**Policy Number: 10-06-10**

**Section: Roads and Traffic**

**Subsection: Road Construction and Maintenance**

**Effective Date: July 8, 2014**

**Last Review Date: March, 2026**

**Approved by:**

**Owner Division/Contact:**

**Council**

**Works Operations & Maintenance Division, Transportation and Works Department**

### Policy Statement

Funds are allocated each year, through the current budget process, to partially pay for driveway improvements where the old roll type curb exists.

### Costs

Residents are required to pay for necessary curb improvements, at a fee as established in the City's Fees and Charges By-law.

The City absorbs expenses for re-paving the portion of the driveway that exists between the curb and the sidewalk. Work is scheduled/programmed based on current workload and priorities.

### Request for Curb Improvement

Residents may apply for a curb improvement through the City's website at:  
<https://www.mississauga.ca/publication/access-modification-permit-application-form/>

All fees must be paid at the time of application.
