

NOTICE OF COMMENCEMENT OF TRANSIT PROJECT ASSESSMENT PROCESS AND VIRTUAL PUBLIC OPEN HOUSE #2

Virtual Public Open House #2 will present the progress made since Virtual Public Open House #1 held in September 2021 as well as next steps for each of the three (3) infrastructure projects:

LAKESHORE BUS RAPID TRANSIT (BRT) STUDY

Transit Project Assessment Process (TPAP) and Preliminary Design under Ontario Regulation 231/08.

The Project

The Study will assess the potential environmental effects associated with dedicated centre-running bus rapid transit (BRT) lanes for a two (2) km section of Lakeshore Road from Etobicoke Creek to East Avenue.

Several background studies pertaining to the natural, cultural, and socio-economic environments of the study area have been completed. Key findings from these studies, the preferred design, as well as potential impacts and mitigation measures will be presented at Virtual Public Open House #2.

The Process

The environmental impact of this transit project is being assessed according to the Transit Project Assessment Process (TPAP) as prescribed in *Ontario Regulation 231/08*, Transit Projects and Metrolinx Undertakings. As part of the TPAP, an Environmental Project Report (EPR) is being prepared, which documents the transit project, key findings of the background studies, and outlines the impacts and mitigation measures associated with the project. The EPR will be finalized and made available for a 30-day public and agency review on the Study website after a Notice of Completion has been issued.

LAKESHORE COMPLETE STREET STUDY

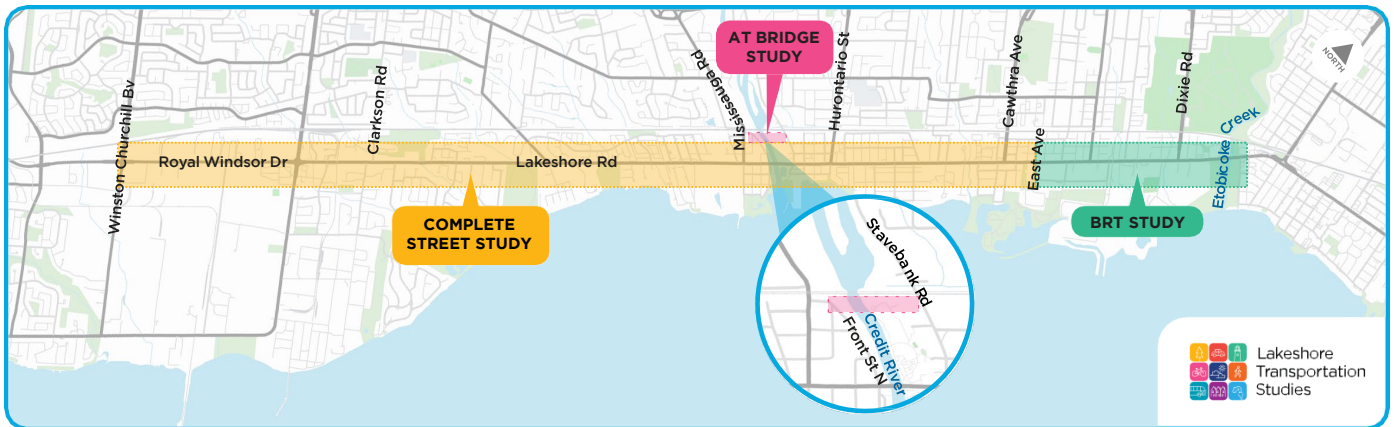

Schedule C Class Environmental Assessment (EA) Study and Preliminary Design

The evaluation of alternative transit solutions and the preferred solution for the Study Area will be presented at Virtual Public Open House #2.

NEW CREDIT RIVER ACTIVE TRANSPORTATION (AT) BRIDGE STUDY

Schedule B Class Environmental Assessment (EA) Study and Preliminary Design

The evaluation of alternative AT bridge design solutions and the preferred design solution will be presented at Virtual Public Open House #2.

Consultation

Anyone with an interest in any of the three projects can get involved and provide input at the virtual Public Open House.

How to Participate

There are two ways to participate.

Review Online Material and Provide Input

WHEN: Visit the Project Website anytime between **March 21 to April 8, 2022**, to view background information, project progress and preliminary project impacts. Materials are available 24 hours a day, 7 days a week. You will be able to provide input directly on the site through responding to survey questions.

Join the Virtual Information Meeting

WHEN: There will be a Virtual Live Meeting on **Wednesday, March 30, 2022 from 6:30 to 7:30 p.m.** The project team will provide an overview of key findings from the first Virtual Public Open House, present the preliminary designs of the BRT Study and introduce the preferred solution for the Complete Street Study and the AT Bridge Study. There will also be time during the meeting to answer your questions. The presentation recording will be available on the website after the meeting. Visit the website to register for the meeting and to submit questions in advance.

WHERE: Register online and provide input at
