Amendment No. XX
To
Mississauga Official Plan Amendment

The following text and map attached constitutes Amendment No. XX.

Also attached but not constituting part of the Amendment are Appendices I and II.

Appendix I is a description of the Public Meeting held in connection with this Amendment.

Appendix II is a copy of the Planning and Building Department report dated XX, XX, 2022, pertaining to this amendment.

PURPOSE

The purpose of this Amendment is to amend Schedule 10 to redesignate the subject lands from Mixed Use to Residential High Density. In addition, it will permit a nine-storey apartment building through site specific policies to the Lakeview Area Local Plan and Special Site and Exempt Site Policies.

LOCATION

The lands affected by this Amendment are known as 1407 Lakeshore Road East and are located at the northeast corner of Cherribell Road and Lakeshore Road East in the Lakeview Area Local Plan, as identified in the Mississauga Official Plan.

BASIS

The Mississauga Official Plan came into effect on November 14, 2012, save and except for those policies and land use designations which have been appealed to the Ontario Municipal Board.

An Official Plan Amendment is required to permit the proposed development of a nine-storey apartment building, containing 84 units on the subject lands.

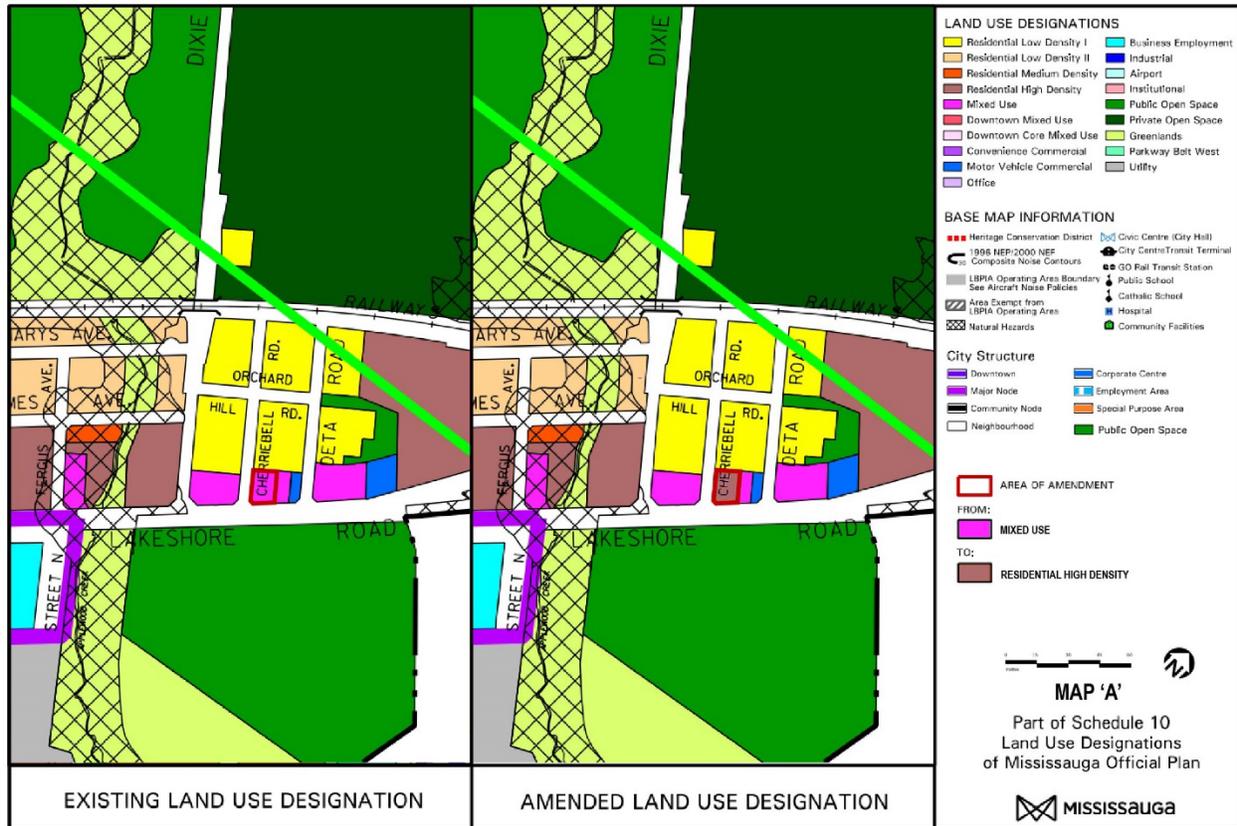

The subject lands are currently designated 'Mixed Use, Lakeshore Corridor Precinct Area – Outer Core'. Permitted uses on the subject lands include commercial parking facility, financial institution, funeral establishment, markerspaces, overnight accommodation, personal service establishment, post-secondary educational facility, residential in conjunction with other permitted uses, restaurant, retail store and secondary office. The Official Plan Amendment is required to redesignate the subject lands to 'Residential High Density'. As previously stated, the subject lands are currently located within the Lakeview Area Local Plan of the Mississauga Official Plan. This Amendment proposes to revise the Lakeview Area Local Plan to add the subject lands as a Special Site within the Lakeview Area Plan. This proposed Special Site policy will permit a maximum building height of 9 storeys. The proposed Official Plan Amendment is acceptable from a planning perspective and should be approved for the following reasons:

1. The proposed development is consistent with the Provincial Policy Statement (2020) and conforms to and does not conflict with A Place to Grow: Growth Plan for the Greater Golden Horseshoe (2019). In addition, the proposed development will bring the Peel Regional Official Plan (2018) and the Mississauga Official Plan (2015) into consistency with the Provincial Policy Statement and into conformity with A Place to Grow. The proposed development represents reinvestment and intensification of an underutilized site and will better utilize transit infrastructure investments.
2. The subject lands are located within a planned Major Transit Station Area on Lakeshore Road and directly adjacent to existing transit stops. Furthermore, the subject lands are located along a Corridor and will be subject to the Plan's Intensification Area policies.
3. The proposed development will utilize existing servicing in an efficient manner.

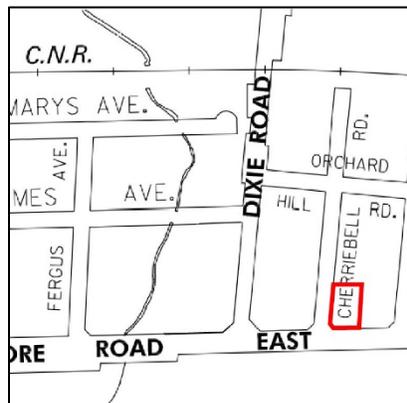

4. The proposal with a building height of 9 storeys is a transit supportive development on lands that are well-served by existing and future transit networks. The subject lands are also well-served by existing greenspace and service and retail establishments in the area. Bringing additional residents to this otherwise underutilized parcel will bring families and households within comfortable walking distance to an abundance of retail, services and greenspace, contributing toward the goals of a complete, walkable community.
5. The proposed development's design responds to the width of Lakeshore Road East and the envisioned mid-rise character of that corridor, providing building massing that is close to the streetline, is sufficiently tall to establish a sense of enclosure along the wide corridor, and establishes a pedestrian-friendly 4-storey streetwall condition.
6. The proposed development will improve and contribute towards the Lakeshore Road streetscape by providing an animated podium situated close to the streetline, with a mix of uses at-grade, directly accessible from the public sidewalk. This will enable an active, main street with high pedestrian activity.
