

Policy Title: Curb Improvement Program

Policy Number: 10-06-10

Section: Roads and Traffic

Subsection: Road Construction and Maintenance

Effective Date: July 8, 2014

Last Review Date: April, 2023

Approved by:

Owner Division/Contact:

Council

Works Operations & Maintenance Division, Transportation and Works Department

Policy Statement

Funds are allocated each year, through the current budget process, to partially pay for driveway improvements where the old roll type curb exists.

Costs

Residents are required to pay for necessary curb cuts, at a fee as established in the City's Fees and Charges By-law.

The City absorbs expenses for re-paving the portion of the driveway that exists between the curb and the sidewalk. Work is scheduled/programmed based on current workload and priorities.

Request for Curb Improvement

Residents may apply for a curb improvement through the City's website at:
<https://www.mississauga.ca/publication/access-modification-permit-application-form/>

All fees must be paid at the time of application.
