

Amendment No. XXX
to
Mississauga Official Plan

The following text and Map 'A' attached hereto constitute Amendment No. XXX

PURPOSE

The purpose of this Amendment is to amend Schedule 10 to redesignate the Subject Lands and to amend the Streetsville Community Node Character Area to include the Subject Lands as a Special Site.

LOCATION

The lands affected by this Amendment are located on the west side of Queen Street South, north of James Street. The land is municipally addressed as 6, 10, 12 Queen Street South, 2 William Street and 16 James Street. The Subject Lands are located within the Streetsville Community Node Character Area, as identified in the Mississauga Official Plan.

BASIS

The Mississauga Official Plan came into effect on November 14, 2012, save and except for the outstanding site specific appeals at the Ontario Land Tribunal.

The Mississauga Official Plan ('MOP') contains a City Structure which outlines where growth ought to be encouraged and discouraged within the City. The City Structure is comprised of Intensification Areas and Non-Intensification Areas. Intensification Areas include Downtown, Major Nodes, Community Nodes, Corporate Centres, Intensification Corridors and Major Transit Station Areas. Intensification Areas are the principal location for future growth within the City. The Subject Lands are located within an Intensification Area where compact, mixed-use growth is to be encouraged.

As per the in-effect Streetsville Community Node Character Area policies, a maximum building height of seven storeys is permitted and a density of 0.3 to 1.0 Floor Space Index ('FSI') partially applies. The City requires that a Special Site policy be added to the MOP for the proposed building height and density: this has been included in the enclosed implementing Official Plan Amendment.

The Subject Lands are currently designated 'Residential Medium Density' and 'Mixed Use'. Permitted uses on the Subject Lands include all forms of townhouse dwellings, commercial parking facility, financial institution, funeral establishment, markerspaces, motor vehicle rental, motor vehicle sales, overnight accommodation, personal service establishment, post-secondary educational facility, residential in conjunction with other permitted uses, restaurant, retail store and secondary office.

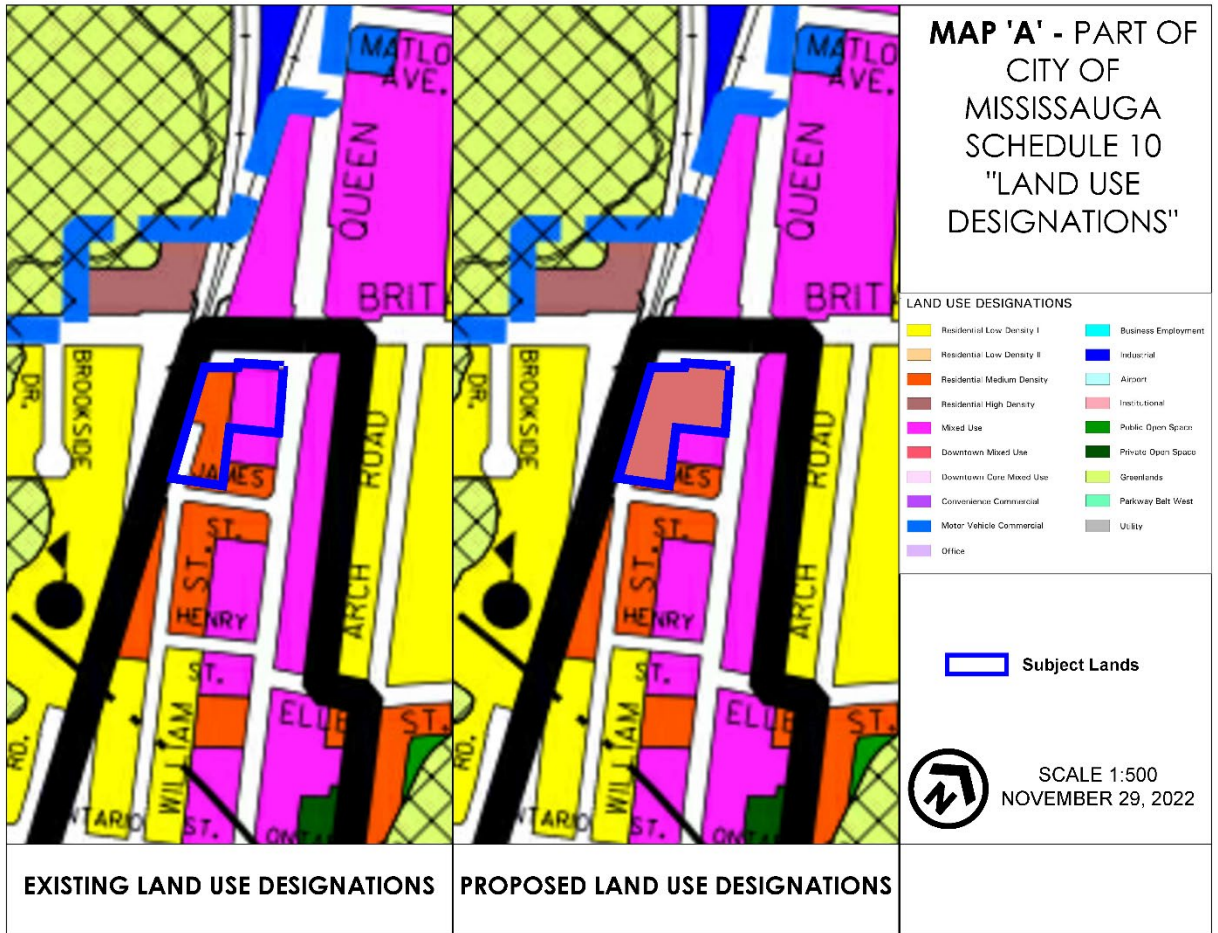

The Official Plan Amendment is required to redesignate the Subject Lands to 'Residential High Density'. As previously stated, the Subject Lands are located within the Streetsville Community Node Character Area of the Mississauga Official Plan. This Amendment proposes to revise the Streetsville Community Node Character Area to add the Subject Lands as a Special Site. This proposed Special Site policy will permit a

range of accessory uses on the lands, a maximum building height of 8 storeys and a Floor Space Index of 2.2 FSI. Overall, the proposed Official Plan Amendment is to further implement City Council's direction to direct compact, mixed-use development in appropriate locations. The proposed Official Plan Amendment is acceptable from a planning perspective and should be approved for the reasons as follows:

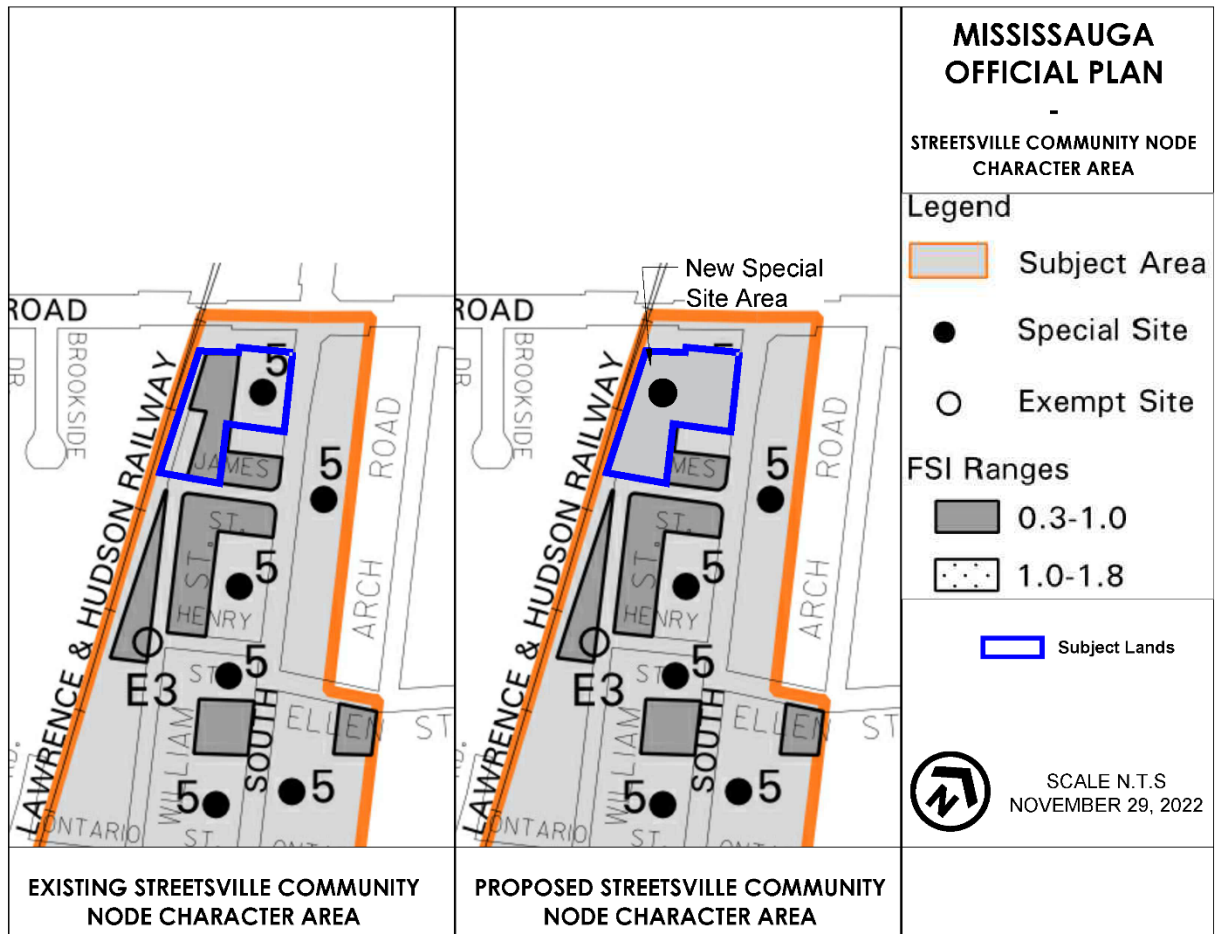

1. The proposed development is consistent with the Provincial Policy Statement (2020), conforms to and does not conflict with A Place to Grow: Growth Plan for the Greater Golden Horseshoe (2020) and conforms to the policy objectives of the Region of Peel Official Plan (2022). In addition, the proposed development will bring the Mississauga Official Plan (2021) into consistency with the Provincial Policy Statement and into conformity with A Place to Grow and the Region of Peel Official Plan. The proposed development represents reinvestment and intensification of an underutilized site and will better utilize transit infrastructure investments.
2. The Subject Lands are located within a comfortable walking distance of street-level transit services, services and facilities. Furthermore, the Subject Lands are located within an Intensification Area. Collectively, the A Place to Grow, the Region of Peel Official Plan and the Mississauga Official Plan identify lands within the City's Built-Up Area and within the City's Intensification Areas where intensification and compact, mixed-use, high density development to occur. Transit-supportive development should be directed to these locations.
3. The proposed development will utilize existing servicing and servicing can be provided in an efficient, cost-effective manner.
4. The proposal with a height of 8 storeys is an appropriate, refined built form on lands that are well-served by existing transit and active transportation networks. The Site is also well-served by existing greenspace and service and retail establishments in the surrounding area. Bringing additional residents and local employment opportunities to this otherwise underutilized parcel will bring families and households within comfortable walking distance to an abundance of services, facilities and amenities which will support the creation of Streetsville as a complete, walkable community.
5. The proposed development will improve and contribute to the Queen Street South streetscape by providing active streetscape situated close to the streetline, with a mixture of non-residential uses at-grade, directly accessible from the public sidewalk. This will enable an active, main street with high pedestrian activity.
