

Interior Alterations

The Ontario Building Code Act, 1992, S.O. 1992, c. 23 states the following when making changes to a building.

Notice of Change

(12) No person shall make a material change or cause a material change to be made to a plan, specification, document or other information on the basis of which a permit was issued without notifying, filing details with and obtaining the authorization of the chief building official.
1992, c. 23., s. 8(12).

A building exists, in its current configuration, as a result of the plans that have been approved by the City of Mississauga Building Division. Should a building be altered materially or otherwise, it would constitute a deviation from the approved plans and as such would require authorization from the Chief Building Official in the form of a building permit. The documents necessary to make a building permit application can be found on our web site
