that she had the opportunity to try out the Region of Peel's new equipment and found it to be just the way she had envisioned this council chamber to work. In addition, the equipment was installed by the same supplier as the City and they have advised that they can provide the same here in this Council Chamber.

Councillor Saito stated that ineffective use of staff resources to have additional staff attend each committee and council meeting to work the speaker's list, suggesting that the cost of the individual's time could be offset by installing the same equipment as at the Region of Peel which would allow the councillors to turn on their microphones when they wished to speak.

Direction was given to staff to look at the Region's new equipment and bring back a recommendation.

(xi) East Mississauga Community Health Centre, Lamp Inc. in the Dixie-Dundas Area

Mayor Hazel McCallion stated that East Mississauga Community Health Centre, Lamp Inc. was opened recently and would compliment the health system.

Councillor Maja Prentice advised that this Health Centre will service the residents of Wards 1 and 3, many of who live in the area without their own transportation. . It was a welcome addition to the area and also complimented the efforts of the Dixie Bloor neighbourhood Centre. Further Councillor Prentice stated that a former restaurant was transformed for this health centre and she was very impressed with the facility which she expects to tour shortly and invited members of council to join her if they wished.

## 5. INQUIRIES

- (a) Questions from Councillor Carolyn Parrish with respect to Sound Walls.

Mayor McCallion hoped that this matter did not keep coming back to council, especially when two other councillors were able to negotiate with their residents at a 50/50 cost sharing. Mayor McCallion offered to attend a meeting in Councillor Parrish's ward to convince them that the 50/50 would provide an improvement to their home.

Councillor Carolyn Parrish advised that staff from the Transportation and Works Department were reviewing the Ministry policy as well as Development Charges Act for other sources of funding. The councillor stated that she wished to look at alternatives, the fallen down walls were not providing noise abatement and it was an issue of affordability to her residents. Also, she asked that a report be brought back to council with responses to her questions since she requested that the questions be placed on a council agenda.

Councillor Katie Mahoney offered to attend the meeting as well, along with a resident from Ward 8, adding that many noise walls in her ward became costly due to the larger lots.

Councillor Maja Prentice stated that she had a difficult situation in her ward and the president of the homeowner's association came to the meeting and spoke to the residents to explain that they were benefitting and this would assist in helping other residents as well. Councillor Prentice offered to bring this President to the Ward 6 meeting if she wished. Further, Councillor Prentice noted that there are some residents who have made up their mind to not pay anything for these fences and hence changing the policy would not benefit.

Mr. Tolentine Fialho, a resident on Galloway Crescent addressed Council and pointed out that Mavis Road, north of Hwy. 403 did not have any sound walls

and questioned why some areas of the same road were treated differently, particularly since their bedrooms were on the upper level and had no protection. He also referred to the south side of Burnhamthorpe Road which did not have noise walls while the north side had them.

Councillor Prentice explained that the homes on the south side were built before the policy came into effect and if they wished to have these noise walls put in place, they would have to follow the same City process. She urged him to be part of the program as they were getting 50% paid for by the general taxpayer.

Martin Powell, Commissioner, explained that the Provincial regulations speak about quiet space in their rear yards and hence the homes to the north of the Hwy. 403 were built with a service road arrangement. He stated that they have looked at other alternatives because these residents still complain about noise in their front yards.

Councillor Parrish felt that this may be a good case to change the Development Charges Act to include these walls because traffic on Mavis Road has increased considerably due to development. She asked staff to find out what would happen if the residents simply refused to pay towards these walls and erected a regular fence instead.

Mayor McCallion asked staff to include in their report how those who have already paid under the 60/40 and 50/50 program, also pointing out that there will be those residents who will not want to pay anything.

Councillor George Carlson added that the recommendation for the 75/25 percent charge was so that residents paid 25% which is calculated as the cost for a regular board on board fence.

Mr. Luigi Francescutti, a resident of Galloway Crescent, also addressed council to state that a car ran into his fence and his insurance requested that he pay the \$500 deductible. He did not feel that the noise barriers protected the residents from the many large commercial trucks that use Mavis Road. Also, he pointed out that Mavis Road used to be only 2 lanes and is now a major arterial with direct access to the Hwy. 403. He also pointed out to the amount of pollution that is emitted by these trucks whose chimneys are higher than the noise walls.

Re: Canada Day – Committee of Council

*Whereas* Canada Day 2008 was successfully expanded to include an evening program with entertainment, a sponsors' reception and pyrotechnics;

*Whereas* the evening program was co-ordinated by a Technical Committee made up of staff, councillors and citizens;

*Whereas* the evening program shared the expenses and logistics associated with the daytime program such as security, road closures, parking, washroom facilities, sound systems, advertising etc;

*Whereas* the staff and the members of the Technical Committee recognize that one committee responsible for the complete event would minimize duplication and maximize resources;

*Therefore be it resolved* that a Committee of Council be struck to co-ordinate fundraising, programming and other practical considerations surrounding Canada Day at City Centre,

*And further*, that the committee be made up of four councillors, six citizens and all necessary staff,

*And further*, that a staff report outlining proposed terms of reference of the Committee be presented at the first scheduled meeting, for review and discussion,

*And further*, that one volunteer from each committee that has traditionally run Canada Day programs in Port Credit, Streetsville and Hurontario be invited to attend regularly scheduled Canada Day Committee meetings as ex-officio members.

In response to a query by Mayor Hazel McCallion with respect to the number of councillors being recommended to sit on the committee, Councillor Carolyn Parrish advised that she was recommending councillors because the two ward councillors (Councillors Dale and Iannicca) provided many resources to the event and Councillors George Carlson and herself brought in creative ideas that worked well together as a team and all councillors were agreeable to sit again on this Committee for another year.

Councillor Parrish also explained that she hoped that representatives from other Canada Day event organizers could attend the committee meetings and work together to get better prices on items that were common to the other events.

Paul Mitcham, Commissioner, stated that the motion was the formalization of the committee that worked well together and hoped to operate the event under the “My Mississauga” banner and as the launch of the summer events.
