

# CITY OF MISSISSAUGA – NOTICE OF STUDY COMMENCEMENT

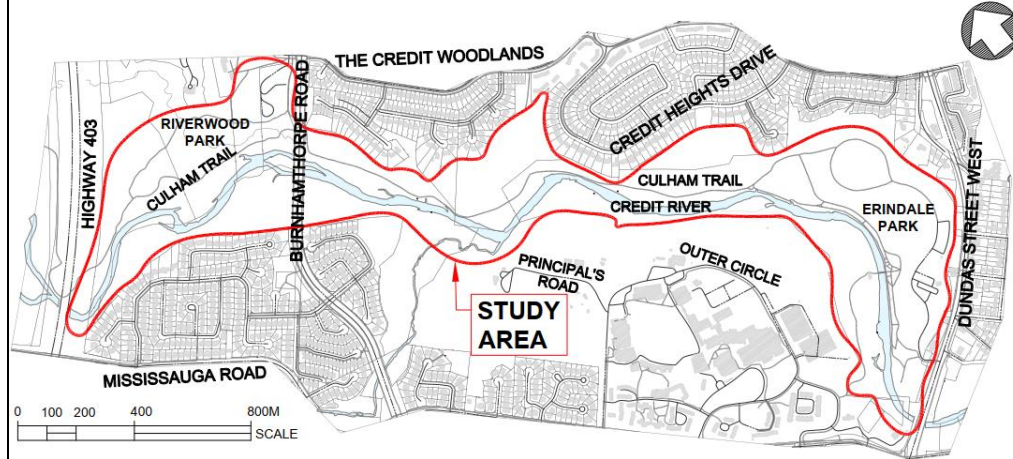

## Municipal Class Environmental Assessment Study: Credit River Erosion Control Project from Dundas St West to Highway 403

### WHAT?

- The City of Mississauga is undertaking a Schedule B Class Environmental Assessment (Class EA) Study for erosion control and restoration of the Credit River between Dundas and Hwy 403.

### WHY?

- The City of Mississauga recognizes that this section of the Credit River and adjacent Culham Trail is in need of rehabilitation to remediate existing erosion issues and improve safety.

### HOW?

- The study will examine this section of the Credit River and Culham Trail to identify existing problems, potential risks, and opportunities for restoration and safety improvements.
- Through the Class EA process, the Study Team will develop and evaluate multiple alternative solutions and refine the options through public and agency consultation (see below). The Study Team will then select a Preferred Alternative and proceed with design of the recommended works.
- At the end of the study, a Project File, documenting the study process will be available for public review.

### GET INVOLVED!

- Consultation is an important part of the Class EA process. Public input and comment are invited for incorporation into the planning and design of this project.
- A Public Information Centre (PIC) will be held to present the study findings, to consider alternative solutions, and to answer any questions you may have. Details regarding the PIC will be advertised publicly as the study progresses.
- Project information will be made available on the City's project website: [www.mississauga.ca/creditrivererosionea](http://www.mississauga.ca/creditrivererosionea)
- If you have any questions or comments regarding the study, or wish to be added or removed from the study mailing list, please contact:

### COVID-19 Community Engagement Update:

*While we continue to respond to this pandemic, we are working hard to deliver essential services and projects to keep our City moving and safe. While we can't connect in person at this time, we still want to connect! Opportunities to connect with the Study Team and share your input are noted above.*

This notice signals the commencement of the Class EA, a study which will define the problem, identify/evaluate alternative solutions, and determine a preferred design in consultation with regulatory agencies and the public. The study is being undertaken in accordance with the planning and design process for Schedule 'B' projects, as outlined in the "Municipal Class Environmental Assessment" document (October 2000, amended in 2015), which is approved under the Ontario *Environmental Assessment Act*.

Personal information is collected under the authority of the Environmental Assessment Act and will be used in the assessment process. With exception of personal information, all comments shall become part of the public records. Questions about this collection should be directed to the Project Manager listed above.
