## Policy Statement

Funds are allocated each year, through the current budget process, to partially pay for driveway improvements where the old roll type curb exists.

## Costs

Residents are required to pay for necessary curb cut, at a fee as established in the City's Fees and Charges By-law.

The City absorbs expenses for re-paving the portion of the driveway that exists between the curb and the sidewalk. Work is scheduled/programmed based on current workload and priorities.

## Request for Curb Improvement

Residents may apply for a curb improvement at the Engineering Counter, Transportation and Works Department. All fees must be paid at the time of application.
