

Streetsville Main Street Square Redevelopment

Streetsville, Mississauga

Design Concept

April 24th, 2013

Placemaking & Community Engagement

OUR PARTNERS

The village of Streetsville on the banks of the Credit River was established in 1824 on a tract of land granted to Timothy Street from the British Government for his work surveying this area of the Credit River. Streetsville was one of the many villages incorporated as the City of Mississauga in 1974 that has grown to become Canada's sixth largest city.

The City of Mississauga, working with the Streetsville BIA is currently planning the redevelopment of Main St. Square in the heart of Streetsville as a people place for site programming and to enliven the space throughout the year for the benefit of local residents and businesses

This project is partially funded by the Ontario Government's Healthy Communities Fund.
