

EMPLOYMENT SERVICES

There are a number of programs, services and tools available for job seekers all over Ontario; this employment directory can help you find most of them. Keep in mind that services vary according to location and some new initiatives might be introduced by the agencies after we publish this issue.

The services listed in this directory include general employment information, orientation and referrals, credential assessment, career assessment, career planning, workshops, résumé / cover letter assistance, job interview preparation, networking opportunities, soft skills training, Canadian labour market preparation, job finding clubs, job connect, assistance for entrepreneurs, bridge to employment programs, resource

centres and many more.

All the agencies provide services in English, but they might be able to help you in different languages as well. It doesn't mean that services are provided in a language other than English necessarily, it means that the agency might have translator who can help you.

Some of the services are funded by Human Resources and Skills Development Canada, Citizenship and Immigration Canada, Employment Ontario, Ontario Ministry of Citizenship and Immigration, and the Ontario Ministry of Training, Colleges and Universities, among others.

About Midaynta

Advertorial

Midaynta Community Services is a registered Canadian Charity organization that provides settlement services and other programs that advance education by providing courses, seminars, meetings, counselling and other support services. Midaynta's aim is to improve the standard of living of families, women and children, youth and seniors by the provision of quality settlement services

through social, community economic development and capacity building.

We provide free and friendly settlement and community development services and advocate for largely underserved marginalized communities.

Even though the settlement services provided continue to play a major role in the community's integration process, Midaynta has expanded its services

to the community considerably. Today, the organization is managing and delivering more than a dozen programs and services in the areas of settlement, employment, public education, housing and homelessness, child welfare protection, mental health support, family violence and crisis prevention/intervention and counseling, problem gambling services, victims services, socially isolated women support, youth leadership development and crime prevention, youth sports and recreation, seniors services and general community development. We have intensified our outreach efforts, expanded our programs and services, established new collaborations, networking and partnerships with both mainstream and ethno-cultural organizations in the city and increased our service delivery base substantially.

Newcomers Well-Supported at the YMCA

The YMCA of Greater Toronto is a charity focused on community support and development, with an aim to provide every individual within its communities with opportunities for personal growth, community involvement, and leadership. As one of the largest charities in North America, the YMCA of Greater Toronto helps over 400,000 people each year through multiple programs that include: child care; health, fitness and recreation; camps; volunteering; international programs; youth outreach; family development; youth leadership; employment services; and, newcomer services.

Since its inception in the late 1970s as the first YMCA settlement program, Korean Community Services (KCS) has been offering one-on-one support to mostly Korean and Mandarin-speaking newcomers settling in the area that is now known as Little Korea, along Bloor Street West. KCS offers clients basic orientation, settlement workshops, interpretation and translation services, form-filling assistance, counselling, and a community income tax clinic.

In 1992, the YMCA opened the Language Assessment and Referral Centre and began evaluating the English language skills of newcomers and referring them to classes for LINC (Language Instruction for Newcomers to Canada). Landed immigrants receive support in finding English language training that best meets their needs, including those with childminding. The Centre now also assesses for a variety of Higher-Level Language Training Programs which include: Enhanced Language Training (ELT), Occupation-Specific Language Training (OSLT), Bridge-to-Work (BTW), and Specialized Language Training (SLT).

In 2001, the YMCA launched the first Newcomer Information Centre (NIC), a 'welcome hub' offering settlement information and referral; education, employment and Canadian culture workshops; community guest speakers; and youth services. Registered members receive member cards that provide access to a resource centre with computers, internet, library, and business machines.

In 2007, the Newcomer Youth Leadership Development (NYLD) program was introduced as a means to assist newcomer youth and their parents to have a positive settlement experience. NYLD is a unique leadership-based youth group program which focuses on integration, settlement, skill-building, volunteerism and community involvement. Parents can take part in workshops that relate to raising youth in Canada. Additionally, family engagement activities allow both parents and youth to take part in field trips, celebrations and special events.

In 2009, *Voices: the YMCA Newcomer Youth Film Project* was launched, providing newcomer youth with hands-on training to shoot and edit their own short films, inspired by their immigration and settlement experiences. The films are premiered at the YMCA Voices Film Festival, then compiled onto DVD format and distributed to schools, libraries, settlement agencies, arts organizations and more.

YMCA Newcomer Settlement Programs have locations all across the GTA and are funded by Citizenship and Immigration Canada. Visit www.ymcagta.org/newcomers to learn more.

cim

YMCA **New to Canada?**
The YMCA of Greater Toronto is the first stop for thousands of newcomers every year!

Get free access to:

- Settlement services
