

**CITY OF MISSISSAUGA**  
**NOTICE OF STUDY COMPLETION**  
**ETOBICOKE CREEK EROSION CONTROL**  
**BLOOR STREET TO PONYTRAIL DRIVE**

**Municipal Class Environmental Assessment**

**The Study**

The City of Mississauga has completed a Schedule 'B' Municipal Class Environmental Assessment (Class EA Study) to investigate erosion along the Etobicoke Creek from downstream side of Bloor Street to approximately 500m upstream of Bloor Street. The Study was carried out following the requirements for and in accordance with Schedule B projects under the Municipal Class EA process.

**Project Background**

The primary objective of the Municipal Class EA was to address erosion along this section of the Etobicoke Creek from Bloor Street to approximately 500m upstream of Bloor Street and to address erosion of the grade control structure at Bloor Street and to provide erosion improvement under Bloor Street. Specifically, the Study will provide increased erosion protection along the west embankment of the Etobicoke Creek via the installation of armourstones and green gabions. Vegetated rock buttress will be installed along the east embankment of the creek. A new grade control structure along with geomorphically designed rocky ramp will be constructed at and under Bloor Street to improve erosion control, increase protection for the Bloor Street northwest abutment, improve protection of the Region of Peel sanitary trunk sewer, and improve opportunity for fish passage under Bloor Street.

**The final Environmental Study Report (ESR) is being released for a 30-day public and agency review and comment period from October 17<sup>th</sup>, 2022, to November 15<sup>th</sup>, 2022.**

The ESR can be accessed online at [www.mississauga.ca/etobicokecreek](http://www.mississauga.ca/etobicokecreek). Should a member of the public request a hard copy of the Project File, please send a request to the City of Mississauga Capital Project Manager.

If you have any questions, comments or concerns, please contact the City of Mississauga Capital Project Manager or Consultant Project Manager by **November 15<sup>th</sup>, 2022**:

In addition, a request may be made to the Ministry of the Environment, Conservation and Parks for an order requiring a higher level of study (i.e., requiring an individual/comprehensive EA approval before being able to proceed), or that conditions be imposed (e.g. require further studies), only on the grounds that the requested order may prevent, mitigate, or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights. Requests on other grounds will not be considered. Requests should include the requester contact information and full name for the ministry.

Requests should specify what kind of order is being requested (request for additional conditions or a request for an individual/ comprehensive environmental assessment), how an order may prevent, mitigate, or remedy those potential adverse impacts on Aboriginal and treaty rights, and any information in support of the statements in the request. This will ensure that the ministry is able to efficiently begin reviewing the request. Please visit the ministry's website for more information on requests for orders under section 16 of the Environmental Assessment Act at: <https://www.ontario.ca/page/class-environmental-assessments-section-16-order>

The request should be sent in writing or by email to:

Minister of the Environment, Conservation  
and Parks  
Ministry of Environment, Conservation  
and Parks
