

NOTICE OF CLOSURE OF SECOND LINE AND SINGLE NIGHT FULL CLOSURE OF HIGHWAY 401

Highway 401 Widening from McLaughlin Road to East of the Credit River

Ministry of Transportation Contract 2015-2018

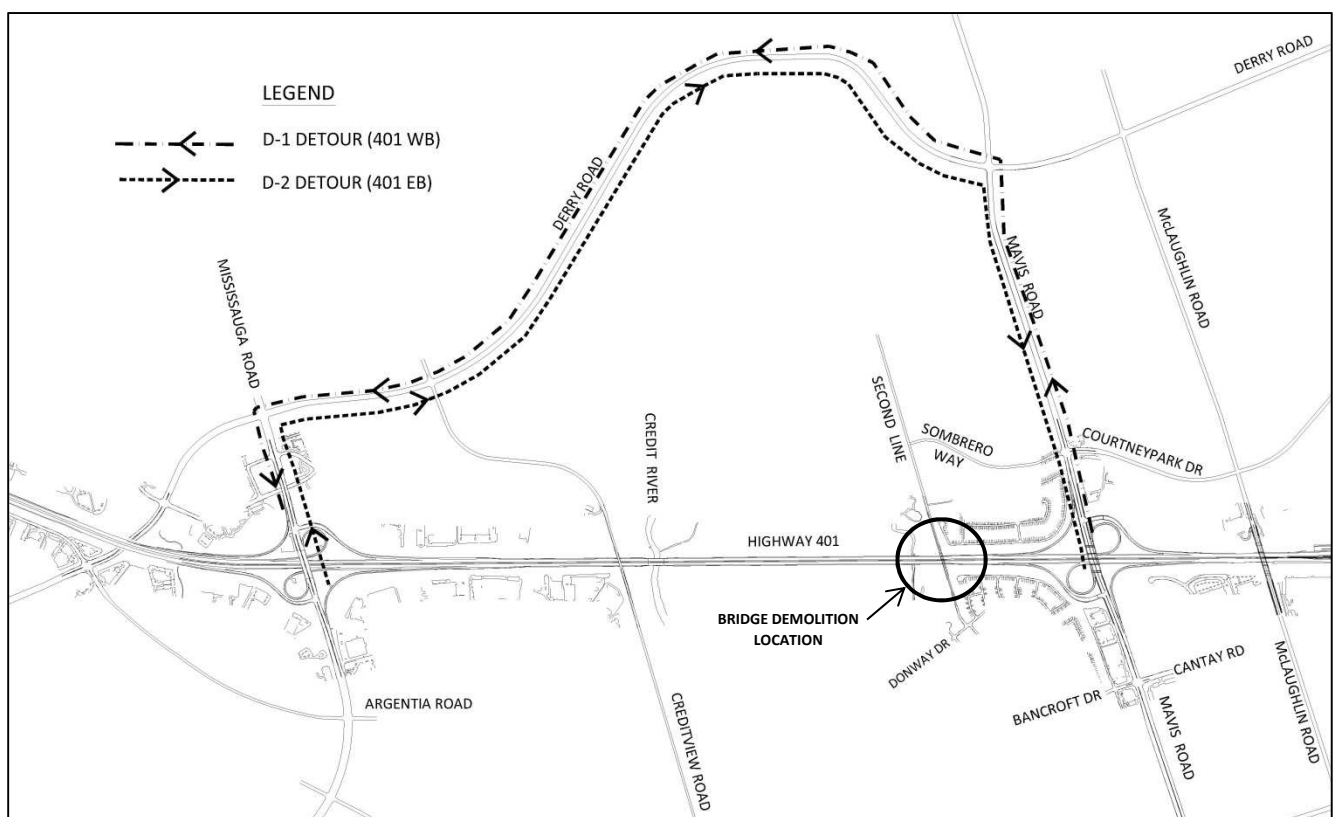

Please be advised, the Ministry of Transportation (MTO) will be removing the Second Line West bridge across Highway 401 to accommodate the widening of Highway 401, from east of McLaughlin Road to east of the Credit River. As a result, as of October 11, 2016, Second Line West between Donway Drive and Sombrero Way will be permanently closed to vehicular traffic. A new pedestrian/cyclist bridge at this location will be included in the MTO Highway 401 widening construction project and is expected to be open by the end of 2019.

The need to remove the Second Line West Bridge was documented by the MTO in a Transportation Environmental Study Report (TESR) approved in 2007. In 2010, the City of Mississauga's Cycling Master Plan identified a plan for a Second Line West pedestrian/cyclist bridge across Highway 401. The City of Mississauga received Class Environmental Assessment approval in 2015 for a pedestrian/cyclist bridge across Highway 401 as well as a multi-use trail from Sombrero Way to Donway Drive.

To facilitate the removal of the Second Line West Bridge, a full eastbound and westbound Highway 401 closure will be required for one night from Mavis Road to Mississauga Road / Erin Mills Parkway. This closure is currently scheduled for the night of Saturday, October 29, 2016. This date is subject to weather conditions and may be postponed to the following weekend if required. Lane closures on Highway 401 will begin at 9:00pm, and the highway will be fully closed at 11:00pm. Lanes on Highway 401 will begin to be reopened on Sunday, October 30, 2016 at 8:00 am, with all lanes scheduled to be open by 10:00 am. There will be no access to Highway 401 Westbound from Hurontario Street / Commuter Lot or Mavis Road and no access to Highway 401 Eastbound from Mississauga Road / Erin Mills Parkway during these times.

Residents adjacent to the demolition of the bridge are advised that higher than normal noise levels are expected during the scheduled full closure of Highway 401.

A signed detour route will be in place to direct traffic from Highway 401 around the closure. Westbound traffic will be detoured off Highway 401 at Mavis Road, north to Derry Road, then south on Mississauga Road / Erin Mills Parkway back to Highway 401. Eastbound traffic will be detoured off Highway 401 at Mississauga Road / Erin Mills Parkway, be directed north to Derry Road, and then south on Mavis Road back to Highway 401. To enhance traffic flow, police will be present at all major intersections along the detour route.

Updates regarding this closure and the project in general can be found at the project website at www.my401.ca
