

Moving Forward -- City Centre Transit Terminal Expansion

- Located on the north side of Square One Shopping Centre, the City Centre Transit Terminal is the main hub of the Mississauga Transit system.
- Approximately 40,000 passengers travel through the City Centre Transit Terminal on a daily basis.
- With the City Centre Transit Terminal expansion, Mississauga Transit now has exclusive use of 19 bus stops.
- The terminal expansion has created greater pedestrian access to bus stops, contributing to the safety and convenience of Mississauga and GO Transit customers.
- Within the terminal building, the customer information booth has been relocated, improving customer flow and reducing congestion. The new booth is wheelchair accessible.
- A new, fully accessible concession kiosk has been constructed with an additional sales window to serve customers more efficiently.
- Customer information panels displaying transit information are now larger and more prominent within the facility.
- GO Transit now has a separate bus station located on Station Gate Road. This station includes bus shelters, platform space and passenger facilities. As a result, Mississauga Transit and GO Transit are able to run independently, alleviating customer confusion.
