

Small Project Matching Grant Program

2019 Program Results

Program Overview

Launched in March 2017, through the Recreation Divisions Neighbourhood and Community Development Unit, the Small Project Matching Grant Program provided funds to Affiliated and Recognized Community Groups in good standing with the City of Mississauga's Community Group Support Policy (08-01-01). Funded projects strengthened neighbourhoods, increased resident engagement and enhanced opportunities for Mississauga residents to participate in events and activities at the neighbourhood level.

A maximum of \$2,500 could be requested by a community group to support a specific new initiative that was outside of the normal range of activity for the group to be implemented and completed in 2019. Applicants were required to match funds requested from the City with the equivalent value of volunteer time, donated goods & services or other funds.

Approved Applications

Organization Name	Project	Funding Received
Churchill Meadows Residents Association	A Community Event with a main purpose to promote sustainable living through the promotion of recycling and reusing while also bringing the Churchill Meadows and wider Mississauga community together. This will be achieved by an electronic waste collection drive, community garage sale, and bicycle tuning workshop.	\$2,500
