

Lakeview Village Development

November 10, 2021

Housing Mix and Affordable Housing

- 8,050 residential units, including over 400 affordable units

Employment Lands/Economic Development

- Over 14 acres of employment lands in the new Lakeview Innovation Corridor
- Up to 1.5 million sq. ft. of employment space and 9,000+ jobs
- 180,000 sq. ft. of commercial space will service the everyday needs of the residents of the community while other areas, particularly the commercial space contained in the Village Square, will contribute to the waterfront being a vibrant destination

Active Transportation and Transit

- Over 5.5 kilometres of new bike lanes, including a new waterfront trail connection, making Lakeview one of the most cycle-friendly communities
- Also situated along a planned higher order transit route and within a future Major Transit Station Area (MTSA), which will be serviced by the new Lakeshore BRT that was just approved

Sustainability/Climate Change

- Potential for a vacuum waste collection system and a district energy system, which will help the City achieve its goal of 40 per cent emissions reductions by 2030 and 80 per cent by 2050

Parks and Green Space

- 67 acres of waterfront land dedicated to the City for parks, employment and cultural use
- 27 acres of overall parkland

Public Consultation

- Began in 2010 with Inspiration Lakeview
- Currently, the City is seeking feedback on proposed parks in Lakeview Village
- An [online survey](#) is available until December 9, 2021
