

# Construction Map Quick Guide

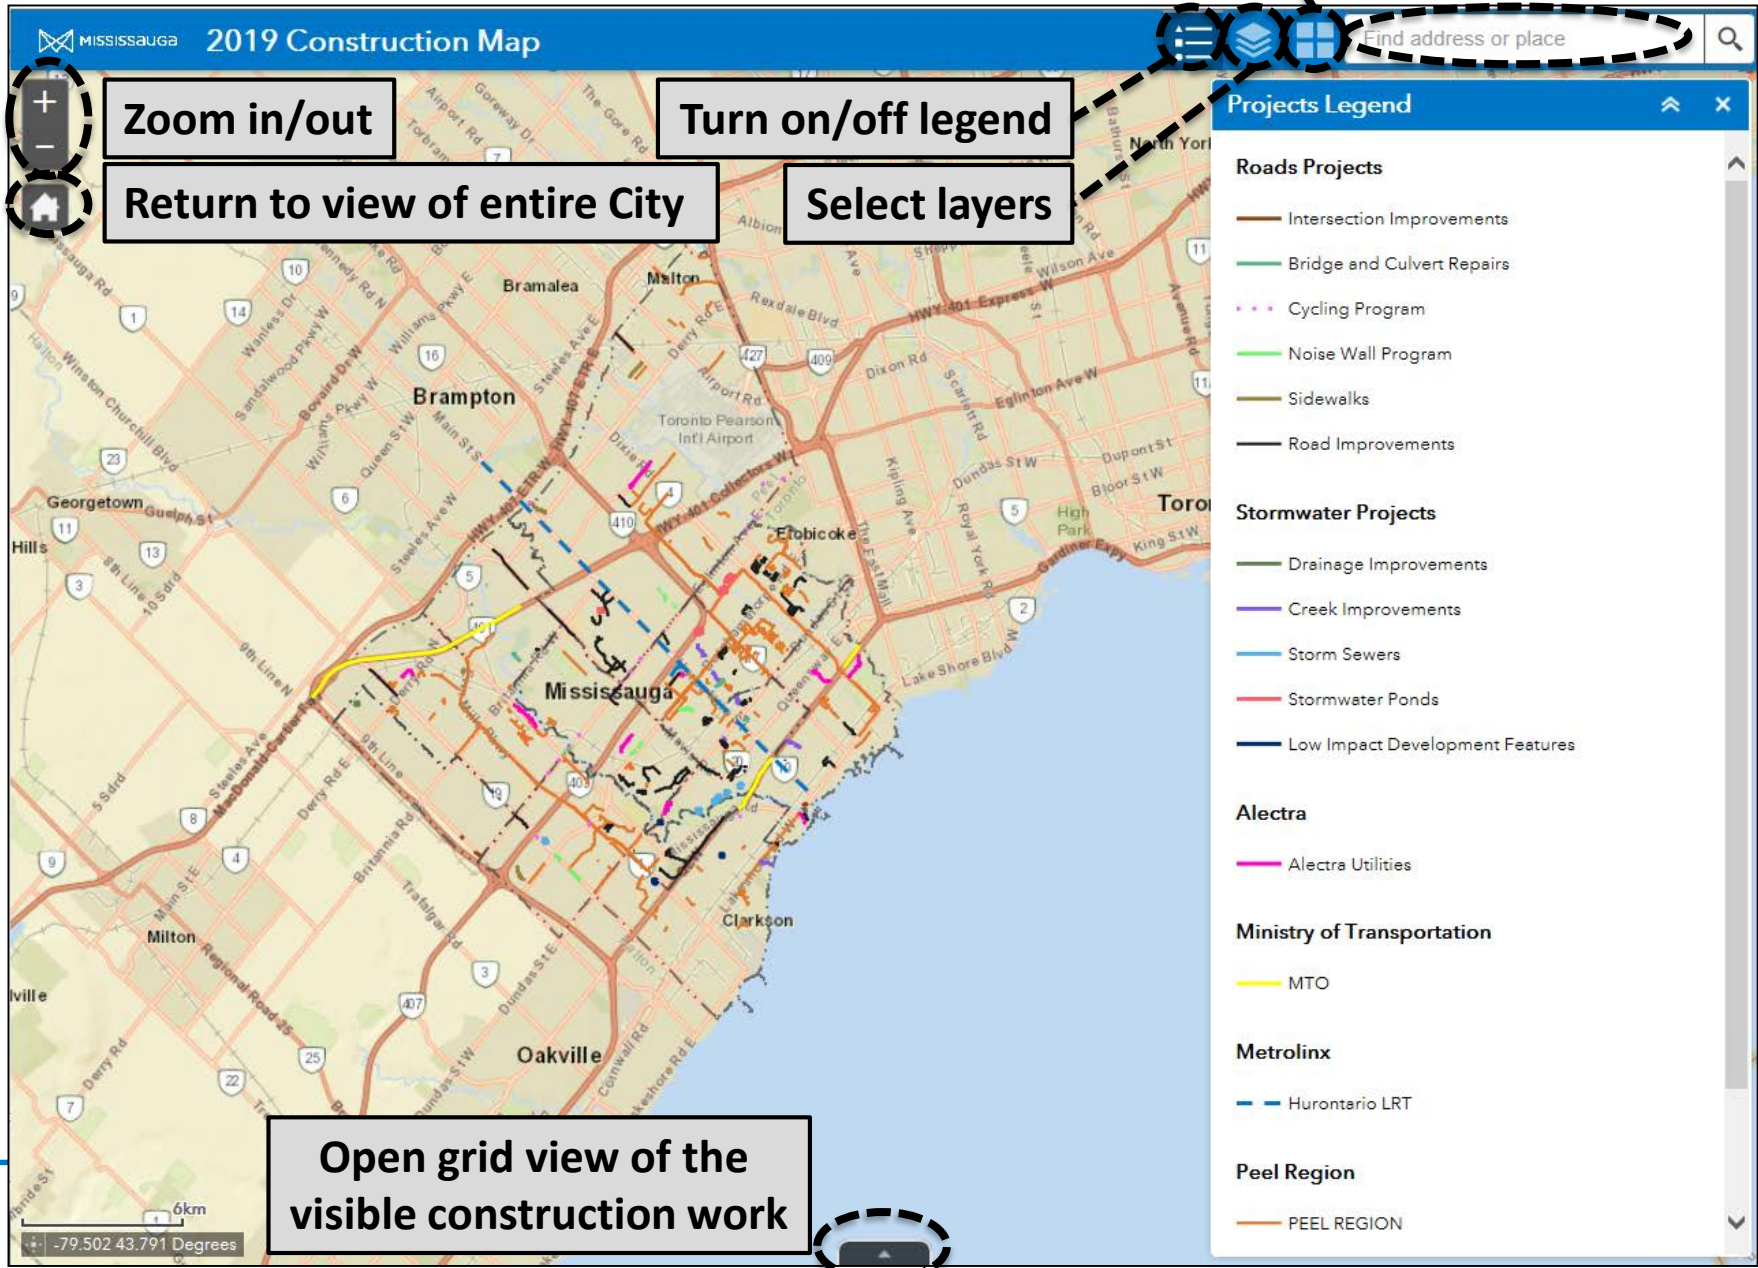

ArcGIS Online

# Main Screen

Change base map

Search for an address or intersection

Zoom in/out

Turn on/off legend

Return to view of entire City

Select layers

Open grid view of the visible construction work

# Grid View

At the bottom of the main screen, projects can be listed in grid view

- 1 Select the arrow to open/close the grid view
  - 2 Switch between tabs for different legend categories
- Note: Only projects shown in the main screen will be listed in grid view

# Project Popups

When selecting a project a popup information box will appear

On larger screens popups will be blue and white

On smaller screens popups will be white and black

If there is more than one project in the area clicked:

- 1 At the top there will be a counter shown
- 2 Use left/right arrows to navigate through the different projects

For mobile devices:

- 3 Click on the circled arrow to open a full screen popup
- 4 Click on the circled down arrow to return to main map
