<b>Parameter Name:</b>	SOLVENT EXTRACTABLES		

**MISA Industrial Wastewater Discharge**

**Company Code:** 0000130104  
**Control Point ID:** 0700  
**Sample Date:** 2017/03  
**Regulation:** MISA COMPLIANCE  
**Value:** 0.035175  
**Unit of Measure:** KG/D  
**Control Point Name:** PLANT - PROCESS EFFLUENT  
**Parameter Name:** SULPHIDE, UNFILTERED REACTIVE

**Result Structure:** MISA MONTHLY REPORTING  
**Param Reported As:** AS SULPHIDE  
**Frequency:** MONTHLY  
**Sector:** PETROLEUM REFINERIES  
**Component Type:** MINIMUM

**MISA Industrial Wastewater**  
**Discharge**

**Company Code:** 0000130104  
**Control Point ID:** 0700  
**Sample Date:** 2017/06  
**Regulation:** MISA COMPLIANCE  
**Value:** 20.693  
**Unit of Measure:** KG/D  
**Control Point Name:** PLANT - PROCESS EFFLUENT  
**Parameter Name:** RESIDUE, PARTICULATE

**Result Structure:** MISA MONTHLY REPORTING  
**Param Reported As:** NOT APPLICABLE  
**Frequency:** MONTHLY  
**Sector:** PETROLEUM REFINERIES  
**Component Type:** AVERAGE

**MISA Industrial Wastewater**  
**Discharge**

**Company Code:** 0000130104  
**Control Point ID:** 0700  
**Sample Date:** 2017/06  
**Regulation:** MISA COMPLIANCE  
**Value:** 4  
**Unit of Measure:** KG/D  
**Control Point Name:** PLANT - PROCESS EFFLUENT  
**Parameter Name:** SOLVENT EXTRACTABLES

**Result Structure:** MISA MONTHLY REPORTING  
**Param Reported As:** NOT APPLICABLE  
**Frequency:** MONTHLY  
**Sector:** PETROLEUM REFINERIES  
**Component Type:** NUM. IN AVERAGE

**MISA Industrial Wastewater**  
**Discharge**

**Company Code:** 0000130104  
**Control Point ID:** 0700  
**Sample Date:** 2017/06  
**Regulation:** MISA COMPLIANCE  
**Value:** 0.07063  
**Unit of Measure:** KG/D  
**Control Point Name:** PLANT - PROCESS EFFLUENT  
**Parameter Name:** SULPHIDE, UNFILTERED REACTIVE

**Result Structure:** MISA MONTHLY REPORTING  
**Param Reported As:** AS SULPHIDE  
**Frequency:** MONTHLY  
**Sector:** PETROLEUM REFINERIES  
**Component Type:** AVERAGE

**MISA Industrial Wastewater**

## Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. **Note:** Databases denoted with " \* " indicates that the database will no longer be updated. See the individual database description for more information.

### **Abandoned Aggregate Inventory:**

Provincial [AAGR](#)

The MAAP Program maintains a database of abandoned pits and quarries. Please note that the database is only referenced by lot and concession and city/town location. The database provides information regarding the location, type, size, land use, status and general comments.\*

**Government Publication Date: Sept 2002\***

### **Aggregate Inventory:**

Provincial [AGR](#)

The Ontario Ministry of Natural Resources maintains a database of all active pits and quarries. The database provides information regarding the registered owner/operator, location name, operation type, approval type, and maximum annual tonnage.

**Government Publication Date: Up to Sep 2020**

### **Abandoned Mine Information System:**

Provincial [AMIS](#)

The Abandoned Mines Information System contains data on known abandoned and inactive mines located on both Crown and privately held lands. The information was provided by the Ministry of Northern Development and Mines (MNDM), with the following disclaimer: "the database provided has been compiled from various sources, and the Ministry of Northern Development and Mines makes no representation and takes no responsibility that such information is accurate, current or complete". Reported information includes official mine name, status, background information, mine start/end date, primary commodity, mine features, hazards and remediation.

**Government Publication Date: 1800-Oct 2018**

### **Anderson's Waste Disposal Sites:**

Private [ANDR](#)

The information provided in this database was collected by examining various historical documents which aimed to characterize the likely position of former waste disposal sites from 1860 to present. The research initiative behind the creation of this database was to identify those sites that are missing from the Ontario MOE Waste Disposal Site Inventory, as well as to provide revisions and corrections to the positions and descriptions of sites currently listed in the MOE inventory. In addition to historic waste disposal facilities, the database also identifies certain auto wreckers and scrap yards that have been extrapolated from documentary sources. Please note that the data is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

**Government Publication Date: 1860s-Present**

### **Aboveground Storage Tanks:**

Provincial [AST](#)

Historical listing of aboveground storage tanks made available by the Department of Natural Resources and Forestry. Includes tanks used to hold water or petroleum. This dataset has been retired as of September 25, 2014 and will no longer be updated.

**Government Publication Date: May 31, 2014**

### **Automobile Wrecking & Supplies:**

Private [AUWR](#)

This database provides an inventory of known locations that are involved in the scrap metal, automobile wrecking/recycling, and automobile parts & supplies industry. Information is provided on the company name, location and business type.

**Government Publication Date: 1999-Dec 31, 2020**

### **Borehole:**

Provincial [BORE](#)

A borehole is the generalized term for any narrow shaft drilled in the ground, either vertically or horizontally. The information here includes geotechnical investigations or environmental site assessments, mineral exploration, or as a pilot hole for installing piers or underground utilities. Information is from many sources such as the Ministry of Transportation (MTO) boreholes from engineering reports and projects from the 1950 to 1990's in Southern Ontario. Boreholes from the Ontario Geological Survey (OGS) including The Urban Geology Analysis Information System (UGAIS) and the York Peel Durham Toronto (YPDT) database of the Conservation Authority Moraine Coalition. This database will include fields such as location, stratigraphy, depth, elevation, year drilled, etc. For all water well data or oil and gas well data for Ontario please refer to WWIS and OOGW.

**Government Publication Date: 1875-Jul 2018**

**Certificates of Approval:**

Provincial CA

This database contains the following types of approvals: Air & Noise, Industrial Sewage, Municipal & Private Sewage, Waste Management Systems and Renewable Energy Approvals. The MOE in Ontario states that any facility that releases emissions to the atmosphere, discharges contaminants to ground or surface water, provides potable water supplies, or stores, transports or disposes of waste, must have a Certificate of Approval before it can operate lawfully. Fields include approval number, business name, address, approval date, approval type and status. This database will no longer be updated, as CofA's have been replaced by either Environmental Activity and Sector Registry (EASR) or Environmental Compliance Approval (ECA). Please refer to those individual databases for any information after Oct.31, 2011.

**Government Publication Date: 1985-Oct 30, 2011\***

**Dry Cleaning Facilities:**

Federal CDRY

List of dry cleaning facilities made available by Environment and Climate Change Canada. Environment and Climate Change Canada's Tetrachloroethylene (Use in Dry Cleaning and Reporting Requirements) Regulations (SOR/2003-79) are intended to reduce releases of tetrachloroethylene to the environment from dry cleaning facilities.

**Government Publication Date: Jan 2004-Dec 2018**

**Commercial Fuel Oil Tanks:**

Provincial CFOT

Locations of commercial underground fuel oil tanks. This is not a comprehensive or complete inventory of commercial fuel tanks in the province; this listing is a copy of records of registered commercial underground fuel oil tanks obtained under Access to Public Information.

Note that the following types of tanks do not require registration: waste oil tanks in apartments, office buildings, residences, etc.; aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

**Government Publication Date: Jul 31, 2020**

**Chemical Manufacturers and Distributors:**

Private CHEM

This database includes information from both a one time study conducted in 1992 and private source and is a listing of facilities that manufacture or distribute chemicals. The production of these chemical substances may involve one or more chemical reactions and/or chemical separation processes (i.e. fractionation, solvent extraction, crystallization, etc.).

**Government Publication Date: 1999-Jan 31, 2020**

**Chemical Register:**

Private CHM

This database includes a listing of locations of facilities within the Province or Territory that either manufacture and/or distributes chemicals.

**Government Publication Date: 1999-Dec 31, 2020**

**Compressed Natural Gas Stations:**

Private CNG

Canada has a network of public access compressed natural gas (CNG) refuelling stations. These stations dispense natural gas in compressed form at 3,000 pounds per square inch (psi), the pressure which is allowed within the current Canadian codes and standards. The majority of natural gas refuelling is located at existing retail gasoline that have a separate refuelling island for natural gas. This list of stations is made available by the Canadian Natural Gas Vehicle Alliance.

**Government Publication Date: Dec 2012 -Apr 2021**

**Inventory of Coal Gasification Plants and Coal Tar Sites:**

Provincial COAL

This inventory includes both the "Inventory of Coal Gasification Plant Waste Sites in Ontario-April 1987" and the Inventory of Industrial Sites Producing or Using Coal Tar and Related Tars in Ontario-November 1988) collected by the MOE. It identifies industrial sites that produced and continue to produce or use coal tar and other related tars. Detailed information is available and includes: facility type, size, land use, information on adjoining properties, soil condition, site operators/occupants, site description, potential environmental impacts and historic maps available. This was a one-time inventory.\*

**Government Publication Date: Apr 1987 and Nov 1988\***

**Compliance and Convictions:**

Provincial CONV

This database summarizes the fines and convictions handed down by the Ontario courts beginning in 1989. Companies and individuals named here have been found guilty of environmental offenses in Ontario courts of law.

**Government Publication Date: 1989-Nov 2020**

**Certificates of Property Use:**

Provincial CPU

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include all CPU's on the registry such as (EPA s. 168.6) - Certificate of Property Use.

**Government Publication Date: 1994-Apr 30, 2021**

**Drill Hole Database:**Provincial [DRL](#)

The Ontario Drill Hole Database contains information on more than 113,000 percussion, overburden, sonic and diamond drill holes from assessment files on record with the department of Mines and Minerals. Please note that limited data is available for southern Ontario, as it was the last area to be completed. The database was created when surveys submitted to the Ministry were converted in the Assessment File Research Image Database (AFRI) project. However, the degree of accuracy (coordinates) as to the exact location of drill holes is dependent upon the source document submitted to the MNDM. Levels of accuracy used to locate holes are: centering on the mining claim; a sketch of the mining claim; a 1:50,000 map; a detailed company map; or from submitted a "Report of Work".

**Government Publication Date: 1886 - Sep 2020****Delisted Fuel Tanks:**Provincial [DTNK](#)

List of fuel storage tank sites that were once found in - and have since been removed from - the list of fuel storage tanks made available by the regulatory agency under Access to Public Information.

**Government Publication Date: Jul 31, 2020****Environmental Activity and Sector Registry:**Provincial [EASR](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. The EASR allows businesses to register certain activities with the ministry, rather than apply for an approval. The registry is available for common systems and processes, to which preset rules of operation can be applied. The EASR is currently available for: heating systems, standby power systems and automotive refinishing. Businesses whose activities aren't subject to the EASR may apply for an ECA (Environmental Compliance Approval), Please see our ECA database.

**Government Publication Date: Oct 2011-Apr 30, 2021****Environmental Registry:**Provincial [EBR](#)

The Environmental Registry lists proposals, decisions and exceptions regarding policies, Acts, instruments, or regulations that could significantly affect the environment. Through the Registry, thirteen provincial ministries notify the public of upcoming proposals and invite their comments. For example, if a local business is requesting a permit, license, or certificate of approval to release substances into the air or water; these are notified on the registry. Data includes: Approval for discharge into the natural environment other than water (i.e. Air) - EPA s. 9, Approval for sewage works - OWRA s. 53(1), and EPA s. 27 - Approval for a waste disposal site. For information regarding Permit to Take Water (PTTW), Certificate of Property Use (CPU) and (ORD) Orders please refer to those individual databases.

**Government Publication Date: 1994-Apr 30, 2021****Environmental Compliance Approval:**Provincial [ECA](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. In the past, a business had to apply for multiple approvals (known as certificates of approval) for individual processes and pieces of equipment. Today, a business either registers itself, or applies for a single approval, depending on the types of activities it conducts. Businesses whose activities aren't subject to the EASR may apply for an ECA. A single ECA addresses all of a business's emissions, discharges and wastes. Separate approvals for air, noise and waste are no longer required. This database will also include Renewable Energy Approvals. For certificates of approval prior to Nov 1st, 2011, please refer to the CA database. For all Waste Disposal Sites please refer to the WDS database.

**Government Publication Date: Oct 2011- Apr 30, 2021****Environmental Effects Monitoring:**Federal [EEM](#)

The Environmental Effects Monitoring program assesses the effects of effluent from industrial or other sources on fish, fish habitat and human usage of fisheries resources. Since 1992, pulp and paper mills have been required to conduct EEM studies under the Pulp and Paper Effluent Regulations. This database provides information on the mill name, geographical location and sub-lethal toxicity data.

**Government Publication Date: 1992-2007\*****ERIS Historical Searches:**Private [EHS](#)

ERIS has compiled a database of all environmental risk reports completed since March 1999. Available fields for this database include: site location, date of report, type of report, and search radius. As per all other databases, the ERIS database can be referenced on both the map and "Statistical Profile" page.

**Government Publication Date: 1999-Jan 31, 2021****Environmental Issues Inventory System:**Federal [EIIS](#)

The Environmental Issues Inventory System was developed through the implementation of the Environmental Issues and Remediation Plan. This plan was established to determine the location and severity of contaminated sites on inhabited First Nation reserves, and where necessary, to remediate those that posed a risk to health and safety; and to prevent future environmental problems. The EIIS provides information on the reserve under investigation, inventory number, name of site, environmental issue, site action (Remediation, Site Assessment), and date investigation completed.

**Government Publication Date: 1992-2001\***

**Emergency Management Historical Event:**

Provincial **EMHE**

List of locations of historical occurrences of emergency events, including those assigned to the Ministry of Natural Resources by Order-In-Council (OIC) under the Emergency Management and Civil Protection Act, as well as events where MNR provided requested emergency response assistance. Many of these events will have involved community evacuations, significant structural loss, and/or involvement of MNR emergency response staff. These events fall into one of ten (10) type categories: Dam Failure; Drought / Low Water; Erosion; Flood; Forest Fire; Soil and Bedrock Instability; Petroleum Resource Center Event, EMO Requested Assistance, Continuity of Operations Event, Other Requested Assistance. EMHE record details are reproduced by ERIS under License with the Ontario Ministry of Natural Resources © Queen's Printer for Ontario, 2017.

**Government Publication Date: Dec 31, 2016**

**Environmental Penalty Annual Report:**

Provincial **EPAR**

This database contains data from Ontario's annual environmental penalty report published by the Ministry of the Environment and Climate Change. These reports provide information on environmental penalties for land / water violations issued to companies in one of the nine industrial sectors covered by the Municipal Industrial Strategy for Abatement (MISA) regulations.

**Government Publication Date: Jan 1, 2011 - Dec 31, 2020**

**List of Expired Fuels Safety Facilities:**

Provincial **EXP**

List of facilities and tanks for which there was once a fuel registration. This is not a comprehensive or complete inventory of expired tanks/tank facilities in the province; this listing is a copy of previously registered tanks and facilities obtained under Access to Public Information. Includes private fuel outlets, bulk plants, fuel oil tanks, gasoline stations, marinas, propane filling stations, liquid fuel tanks, piping systems, etc; includes tanks which have been removed from the ground.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

**Government Publication Date: Jul 31, 2020**

**Federal Convictions:**

Federal **FCON**

Environment Canada maintains a database referred to as the "Environmental Registry" that details prosecutions under the Canadian Environmental Protection Act (CEPA) and the Fisheries Act (FA). Information is provided on the company name, location, charge date, offence and penalty.

**Government Publication Date: 1988-Jun 2007\***

**Contaminated Sites on Federal Land:**

Federal **FCS**

The Federal Contaminated Sites Inventory includes information on known federal contaminated sites under the custodianship of departments, agencies and consolidated Crown corporations as well as those that are being or have been investigated to determine whether they have contamination arising from past use that could pose a risk to human health or the environment. The inventory also includes non-federal contaminated sites for which the Government of Canada has accepted some or all financial responsibility. It does not include sites where contamination has been caused by, and which are under the control of, enterprise Crown corporations, private individuals, firms or other levels of government. Includes fire training sites and sites at which Per- and Polyfluoroalkyl Substances (PFAS) are a concern.

**Government Publication Date: Jun 2000-Apr 2021**

**Fisheries & Oceans Fuel Tanks:**

Federal **FOFT**

Fisheries & Oceans Canada maintains an inventory of aboveground & underground fuel storage tanks located on Fisheries & Oceans property or controlled by DFO. Our inventory provides information on the site name, location, tank owner, tank operator, facility type, storage tank location, tank contents & capacity, and date of tank installation.

**Government Publication Date: 1964-Sep 2019**

**Federal Identification Registry for Storage Tank Systems (FIRSTS):**

Federal **FRST**

A list of federally regulated Storage tanks from the Federal Identification Registry for Storage Tank Systems (FIRSTS). FIRSTS is Environment and Climate Change Canada's database of storage tank systems subject to the Storage Tank for Petroleum Products and Allied Petroleum Products Regulations. The main objective of the Regulations is to prevent soil and groundwater contamination from storage tank systems located on federal and aboriginal lands. Storage tank systems that do not have a valid identification number displayed in a readily visible location on or near the storage tank system may be refused product delivery.

**Government Publication Date: May 31, 2018**

**Fuel Storage Tank:**

Provincial **FST**

List of registered private and retail fuel storage tanks. This is not a comprehensive or complete inventory of private and retail fuel storage tanks in the province; this listing is a copy of registered private and retail fuel storage tanks, obtained under Access to Public Information.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

**Government Publication Date: Jul 31, 2020**

**Fuel Storage Tank - Historic:**

Provincial

[FSTH](#)

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks. Public records of private fuel storage tanks are only available since the registration became effective in September 1989. This information is now collected by the Technical Standards and Safety Authority.

**Government Publication Date: Pre-Jan 2010\***

**Ontario Regulation 347 Waste Generators Summary:**

Provincial

[GEN](#)

Regulation 347 of the Ontario EPA defines a waste generation site as any site, equipment and/or operation involved in the production, collection, handling and/or storage of regulated wastes. A generator of regulated waste is required to register the waste generation site and each waste produced, collected, handled, or stored at the site. This database contains the registration number, company name and address of registered generators including the types of hazardous wastes generated. It includes data on waste generating facilities such as: drycleaners, waste treatment and disposal facilities, machine shops, electric power distribution etc. This information is a summary of all years from 1986 including the most currently available data. Some records may contain, within the company name, the phrase "See & Use..." followed by a series of letters and numbers. This occurs when one company is amalgamated with or taken over by another registered company. The number listed as "See & Use", refers to the new ownership and the other identification number refers to the original ownership. This phrase serves as a link between the 2 companies until operations have been fully transferred.

**Government Publication Date: 1986-Jan 31, 2021**

**Greenhouse Gas Emissions from Large Facilities:**

Federal

[GHG](#)

List of greenhouse gas emissions from large facilities made available by Environment Canada. Greenhouse gas emissions in kilotonnes of carbon dioxide equivalents (kt CO<sub>2</sub> eq).

**Government Publication Date: 2013-Dec 2019**

**TSSA Historic Incidents:**

Provincial

[HINC](#)

List of historic incidences of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen recorded by the TSSA in their previous incident tracking system. The TSSA's Fuels Safety Program administers the Technical Standards & Safety Act 2000, providing fuel-related safety services associated with the safe transportation, storage, handling and use of fuels such as gasoline, diesel, propane, natural gas and hydrogen. Under this Act, the TSSA regulates fuel suppliers, storage facilities, transport trucks, pipelines, contractors and equipment or appliances that use fuels. Records are not verified for accuracy or completeness. This is not a comprehensive or complete inventory of historical fuel spills and leaks in the province. This listing is a copy of the data captured at one moment in time and is hence limited by the record date provided here.

**Government Publication Date: 2006-June 2009\***

**Indian & Northern Affairs Fuel Tanks:**

Federal

[IAFT](#)

The Department of Indian & Northern Affairs Canada (INAC) maintains an inventory of aboveground & underground fuel storage tanks located on both federal and crown land. Our inventory provides information on the reserve name, location, facility type, site/facility name, tank type, material & ID number, tank contents & capacity, and date of tank installation.

**Government Publication Date: 1950-Aug 2003\***

**Fuel Oil Spills and Leaks:**

Provincial

[INC](#)

Listing of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen reported to the Spills Action Centre (SAC). This is not a comprehensive or complete inventory of fuel-related leaks, spills, and incidents in the province; this listing is a copy of incidents reported to the SAC, obtained under Access to Public Information. Includes incidents from fuel-related hazards such as spills, fires, and explosions. Records are not verified for accuracy or completeness.

**Government Publication Date: Jul 31, 2020**

**Landfill Inventory Management Ontario:**

Provincial

[LIMO](#)

The Landfill Inventory Management Ontario (LIMO) database is updated every year, as the Ministry of the Environment, Conservation and Parks compiles new and updated information. Includes small and large landfills currently operating as well as those which are closed and historic. Operators of larger landfills provide landfill information for the previous operating year to the ministry for LIMO including: estimated amount of total waste received, landfill capacity, estimated total remaining landfill capacity, fill rates, engineering designs, reporting and monitoring details, size of location, service area, approved waste types, leachate of site treatment, contaminant attenuation zone and more. The small landfills include information such as site owner, site location and certificate of approval # and status.

**Government Publication Date: Feb 28, 2019**

**Canadian Mine Locations:**

Private

[MINE](#)

This information is collected from the Canadian & American Mines Handbook. The Mines database is a national database that provides over 290 listings on mines (listed as public companies) dealing primarily with precious metals and hard rocks. Listed are mines that are currently in operation, closed, suspended, or are still being developed (advanced projects). Their locations are provided as geographic coordinates (x, y and/or longitude, latitude). As of 2002, data pertaining to Canadian smelters and refineries has been appended to this database.

**Government Publication Date: 1998-2009\***

**Mineral Occurrences:**

Provincial

[MNR](#)

In the early 70's, the Ministry of Northern Development and Mines created an inventory of approximately 19,000 mineral occurrences in Ontario, in regard to metallic and industrial minerals, as well as some information on building stones and aggregate deposits. Please note that the "Horizontal Positional Accuracy" is approximately +/- 200 m. Many reference elements for each record were derived from field sketches using pace or chain/tape measurements against claim posts or topographic features in the area. The primary limiting factor for the level of positional accuracy is the scale of the source material. The testing of horizontal accuracy of the source materials was accomplished by comparing the plan metric (X and Y) coordinates of that point with the coordinates of the same point as defined from a source of higher accuracy.

**Government Publication Date: 1846-Dec 2020**

**National Analysis of Trends in Emergencies System (NATES):**

Federal

[NATE](#)

In 1974 Environment Canada established the National Analysis of Trends in Emergencies System (NATES) database, for the voluntary reporting of significant spill incidents. The data was to be used to assist in directing the work of the emergencies program. NATES ran from 1974 to 1994. Extensive information is available within this database including company names, place where the spill occurred, date of spill, cause, reason and source of spill, damage incurred, and amount, concentration, and volume of materials released.

**Government Publication Date: 1974-1994\***

**Non-Compliance Reports:**

Provincial

[NCPL](#)

The Ministry of the Environment provides information about non-compliant discharges of contaminants to air and water that exceed legal allowable limits, from regulated industrial and municipal facilities. A reported non-compliance failure may be in regard to a Control Order, Certificate of Approval, Sectoral Regulation or specific regulation/act.

**Government Publication Date: Dec 31, 2019**

**National Defense & Canadian Forces Fuel Tanks:**

Federal

[NDFT](#)

The Department of National Defense and the Canadian Forces maintains an inventory of all aboveground & underground fuel storage tanks located on DND lands. Our inventory provides information on the base name, location, tank type & capacity, tank contents, tank class, date of tank installation, date tank last used, and status of tank as of May 2001. This database will no longer be updated due to the new National Security protocols which have prohibited any release of this database.

**Government Publication Date: Up to May 2001\***

**National Defense & Canadian Forces Spills:**

Federal

[NDSP](#)

The Department of National Defense and the Canadian Forces maintains an inventory of spills to land and water. All spill sites have been classified under the "Transportation of Dangerous Goods Act - 1992". Our inventory provides information on the facility name, location, spill ID #, spill date, type of spill, as well as the quantity of substance spilled & recovered.

**Government Publication Date: Mar 1999-Apr 2018**

**National Defence & Canadian Forces Waste Disposal Sites:**

Federal

[NDWD](#)

The Department of National Defence and the Canadian Forces maintains an inventory of waste disposal sites located on DND lands. Where available, our inventory provides information on the base name, location, type of waste received, area of site, depth of site, year site opened/closed and status.

**Government Publication Date: 2001-Apr 2007\***

**National Energy Board Pipeline Incidents:**

Federal

[NEBI](#)

Locations of pipeline incidents from 2008 to present, made available by the Canada Energy Regulator (CER) - previously the National Energy Board (NEB). Includes incidents reported under the Onshore Pipeline Regulations and the Processing Plant Regulations related to pipelines under federal jurisdiction, does not include incident data related to pipelines under provincial or territorial jurisdiction.

**Government Publication Date: 2008-Mar 31, 2021**

**National Energy Board Wells:**

Federal

[NEBP](#)

The NEBW database contains information on onshore & offshore oil and gas wells that are outside provincial jurisdiction(s) and are thereby regulated by the National Energy Board. Data is provided regarding the operator, well name, well ID No./UWI, status, classification, well depth, spud and release date.

**Government Publication Date: 1920-Feb 2003\***

**National Environmental Emergencies System (NEES):**

Federal

[NEES](#)

In 2000, the Emergencies program implemented NEES, a reporting system for spills of hazardous substances. For the most part, this system only captured data from the Atlantic Provinces, some from Quebec and Ontario and a portion from British Columbia. Data for Alberta, Saskatchewan, Manitoba and the Territories was not captured. However, NEES is also a repository for previous Environment Canada spill datasets. NEES is composed of the historic datasets ' or Trends ' which dates from approximately 1974 to present. NEES Trends is a compilation of historic databases, which were merged and includes data from NATES (National Analysis of Trends in Emergencies System), ARTS (Atlantic Regional Trends System), and NEES. In 2001, the Emergencies Program determined that variations in reporting regimes and requirements between federal and provincial agencies made national spill reporting and trend analysis difficult to achieve. As a consequence, the department has focused efforts on capturing data on spills of substances which fall under its legislative authority only (CEPA and FA). As such, the NEES database will be decommissioned in December 2004.

**Government Publication Date: 1974-2003\***

**National PCB Inventory:**

Federal

[NPCB](#)

Environment Canada's National PCB inventory includes information on in-use PCB containing equipment in Canada including federal, provincial and private facilities. Federal out-of-service PCB containing equipment and PCB waste owned by the federal government or by federally regulated industries such as airlines, railway companies, broadcasting companies, telephone and telecommunications companies, pipeline companies, etc. are also listed. Although it is not Environment Canada's mandate to collect data on non-federal PCB waste, the National PCB inventory includes some information on provincial and private PCB waste and storage sites. Some addresses provided may be Head Office addresses and are not necessarily the location of where the waste is being used or stored.

**Government Publication Date: 1988-2008\***

**National Pollutant Release Inventory:**

Federal

[NPRI](#)

Environment Canada has defined the National Pollutant Release Inventory ("NPRI") as a federal government initiative designed to collect comprehensive national data regarding releases to air, water, or land, and waste transfers for recycling for more than 300 listed substances.

**Government Publication Date: 1993-May 2017**

**Oil and Gas Wells:**

Private

[OGWE](#)

The Nickle's Energy Group (publisher of the Daily Oil Bulletin) collects information on drilling activity including operator and well statistics. The well information database includes name, location, class, status and depth. The main Nickle's database is updated on a daily basis, however, this database is updated on a monthly basis. More information is available at [www.nickles.com](http://www.nickles.com).

**Government Publication Date: 1988-Feb 28, 2021**

**Ontario Oil and Gas Wells:**

Provincial

[OOGW](#)

In 1998, the MNR handed over to the Ontario Oil, Gas and Salt Resources Corporation, the responsibility of maintaining a database of oil and gas wells drilled in Ontario. The OGSR Library has over 20,000+ wells in their database. Information available for all wells in the ERIS database include well owner/operator, location, permit issue date, and well cap date, license No., status, depth and the primary target (rock unit) of the well being drilled. All geology/stratigraphy table information, plus all water table information is also provide for each well record.

**Government Publication Date: 1800-Jun 2020**

**Inventory of PCB Storage Sites:**

Provincial

[OPCB](#)

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of PCB storage sites within the province. Ontario Regulation 11/82 (Waste Management - PCB) and Regulation 347 (Generator Waste Management) under the Ontario EPA requires the registration of inactive PCB storage equipment and/or disposal sites of PCB waste with the Ontario Ministry of Environment. This database contains information on: 1) waste quantities; 2) major and minor sites storing liquid or solid waste; and 3) a waste storage inventory.

**Government Publication Date: 1987-Oct 2004; 2012-Dec 2013**

**Orders:**

Provincial

[ORD](#)

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include all Orders on the registry such as (EPA s. 17) - Order for remedial work, (EPA s. 18) - Order for preventative measures, (EPA s. 43) - Order for removal of waste and restoration of site, (EPA s. 44) - Order for conformity with Act for waste disposal sites, (EPA s. 136) - Order for performance of environmental measures.

**Government Publication Date: 1994-Apr 30, 2021**

**Canadian Pulp and Paper:**

Private

[PAP](#)

This information is part of the Pulp and Paper Canada Directory. The Directory provides a comprehensive listing of the locations of pulp and paper mills and the products that they produce.

**Government Publication Date: 1999, 2002, 2004, 2005, 2009-2014**

**Parks Canada Fuel Storage Tanks:**

Federal

[PCFT](#)

Canadian Heritage maintains an inventory of known fuel storage tanks operated by Parks Canada, in both National Parks and at National Historic Sites. The database details information on site name, location, tank install/removal date, capacity, fuel type, facility type, tank design and owner/operator.

**Government Publication Date: 1920-Jan 2005\***

**Pesticide Register:**

Provincial PES

The Ontario Ministry of the Environment and Climate Change maintains a database of licensed operators and vendors of registered pesticides.

**Government Publication Date: Oct 2011-Apr 30, 2021**

**Pipeline Incidents:**

Provincial PINC

List of pipeline incidents (strikes, leaks, spills). This is not a comprehensive or complete inventory of pipeline incidents in the province; this listing in an historical copy of records previously obtained under Access to Public Information. Records are not verified for accuracy or completeness.

**Government Publication Date: Oct 31, 2020**

**Private and Retail Fuel Storage Tanks:**

Provincial PRT

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks and licensed retail fuel outlets. This database includes an inventory of locations that have gasoline, oil, waste oil, natural gas and/or propane storage tanks on their property. The MCCR no longer collects this information. This information is now collected by the Technical Standards and Safety Authority (TSSA).

**Government Publication Date: 1989-1996\***

**Permit to Take Water:**

Provincial PTTW

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include all PTTW's on the registry such as OWRA s. 34 - Permit to take water.

**Government Publication Date: 1994-Apr 30, 2021**

**Ontario Regulation 347 Waste Receivers Summary:**

Provincial REC

Part V of the Ontario Environmental Protection Act ("EPA") regulates the disposal of regulated waste through an operating waste management system or a waste disposal site operated or used pursuant to the terms and conditions of a Certificate of Approval or a Provisional Certificate of Approval. Regulation 347 of the Ontario EPA defines a waste receiving site as any site or facility to which waste is transferred by a waste carrier. A receiver of regulated waste is required to register the waste receiving facility. This database represents registered receivers of regulated wastes, identified by registration number, company name and address, and includes receivers of waste such as: landfills, incinerators, transfer stations, PCB storage sites, sludge farms and water pollution control plants. This information is a summary of all years from 1986 including the most currently available data.

**Government Publication Date: 1986-1990, 1992-2018**

**Record of Site Condition:**

Provincial RSC

The Record of Site Condition (RSC) is part of the Ministry of the Environment's Brownfields Environmental Site Registry. Protection from environmental cleanup orders for property owners is contingent upon documentation known as a record of site condition (RSC) being filed in the Environmental Site Registry. In order to file an RSC, the property must have been properly assessed and shown to meet the soil, sediment and groundwater standards appropriate for the use (such as residential) proposed to take place on the property. The Record of Site Condition Regulation (O. Reg. 153/04) details requirements related to site assessment and clean up.

RSCs filed after July 1, 2011 will also be included as part of the new (O.Reg. 511/09).

**Government Publication Date: 1997-Sept 2001, Oct 2004-Apr 2021**

**Retail Fuel Storage Tanks:**

Private RST

This database includes an inventory of retail fuel outlet locations (including marinas) that have on their property gasoline, oil, waste oil, natural gas and / or propane storage tanks.

**Government Publication Date: 1999-Dec 31, 2020**

**Scott's Manufacturing Directory:**

Private SCT

Scott's Directories is a data bank containing information on over 200,000 manufacturers across Canada. Even though Scott's listings are voluntary, it is the most comprehensive database of Canadian manufacturers available. Information concerning a company's address, plant size, and main products are included in this database.

**Government Publication Date: 1992-Mar 2011\***

**Ontario Spills:**

Provincial SPL

List of spills and incidents made available the Ministry of the Environment, Conservation and Parks. This database identifies information such as location (approximate), type and quantity of contaminant, date of spill, environmental impact, cause, nature of impact, etc. Information from 1988-2002 was part of the ORIS (Occurrence Reporting Information System). The SAC (Spills Action Centre) handles all spills reported in Ontario. Regulations for spills in Ontario are part of the MOE's Environmental Protection Act, Part X.

**Government Publication Date: 1988-Aug 2020**

**Wastewater Discharger Registration Database:**

Provincial

[SRDS](#)

Information under this heading is combination of the following 2 programs. The Municipal/Industrial Strategy for Abatement (MISA) division of the Ontario Ministry of Environment maintained a database of all direct dischargers of toxic pollutants within nine sectors including: Electric Power Generation; Mining; Petroleum Refining; Organic Chemicals; Inorganic Chemicals; Pulp & Paper; Metal Casting; Iron & Steel; and Quarries. All sampling information is now collected and stored within the Sample Result Data Store (SRDS).

**Government Publication Date: 1990-Dec 31, 2018**

**Anderson's Storage Tanks:**

Private

[TANK](#)

The information provided in this database was collected by examining various historical documents, which identified the location of former storage tanks, containing substances such as fuel, water, gas, oil, and other various types of miscellaneous products. Information is available in regard to business operating at tank site, tank location, permit year, permit & installation type, no. of tanks installed & configuration and tank capacity. Data contained within this database pertains only to the city of Toronto and is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

**Government Publication Date: 1915-1953\***

**Transport Canada Fuel Storage Tanks:**

Federal

[TCFT](#)

List of fuel storage tanks currently or previously owned or operated by Transport Canada. This inventory also includes tanks on The Pickering Lands, which refers to 7,530 hectares (18,600 acres) of land in Pickering, Markham, and Uxbridge owned by the Government of Canada since 1972; properties on this land has been leased by the government since 1975, and falls under the Site Management Policy of Transport Canada, but is administered by Public Works and Government Services Canada. This inventory provides information on the site name, location, tank age, capacity and fuel type.

**Government Publication Date: 1970 - Dec 2020**

**Variances for Abandonment of Underground Storage Tanks:**

Provincial

[VAR](#)

Listing of variances granted for storage tank abandonment. This is not a comprehensive or complete inventory of tank abandonment variances in the province; this listing is a copy of tank abandonment variance records previously obtained under Access to Public Information. In Ontario, registered underground storage tanks must be removed within two years of disuse; if removal of a tank is not feasible, an application may be sought for a variance from this code requirement.

Records are not verified for accuracy or completeness.

**Government Publication Date: Jul 31, 2020**

**Waste Disposal Sites - MOE CA Inventory:**

Provincial

[WDS](#)

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of known open (active or inactive) and closed disposal sites in the Province of Ontario. Active sites maintain a Certificate of Approval, are approved to receive and are receiving waste. Inactive sites maintain Certificate(s) of Approval but are not receiving waste. Closed sites are not receiving waste. The data contained within this database was compiled from the MOE's Certificate of Approval database. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number. All new Environmental Compliance Approvals handed out after Oct 31, 2011 for Waste Disposal Sites will still be found in this database.

**Government Publication Date: Oct 2011-Apr 30, 2021**

**Waste Disposal Sites - MOE 1991 Historical Approval Inventory:**

Provincial

[WDSH](#)

In June 1991, the Ontario Ministry of Environment, Waste Management Branch, published the "June 1991 Waste Disposal Site Inventory", of all known active and closed waste disposal sites as of October 30th, 1990. For each "active" site as of October 31st 1990, information is provided on site location, site/CA number, waste type, site status and site classification. For each "closed" site as of October 31st 1990, information is provided on site location, site/CA number, closure date and site classification. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number.

**Government Publication Date: Up to Oct 1990\***

**Water Well Information System:**

Provincial

[WWIS](#)

This database describes locations and characteristics of water wells found within Ontario in accordance with Regulation 903. It includes such information as coordinates, construction date, well depth, primary and secondary use, pump rate, static water level, well status, etc. Also included are detailed stratigraphy information, approximate depth to bedrock and the approximate depth to the water table.

**Government Publication Date: Apr 30, 2020**

# Definitions

**Database Descriptions:** This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

**Detail Report:** This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

**Distance:** The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

**Direction:** The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

**Elevation:** The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

**Executive Summary:** This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

**Map Key:** The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

**Unplottables:** These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

APPENDIX C  
Summary of Water Well Information Within  
the Study Area

**TABLE C1**

**Summary of Water Well Information within Study Area**

Well ID*	Well Owner	Distance From Site** km	Direction From Site	Total Depth m	Top of Screen m	Bottom of Screen m	Bottom of Casing m	Depth to Water m	Bedrock Depth m	Date of Information	Proposed Use For Water	Status of Well
4902286	---	4.63	NE	25	---	---	21.95	21.34	9.1	07-Apr-67	Industrial	Water Supply

## Report

The documents (hereinafter referred to as the "Documents") to be released as part of the report (hereinafter referred to as the "Report") to be delivered to the purchaser as set out above are documents in Opta's records relating to the described property (hereinafter referred to as the "Property"). Opta makes no representations or warranties respecting the Documents whatsoever, including, without limitation, with respect to the completeness, accuracy or usefulness of the Documents, and does not represent or warrant that these are the only plans and reports prepared in association with the Property or in Opta's possession at the time of Report delivery to the purchaser. The Documents are current as of the date(s) indicated on them. Interpretation of the Documents, if any, is by inference based upon the information which is apparent and obvious on the face of the Documents only. Opta does not represent, warrant or guarantee that interpretations other than those referred to do not exist from other sources. The Report will be prepared for use by the purchaser of the services as shown above hereof only.

## Disclaimer

Opta disclaims responsibility for any losses or damages of any kind whatsoever, whether consequential or other, however caused, incurred or suffered, arising directly or indirectly as a result of the services (which services include, but are not limited to, the preparation of the Report provided hereunder), including but not limited to, any losses or damages arising directly or indirectly from any breach of contract, fundamental or otherwise, from reliance on Opta Reports or from any tortious acts or omissions of Opta's agents, employees or representatives.

## Entire Agreement

The parties hereto acknowledge and agree to be bound by the terms and conditions hereof. The request form constitutes the entire agreement between the parties pertaining to the subject matter hereof and supersedes all prior and contemporaneous agreements, negotiations and discussions, whether oral or written, and there are no representations or warranties, or other agreements between the parties in connection with the subject matter hereof except as specifically set forth herein. No supplement, modification, waiver, or termination of the request shall be binding, unless confirmed in writing by the parties hereto.

## Governing Document

In the event of any conflicts or inconsistencies between the provisions hereof and the Reports, the rights and obligations of the parties shall be deemed to be governed by the request form, which shall be the paramount document.

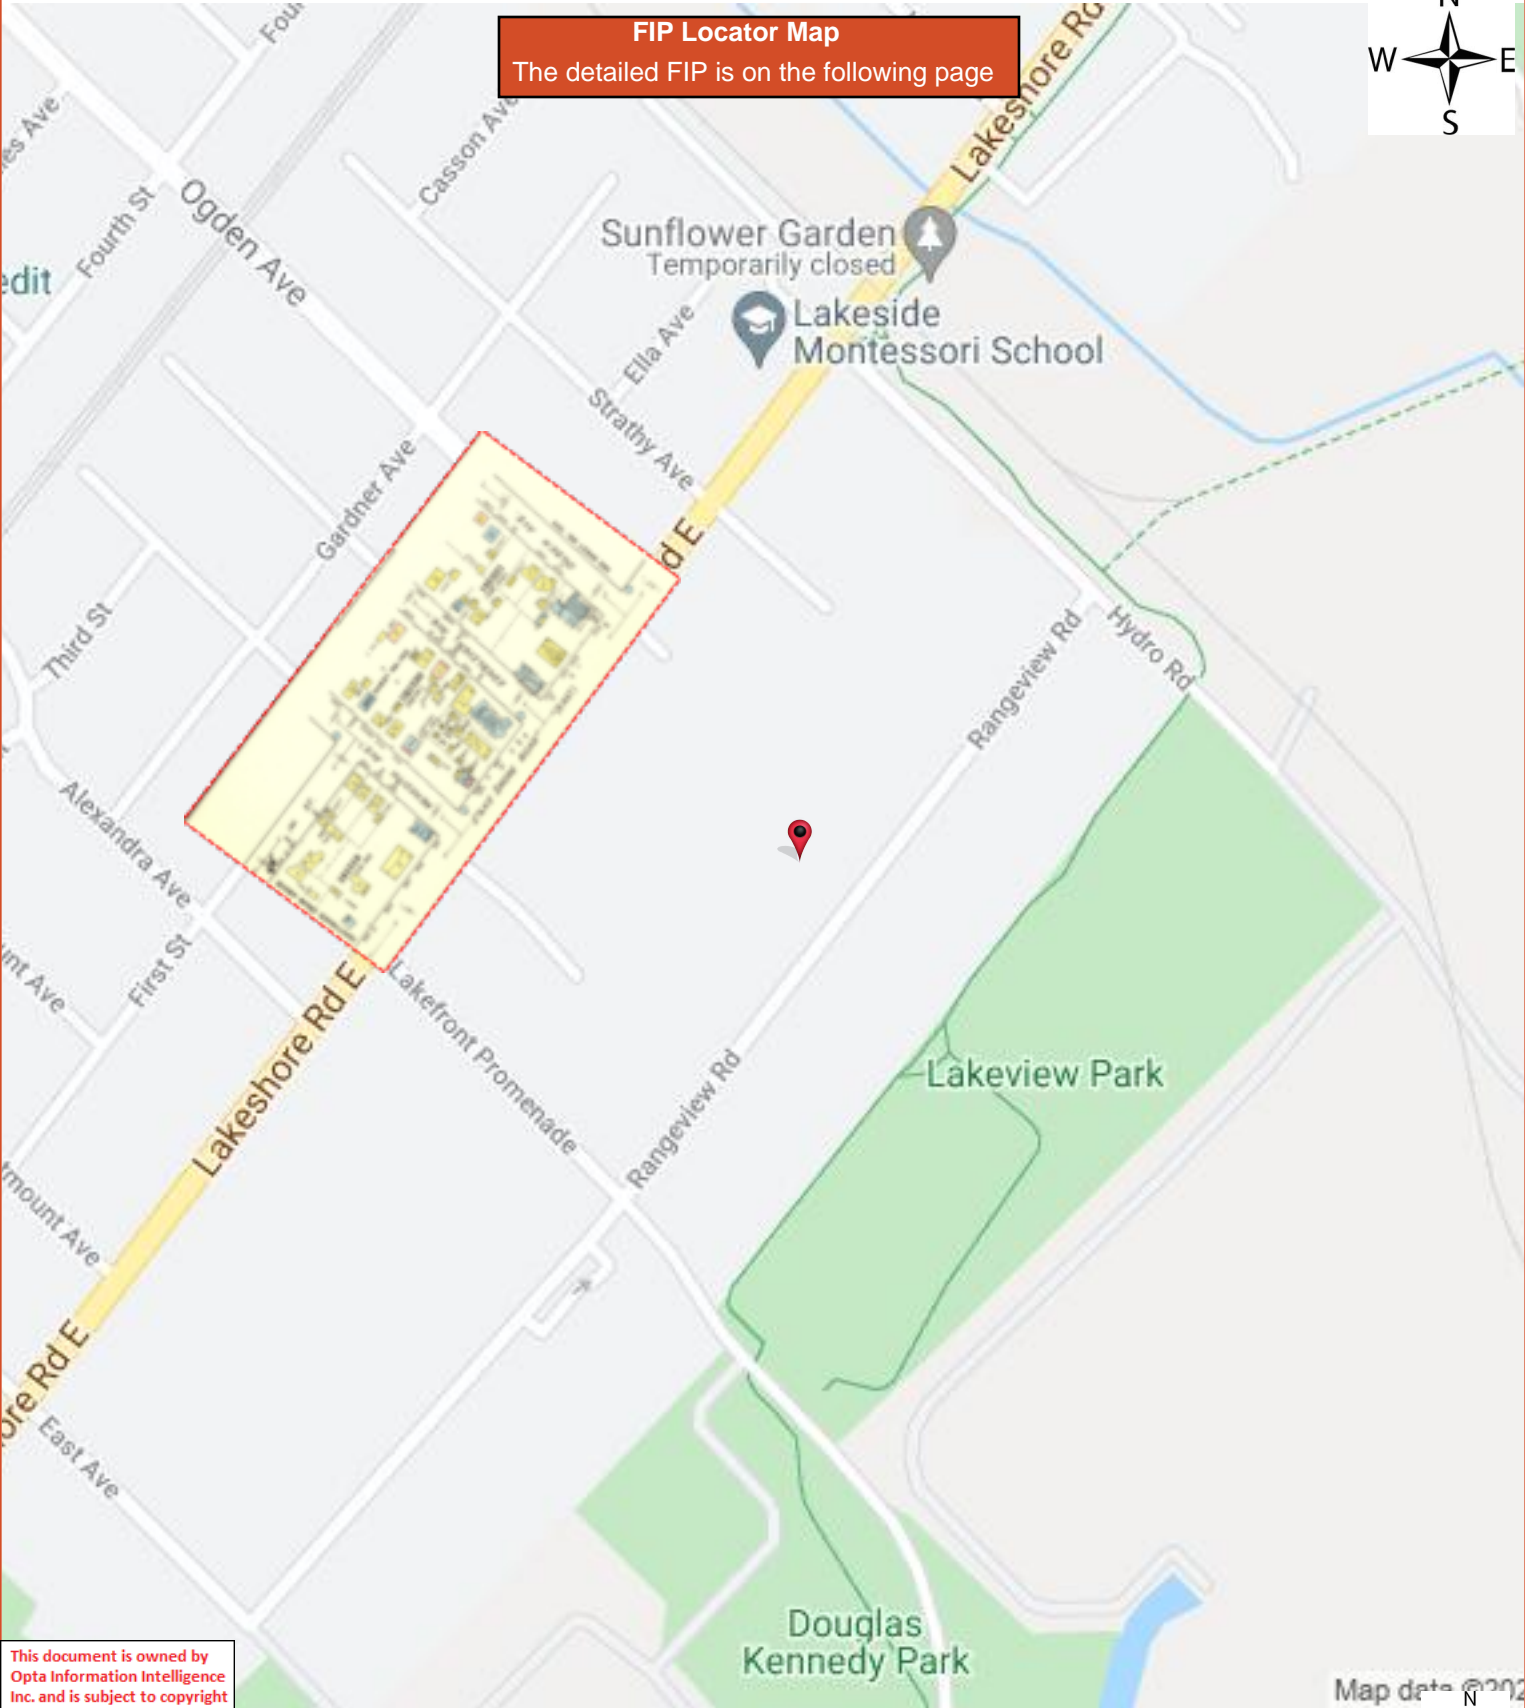

## Law

This agreement shall be governed by and construed in accordance with the laws of the Province of Ontario and the laws of Canada applicable therein.

CONTACT: Mr. Vern Wuebbolt,  
Building Owner & Tenant

SURVEY-FIRE AND EXTENDED COVERAGE INSURANCE

The survey of the above property on January 20, 1993 was made on behalf of participating insurance companies. The information gathered on this survey is used by these insurers to aid in deciding whether to underwrite the risk, and if so, at what cost.

The following comments were developed from this survey, and are based on conditions, practices observed, other pertinent data supplied by management personnel at the risk, and information secured at the time of survey.

Please note that the following recommendations have been made with the intention of pointing out those areas in which remedial action could have the beneficial effect of making your premises safer.

RECOMMENDATIONS IN CAPITAL LETTERS ARE OF PARTICULAR IMPORTANCE, AND THEIR EARLY IMPLEMENTATION IS ENCOURAGED.

Thank you for your co-operation during this visit, and please do not hesitate to get in touch with us if we can be of any further assistance.

Representative: Reg Guay

AIS Ref No.: 10462837  
...\Page 02

1993 This document is owned by Opta Information Intelligence Inc. and is subject to copyright protection. Please see the full Terms and Conditions at the front of this document.

IAO reports, prepared in compliance with commonly accepted risk control standards existing at the time services are rendered, are developed from an inspection of the premises and/or from data supplied by or on behalf of the Purchaser. IAO does not purport to list all hazards. While changes and modifications referred to in the reports are designed to upgrade protection and loss prevention of the premises, IAO assumes no responsibility for management and control of these activities. IAO will not be responsible to the Purchaser for any loss or damages, whether consequential or other, however caused, incurred or suffered, as a result of the service being provided.

REMARKS:

1. This is the first survey of this building by the IAO since 1991.
2. At the time of the survey, my contact, Mr. Vern Wuebbolt (Building Owner), was unable to verify if the sprinkler system was presently supervise as he has only owned the building two weeks and therefore "Recommendation 75-1" for the supervision of the sprinkler system will be repeated. It was observed that supervision equipment was installed, however, uncertain if connected to a supervisory station. In addition, my contact was unaware of the last sprinkler system test and according to our records, the last test was in 1987. (Recommendation made).
3. This building has changed ownership since the last survey in 1987. As well, there have tenant changes.

RECOMMENDATIONS:

Building Owner

- 75-1 SINCE A FIRE OR AN IMPAIRMENT TO YOUR SPRINKLER EQUIPMENT MAY GO UNNOTICED FOR A LONG TIME WHEN YOUR PREMISES ARE UNATTENDED, CONSIDERATION SHOULD BE GIVEN TO PROVIDING A ULC LISTED CENTRAL STATION SUPERVISORY SERVICE. THE CENTRAL STATION PERSONNEL WOULD ALERT YOUR FIRE DEPARTMENT IMMEDIATELY IN THE EVENT OF A FIRE. THIS FACILITY, WHICH IS AVAILABLE FROM VARIOUS SERVICE COMPANIES, MAY ADVANTAGEOUSLY AFFECT YOUR INSURANCE RATE AND YOUR AGENT OR BROKER COULD PROVIDE SPECIFIC DETAILS.
- 93-1 The wet pipe sprinkler valve should be tested annually to determine adequacy of water supplies and of alarm functions in accordance with the local Fire Code. Our organization with your assistance (someone familiar with this valve should be engaged (on a fee for service basis) to conduct these test requirements. Alternatively, an experienced sprinkler contractor could be engaged to perform the necessary testing.

< SR07383 \ 046283 \ 10462837 >

AIS Ref No.: 10462837  
...\Page 03

1993 This document is owned by Opta Information Intelligence Inc. and is subject to copyright protection. Please see the full Terms and Conditions at the front of this document.

Our records show that your valve was last tested in 1987 and should therefore be tested.

NOTE:

The test records should describe the following:

(1) The verification of available water supply by recording static and then residual pressures with the 50.8 mm (2") drain flowing fully open.

(2) Verification of all sprinkler system alarm functions with the most remote inspector's 25.4 mm (1") test connection flowing.

(3) Verification of valve tamper alarms if provided.

93-2 Standard sprinkler protection should be extended to 7.625 m x 4.575 m

25' x 15' "Waste Storage Paper Room" located within "Boltron Tidman". As well as within the two - 2.44 m x 3.05 m (8' x 10') within the "Henderson Display".

HENDERSON DISPLAY

93-1 A ULC listed flammable liquid storage cabinet, should be provided for the storage of flammable liquids. In addition, a ULC listed flammable liquid storage container should be provided for the dispensing of flammable liquids.

93-2 Standard automatic sprinkler protection should be extended to the two

2.44 m x 3.05 m (8' x 10) washrooms.

BOLTRON TIDMAN (1991 INC.)

93-1 A ULC listed flammable liquid storage cabinet, should be provided for the storage of flammable liquids. In addition, a ULC listed flammable liquid storage container should be provided for the dispensing of flammable liquids.

93-2 Standard automatic sprinkler protection should be extended to the

7.625 m x 4.575 m (25' x 15') "waste paper storage room".

Primary Water Supplies: Municipal - Standard

Secondary Water Supplies: No - Not Required

Standard single supply from a 152.4 mm (6 in) connection to a 254 mm (10 in) main in Rangeview Road fed two ways. Static pressure 586.5 kPa (85 psi), residual pressure 552 kPa (80 psi) with the 50.8 mm (2 in) drain flowing fully open, during a previous survey in 1987.

A water flow test conducted in 1987 indicates that 8937.6 L/min (2352 US gpm) is available at 483 kPa (70 psi) with a static pressure of 600.3 kPa (87 psi).

This Ordinary Hazard Group 2 occupancy requires 4750 L/min (1250 US gpm) at 255.3 kPa (37 psi) at the base of the riser.

The sprinkler system is of an Ordinary Hazard design with 9.29 m<sup>2</sup> (100 sq ft) spacing and six sprinklers per branch line centre feed.

OTHER PROTECTION:

Extinguishers: Standard

OUTSIDE PROTECTION:

Public Hydrants: Standard

Public Fire Department: Paid. Distance to Fire Hall is 2.42 km (1.5 miles)

F.U.S. Municipality Classification: 2

TENANTS

1. Asterisk (\*) denotes change of occupancy since last survey.
2. Good housekeeping with a standard supply of portable extinguishers, unless otherwise stated.
3. If the building is sprinklered, then the overall grading of sprinklers and water supplies to all tenants is equal to that of the building grading, unless otherwise stated.

BOLTRON TIDMAN (1991 Inc.): (Unit 1) (IBC Code: 7980 )  
Occupies 741.342 m2 (7980 sq ft) for ink stamping, (water base inks only) using five ink stamping machines. The finished product maybe folded, cut to size or binded, using machines.

Isopropyl Alcohol (Class I liquid) is dispensed from one - 204.75 L (45 IMP gal) container, into an ordinary container (Recommendation made).

Graph paper left over from various jobs is fed into a collection system, through over head ducts, to 7.625 m x 4.575 m (25' x 15') unsprinklered storage room (Recommendation made). Scrap paper is stored in wood bins until sufficient accumulations warrants a pick-up.

HENDERSON DISPLAY: (Unit 2) (IBC Code: 2750 )  
Occupies 510.95 m2 (5500 sq ft) for commercial printing. This tenant was in the process of setting-up equipment at the of the survey. Equipment was not operational however, it was said that three - screen printers will be used, utilizing non-flammable ink. Cleaning solvent (Class I liquid) is expected to be use from 22.75 L (5 IMP gal) containers

There are presently no provisions for both the storage and dispensing of flammable liquids (Recommendation made). This is a relatively small operation an is operated by the proprietor and one employee.

There are two - 2.44 m x 3.05 m (8' x 10') unsprinklered washroom (Recommendation made).

AIS Ref No.: 10462837  
...\Page 7

VACANT: (Unit 3) (IBC Code: 1841 )  
Comprises 668.88 m2 (7200 sq ft).

## 2.0 CGI RISK SCORE

The CGI Risk\*Score and comments contained in this report are based on conditions and practices observed during our survey and other pertinent data supplied by management personnel at the risk.

	1	2	3	4	5	6	7	8	9	
PROPERTY	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	BUILDING APPEARS IN GOOD CONDITION AND WELL MAINTAINED
LIABILITY	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	GOOD WALKING SURFACES THROUGHOUT WITH NO NOTICEABLE HAZARDS
CRIME	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	SECURITY APPEARS ADEQUATE FOR THIS RISK CLASS

**RISK ALERT ISSUED**  YES  NO

Meaning of the CGI Risk\*Score: The CGI Score is a grading of the risk inspected versus other risks in this class. Similar to the "Commercial" Fire Protection Grading system in design, there is range of 9 categories, with a grading or "score" of 1 being the most desirable. The CGI Score is based on a number of objective criteria pertaining to the risk at the time of our survey, tempered with the experienced judgement of our Loss Control Specialist. As a general guideline, the scores mean the following criteria:

1-3	Risks in this range are well maintained, with no apparent moral hazards or management problems. Undesirable features are non-existent and recommendations, if any, are desirable. Risks in this category are excellent (no deficiencies) to better than average for their class.
4-6	The maintenance of Risks in this range is considered average. Moral hazards are not apparent, but there may be possible management problems (e.g. poor housekeeping). Undesirable features noted are correctable, and recommendations will vary from desirable to important. Risks in this category are considered average for their class.
7-9	Risks in this range tend to be poorly maintained. Moral hazards and management problems (e.g. poor housekeeping and maintenance, poor attitude) are evident. Significant undesirable conditions are present and cannot or will not be corrected. Critical Recommendations may be present. Risks in this category are significantly below average for their class with little or no indication for improvement.

## 3.0 REMARKS

ADDITIONAL REMARKS  YES  NO

THE RISK IS SITUATED ON THENORTH SIDE OF RANGEVIEW ROAD IN A INDUSTRIAL PARK LOCATED IN THE SOUTH END OF THE CITY OF MISSISSAUGA, ONTARIO. THE PREMISES IS A 1 STOREY STRUCTURE WITH NO BASEMENT. THE BUILDING CONSISTS OF 3 TENANT UNITS. THE BUILDING APPEARS TO BE IN GOOD CONDITION AND IS WELL MAINTAINED. THE PREMISES IS WELL ARRANGED WITH GOOD WALKING SURFACES AND GOOD HOUSEKEEPING WAS OBSERVED THROUGHOUT. THERE WERE NO UNUSUAL CONDITIONS OR HAZARDS NOTED AT THE TIME OF INSPECTION.

AT TIME OF THE INSPECTION THE INSURED STATED THAT THERE IN NO U.S. BUSINESS EXPOSURE AS ALL CURRENT SALES AND CUSTOMERS REMAIN IN CANADA. ESTAIMATED ANNUAL INCOME WAS NOT DISCLOSED BY THE INSURED AT TIME OF THE INSPECTION.

# ALLRISK

## 3.0 REMARKS

MANAGEMENT EXPRESSED AN INTEREST IN LOSS PREVENTION AND LOSS CONTROL CONCERNS.

## 4.0 RECOMMENDATIONS

Please note that these recommendations are classified as either CRITICAL, IMPORTANT, or DESIRABLE IMPROVEMENT. "CRITICAL" recommendations are those aimed at correcting undesirable feature/s which, if left unattended, could cause a serious loss and should be rectified IMMEDIATELY. This class of recommendation is only used in extreme situations. "IMPORTANT" recommendations are intended to highlight undesirable feature/s which if left unattended, could cause a serious loss and should be rectified as soon as possible. "DESIRABLE IMPROVEMENT" recommendations are those aimed at correcting an undesirable feature which can be improved when feasible, to help reduce the risk of a loss.

ARE THERE ANY RECOMMENDATIONS  YES  NO

The **CGI Risk•Score** and comments contained in this report are based on conditions and practices observed during our survey and other pertinent data supplied by management personnel at the risk.

Recommendations in this report are made to point out those areas where remedial action could have the beneficial effect of making the above premises safer and thus more desirable from an underwriting standpoint.

Thank you for choosing CGI to perform this inspection. Please do not hesitate to contact us if we can be of any further assistance.

### *Committed to Service Excellence*

CGI reports, prepared in compliance with commonly accepted risk control standards existing at the time services are rendered, are developed from an inspection of the premises and/or from data supplied by or on behalf of the Purchaser. CGI does not purport to list all hazards. While changes and modifications referred to in the reports are designed to upgrade protection and loss prevention of the premises, CGI assumes no responsibility for management and control of these activities. CGI will not be responsible to the Purchaser for any losses or damages, whether consequential or other, however caused, incurred or suffered, as a result of the services being provided.

**RISK ALERT ISSUED:**  Yes  No **IF YES, DESCRIBE** (A risk alert is a telephone notification to the Inspection requestor, of a situation which could imminently cause a serious loss. A Critical Recommendation will be issued to address the situation.)

**Meaning of the CGI Risk-Score:** The CGI Score is a grading of the risk inspected versus other risks in this class. Similar to the "Commercial" Fire Protection Grading system in design, there is range of 9 categories, with a grading or "score" of 1 being the most desirable. The CGI Score is based on a number of objective criteria pertaining to the risk at the time of our survey, tempered with the experienced judgement of our Loss Control Specialist. As a general guideline, the scores mean the following criteria:

<b>1-3</b>	Risks in this range are well maintained, with no apparent moral hazards or management problems. Undesirable features are non-existent and recommendations, if any, are desirable. Risks in this category are excellent (no deficiencies) to better than average for their class.
<b>4-6</b>	The maintenance of Risks in this range is considered average. Moral hazards are not apparent, but there may be possible management problems (e.g. poor housekeeping). Undesirable features noted are correctable, and recommendations will vary from desirable to important. Risks in this category are considered average for their class.
<b>7-9</b>	Risks in this range tend to be poorly maintained. Moral hazards and management problems (e.g. poor housekeeping and maintenance, poor attitude) are evident. Significant undesirable conditions are present and cannot or will not be corrected. Critical Recommendations may be present. Risks in this category are significantly below average for their class with little or no indication for improvement.

### 3.0 **REMARKS**

Risk is located on Rangeview Road in a commercial/industrial neighbourhood of Mississauga. The insured occupies one unit in the building. The building appears to be old and needs proper maintenance (Rec. made).

The building is fully sprinklered but the sprinkler system and the water supply were not tested or evaluated during this inspection.

Multi-purpose portable fire extinguishers have not been serviced since May 2004 (Rec. made). Data back not taken off premises (Rec. made). Metal coping or flashing on the parapet wall on the south east side of the building is damaged and hanging precariously (Rec. made). Considerable evidence of trip and fall hazards exists due uneven asphalt surfaces and cracked driveways, parking lot and around building (Rec. made). Considerable evidence of spalling of bricks on the southeast side and around the building (Rec. made).

### 4.0 **RECOMMENDATIONS**

Please note that these recommendations are classified as either  **Critical**,  **Important**, or  **Desirable Improvement**. "**Critical**" recommendations are those aimed at correcting undesirable feature/s which, if left unattended, could cause a serious loss and should be rectified immediately. This class of recommendation is only used in extreme situations. "**Important**" recommendations are intended to highlight undesirable feature/s which if left unattended, could cause a serious loss and should be rectified as soon as possible. "**Desirable Improvement**" recommendations are those aimed at correcting an undesirable feature which can be improved when feasible, to help reduce the risk of a loss.

Listed below    or     None

07-1     Critical     Important     Desirable Improvement

**All portable fire extinguishers in your unit should be serviced and tagged by an authorized serviced contractor to ensure good working order in compliance with N.F.P.A. # 10 Code standard requirements.**

07-2     Critical     Important     Desirable Improvement

**Backed up computer data should be taken out of the premises and kept in a totally separate location to prevent loss of important business data.**

07-3     Critical     Important     Desirable Improvement

**Metal coping or flashing on the parapet wall on the south east side of the building is damaged and hanging precariously, should be repaired immediately by a qualified contractor to prevent damage to building. Also prevent the any liability issues arising out flying or falling this metal causing damage or injury.**

07-4  Critical  Important  Desirable Improvement

**All uneven/cracked asphalt surfaces and pot holed driveways, parking lot and around the premises should be repaired to prevent trip and fall hazards.**

07-5  Critical  Important  Desirable Improvement

**Bricks on the south east side and around the building should be repaired immediately by a qualified contractor to prevent further damage to the front wall of the building.**

## 5.0 OCCUPANCY INFORMATION

The Insured is:	<input type="checkbox"/> Owner Occupant	<input type="checkbox"/> Non-occupant building owner	<input checked="" type="checkbox"/> Tenant
<b>Insured's Occupancy Description:</b> Occupied for providing book binding, and promotion material distribution services to various customers. Equipment used in the book binding are one large and one small folding machine, one die cutter (that is currently being installed), one automatic cutting machine, one manual operated cutting machine, one 3 hole drillin machine, one stitching and trimming machine and one shrink wrap machine with a air flow tunnel. Waste paper vaccum machine connected to the stitching and trimming machine has been disconnected. Currently waste paper is being collected manually and stored on the north side of the unit before disposal. Insured has sub-let a portion to an extent of 125 sq.m., to a company known as Code Fullfillment, for storage of goods. These goods are hotel promotion material in cartons that are stored on standard racks. This sub tenant has been in the location since October 2005. Multi-purpose portable fire extinguishers have not been serviced since May 2005 (Rec. made).

## Report

The documents (hereinafter referred to as the "Documents") to be released as part of the report (hereinafter referred to as the "Report") to be delivered to the purchaser as set out above are documents in Opta's records relating to the described property (hereinafter referred to as the "Property"). Opta makes no representations or warranties respecting the Documents whatsoever, including, without limitation, with respect to the completeness, accuracy or usefulness of the Documents, and does not represent or warrant that these are the only plans and reports prepared in association with the Property or in Opta's possession at the time of Report delivery to the purchaser. The Documents are current as of the date(s) indicated on them. Interpretation of the Documents, if any, is by inference based upon the information which is apparent and obvious on the face of the Documents only. Opta does not represent, warrant or guarantee that interpretations other than those referred to do not exist from other sources. The Report will be prepared for use by the purchaser of the services as shown above hereof only.

## Disclaimer

Opta disclaims responsibility for any losses or damages of any kind whatsoever, whether consequential or other, however caused, incurred or suffered, arising directly or indirectly as a result of the services (which services include, but are not limited to, the preparation of the Report provided hereunder), including but not limited to, any losses or damages arising directly or indirectly from any breach of contract, fundamental or otherwise, from reliance on Opta Reports or from any tortious acts or omissions of Opta's agents, employees or representatives.

## Entire Agreement

The parties hereto acknowledge and agree to be bound by the terms and conditions hereof. The request form constitutes the entire agreement between the parties pertaining to the subject matter hereof and supersedes all prior and contemporaneous agreements, negotiations and discussions, whether oral or written, and there are no representations or warranties, or other agreements between the parties in connection with the subject matter hereof except as specifically set forth herein. No supplement, modification, waiver, or termination of the request shall be binding, unless confirmed in writing by the parties hereto.

## Governing Document

In the event of any conflicts or inconsistencies between the provisions hereof and the Reports, the rights and obligations of the parties shall be deemed to be governed by the request form, which shall be the paramount document.

## Law

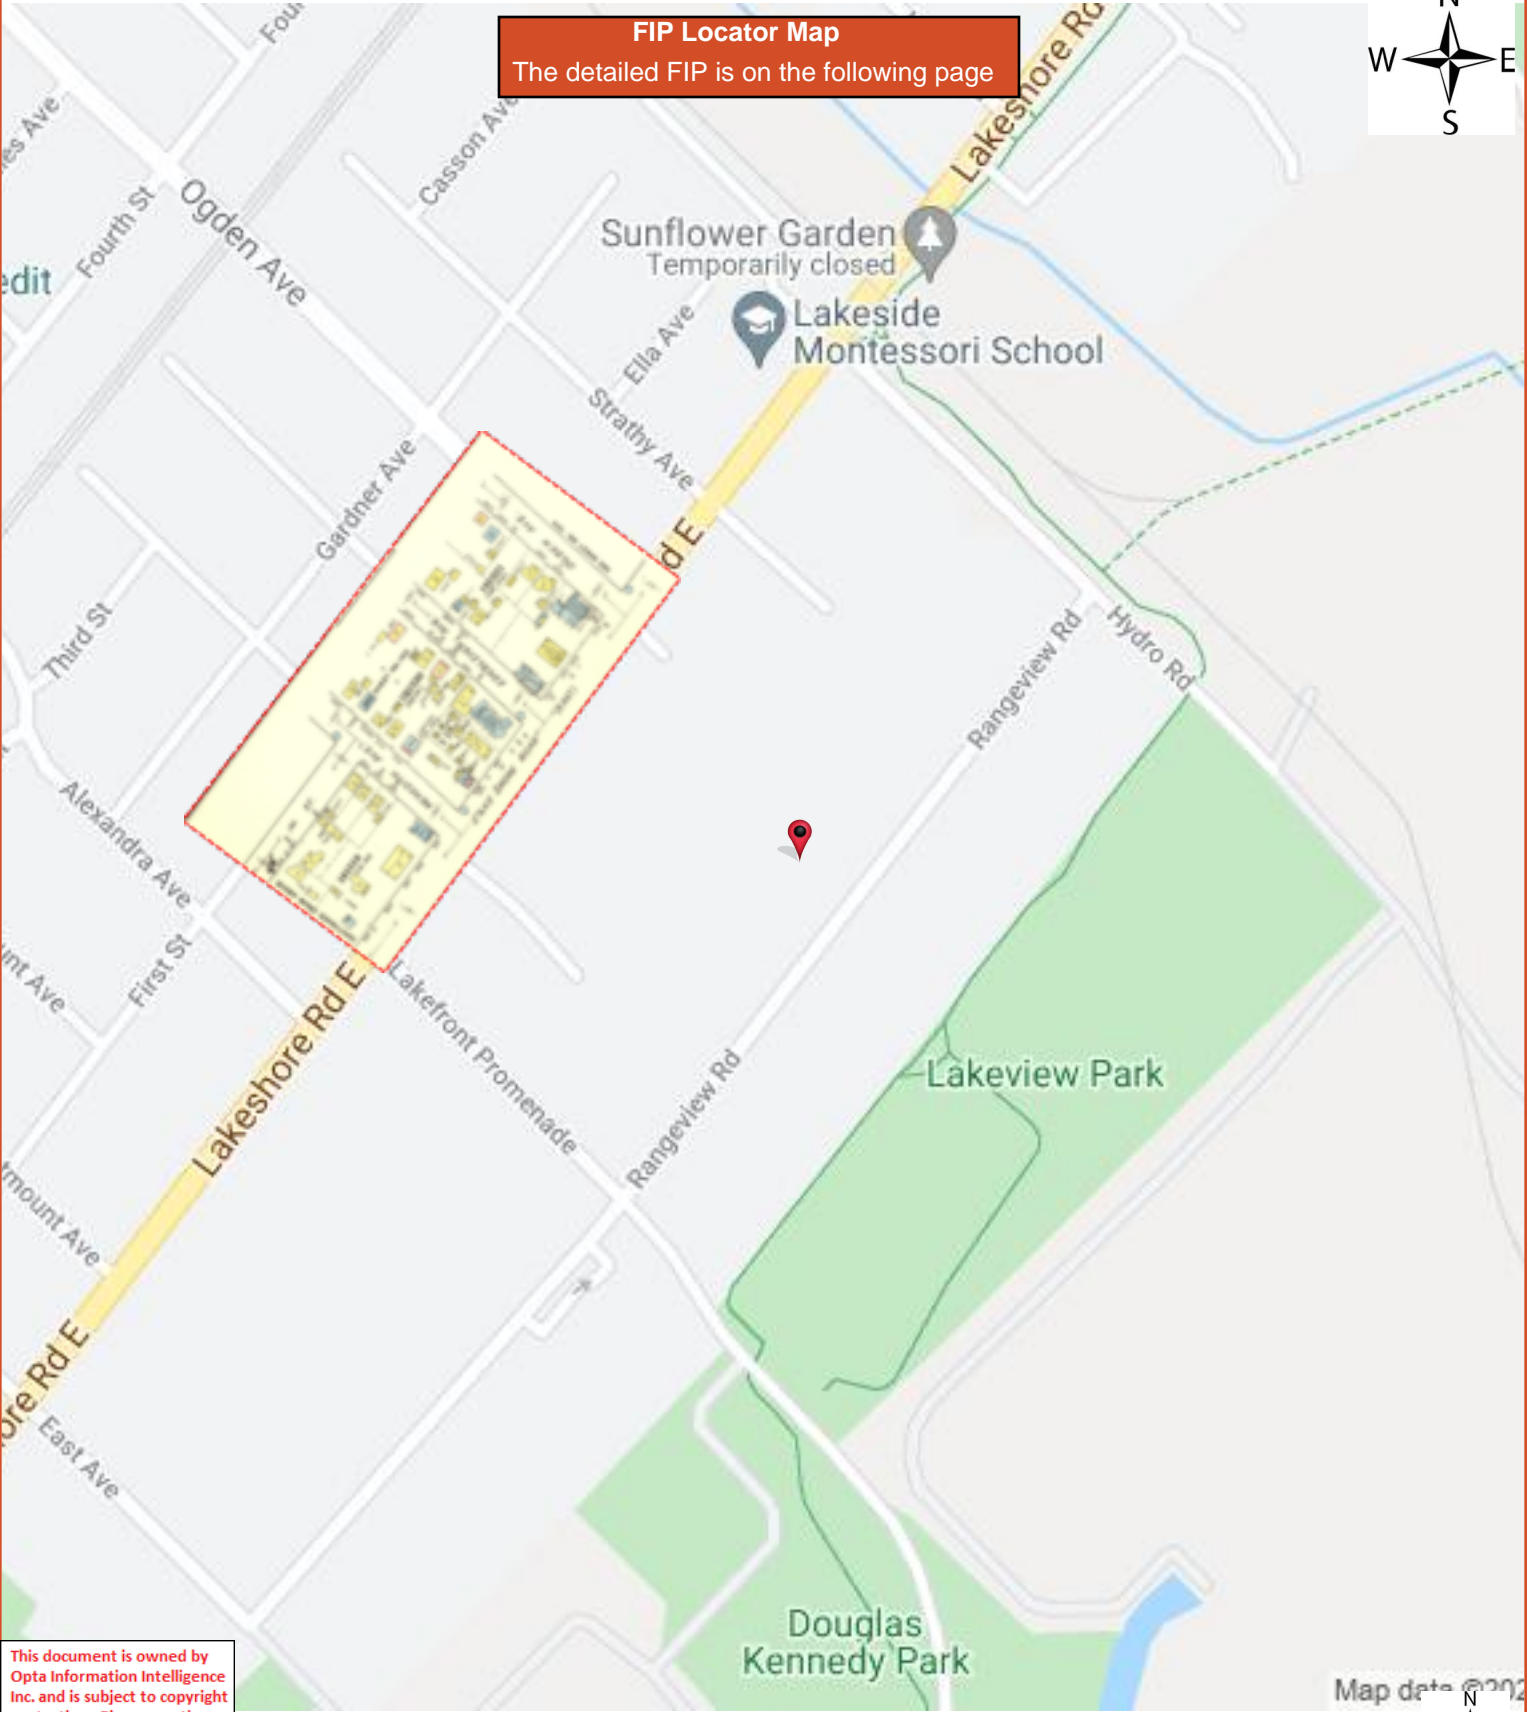

This agreement shall be governed by and construed in accordance with the laws of the Province of Ontario and the laws of Canada applicable therein.

ADDRESS:                Mississauga, Ontario  
                                  L5E 1H2

CONTACT:                Mr. Vern Wuebbolt,  
                                  Building Owner & Tenant

SURVEY-FIRE AND EXTENDED COVERAGE INSURANCE

The survey of the above property on January 20, 1993 was made on behalf of participating insurance companies. The information gathered on this survey is used by these insurers to aid in deciding whether to underwrite the risk, and if so, at what cost.

The following comments were developed from this survey, and are based on conditions, practices observed, other pertinent data supplied by management personnel at the risk, and information secured at the time of survey.

Please note that the following recommendations have been made with the intention of pointing out those areas in which remedial action could have the beneficial effect of making your premises safer.

RECOMMENDATIONS IN CAPITAL LETTERS ARE OF PARTICULAR IMPORTANCE, AND THEIR EARLY IMPLEMENTATION IS ENCOURAGED.

Thank you for your co-operation during this visit, and please do not hesitate to get in touch with us if we can be of any further assistance.

Representative:        Reg Guay

AIS Ref No.: 10462837  
...\Page 02

1993 This document is owned by Opta Information Intelligence Inc. and is subject to copyright protection. Please see the full Terms and Conditions at the front of this document.

IAO reports, prepared in compliance with commonly accepted risk control standards existing at the time services are rendered, are developed from an inspection of the premises and/or from data supplied by or on behalf of the Purchaser. IAO does not purport to list all hazards. While changes and modifications referred to in the reports are designed to upgrade protection and loss prevention of the premises, IAO assumes no responsibility for management and control of these activities. IAO will not be responsible to the Purchaser for any loss or damages, whether consequential or other, however caused, incurred or suffered, as a result of the service being provided.

REMARKS:

- 1. This is the first survey of this building by the IAO since 1991.
- 2. At the time of the survey, my contact, Mr. Vern Wuebbolt (Building Owner), was unable to verify if the sprinkler system was presently supervise as he has only owned the building two weeks and therefore "Recommendation 75-1" for the supervision of the sprinkler system will be repeated. It was observed that supervision equipment was installed, however, uncertain if connected to a supervisory station. In addition, my contact was unaware of the last sprinkler system test and according to our records, the last test was in 1987. (Recommendation made).
- 3. This building has changed ownership since the last survey in 1987. As well, there have tenant changes.

RECOMMENDATIONS:

Building Owner

- 75-1 SINCE A FIRE OR AN IMPAIRMENT TO YOUR SPRINKLER EQUIPMENT MAY GO UNNOTICED FOR A LONG TIME WHEN YOUR PREMISES ARE UNATTENDED, CONSIDERATION SHOULD BE GIVEN TO PROVIDING A ULC LISTED CENTRAL STATION SUPERVISORY SERVICE. THE CENTRAL STATION PERSONNEL WOULD ALERT YOUR FIRE DEPARTMENT IMMEDIATELY IN THE EVENT OF A FIRE. THIS FACILITY, WHICH IS AVAILABLE FROM VARIOUS SERVICE COMPANIES, MAY ADVANTAGEOUSLY AFFECT YOUR INSURANCE RATE AND YOUR AGENT OR BROKER COULD PROVIDE SPECIFIC DETAILS.
- 93-1 The wet pipe sprinkler valve should be tested annually to determine adequacy of water supplies and of alarm functions in accordance with the local Fire Code. Our organization with your assistance (someone familiar with this valve should be engaged (on a fee for service basis) to conduct these test requirements. Alternatively, an experienced sprinkler contractor could be engaged to perform the necessary testing.

< SR07383 \ 046283 \ 10462837 >

This document is owned by Opta Information Intelligence Inc. and is subject to copyright protection. Please see the full Terms and Conditions at the front of this document.

AIS Ref No.: 10462837  
...\Page 03

1993 This document is owned by Opta Information Intelligence Inc. and is subject to copyright protection. Please see the full Terms and Conditions at the front of this document.

Our records show that your valve was last tested in 1987 and should therefore be tested.

NOTE:

The test records should describe the following:

(1) The verification of available water supply by recording static and then residual pressures with the 50.8 mm (2") drain flowing fully open.

(2) Verification of all sprinkler system alarm functions with the most remote inspector's 25.4 mm (1") test connection flowing.

(3) Verification of valve tamper alarms if provided.

93-2 Standard sprinkler protection should be extended to 7.625 m x 4.575 m

25' x 15' "Waste Storage Paper Room" located within "Boltron Tidman". As well as within the two - 2.44 m x 3.05 m (8' x 10') within the "Henderson Display".

HENDERSON DISPLAY

93-1 A ULC listed flammable liquid storage cabinet, should be provided for the storage of flammable liquids. In addition, a ULC listed flammable liquid storage container should be provided for the dispensing of flammable liquids.

93-2 Standard automatic sprinkler protection should be extended to the two

2.44 m x 3.05 m (8' x 10) washrooms.

BOLTRON TIDMAN (1991 INC.)

93-1 A ULC listed flammable liquid storage cabinet, should be provided for the storage of flammable liquids. In addition, a ULC listed flammable liquid storage container should be provided for the dispensing of flammable liquids.

93-2 Standard automatic sprinkler protection should be extended to the

7.625 m x 4.575 m (25' x 15') "waste paper storage room".

Primary Water Supplies: Municipal - Standard

Secondary Water Supplies: No - Not Required

Standard single supply from a 152.4 mm (6 in) connection to a 254 mm (10 in) main in Rangeview Road fed two ways. Static pressure 586.5 kPa (85 psi), residual pressure 552 kPa (80 psi) with the 50.8 mm (2 in) drain flowing fully open, during a previous survey in 1987.

A water flow test conducted in 1987 indicates that 8937.6 L/min (2352 US gpm) is available at 483 kPa (70 psi) with a static pressure of 600.3 kPa (87 psi).

This Ordinary Hazard Group 2 occupancy requires 4750 L/min (1250 US gpm) at 255.3 kPa (37 psi) at the base of the riser.

The sprinkler system is of an Ordinary Hazard design with 9.29 m<sup>2</sup> (100 sq ft) spacing and six sprinklers per branch line centre feed.

OTHER PROTECTION:

Extinguishers: Standard

OUTSIDE PROTECTION:

Public Hydrants: Standard

Public Fire Department: Paid. Distance to Fire Hall is 2.42 km (1.5 miles)

F.U.S. Municipality Classification: 2

Accessibility: To Property: Good

into Building: Good

EXTENDED COVERAGE

SPRINKLER LEAKAGE - Stock Skidded or Shelved: Yes

Stock Susceptible to Large Water Damage: No

Floors Drained: No

RIOT, VANDALISM, MALICIOUS ACTS

EARTHQUAKE - Zone: 0

IMPACT HAZARDS:

SMOKE DAMAGE - Susceptibility of stock to smoke damage: Moderate

TENANTS

1. Asterisk (\*) denotes change of occupancy since last survey.
2. Good housekeeping with a standard supply of portable extinguishers, unless otherwise stated.
3. If the building is sprinklered, then the overall grading of sprinklers and water supplies to all tenants is equal to that of the building grading, unless otherwise stated.

BOLTRON TIDMAN (1991 Inc.): (Unit 1) (IBC Code: 7980 )  
Occupies 741.342 m2 (7980 sq ft) for ink stamping, (water base inks only) using five ink stamping machines. The finished product maybe folded, cut to size or binded, using machines.

Isopropyl Alcohol (Class I liquid) is dispensed from one - 204.75 L (45 IMP gal) container, into an ordinary container (Recommendation made).

Graph paper left over from various jobs is fed into a collection system, through over head ducts, to 7.625 m x 4.575 m (25' x 15') unsprinklered storage room (Recommendation made). Scrap paper is stored in wood bins until sufficient accumulations warrants a pick-up.

HENDERSON DISPLAY: (Unit 2) (IBC Code: 2750 )  
Occupies 510.95 m2 (5500 sq ft) for commercial printing. This tenant was in the process of setting-up equipment at the of the survey. Equipment was not operational however, it was said that three - screen printers will be used, utilizing non-flammable ink. Cleaning solvent (Class I liquid) is expected to be use from 22.75 L (5 IMP gal) containers

There are presently no provisions for both the storage and dispensing of flammable liquids (Recommendation made). This is a relatively small operation an is operated by the proprietor and one employee.

There are two - 2.44 m x 3.05 m (8' x 10') unsprinklered washroom (Recommendation made).

AIS Ref No.: 10462837  
...\Page 7

VACANT: (Unit 3) (IBC Code: 1841 )  
Comprises 668.88 m2 (7200 sq ft).

## 2.0 CGI RISK SCORE

The CGI Risk\*Score and comments contained in this report are based on conditions and practices observed during our survey and other pertinent data supplied by management personnel at the risk.

	1	2	3	4	5	6	7	8	9	
PROPERTY	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	BUILDING APPEARS IN GOOD CONDITION AND WELL MAINTAINED
LIABILITY	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	GOOD WALKING SURFACES THROUGHOUT WITH NO NOTICEABLE HAZARDS
CRIME	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	SECURITY APPEARS ADEQUATE FOR THIS RISK CLASS

**RISK ALERT ISSUED**  YES  NO

Meaning of the CGI Risk\*Score: The CGI Score is a grading of the risk inspected versus other risks in this class. Similar to the "Commercial" Fire Protection Grading system in design, there is range of 9 categories, with a grading or "score" of 1 being the most desirable. The CGI Score is based on a number of objective criteria pertaining to the risk at the time of our survey, tempered with the experienced judgement of our Loss Control Specialist. As a general guideline, the scores mean the following criteria:

1-3	Risks in this range are well maintained, with no apparent moral hazards or management problems. Undesirable features are non-existent and recommendations, if any, are desirable. Risks in this category are excellent (no deficiencies) to better than average for their class.
4-6	The maintenance of Risks in this range is considered average. Moral hazards are not apparent, but there may be possible management problems (e.g. poor housekeeping). Undesirable features noted are correctable, and recommendations will vary from desirable to important. Risks in this category are considered average for their class.
7-9	Risks in this range tend to be poorly maintained. Moral hazards and management problems (e.g. poor housekeeping and maintenance, poor attitude) are evident. Significant undesirable conditions are present and cannot or will not be corrected. Critical Recommendations may be present. Risks in this category are significantly below average for their class with little or no indication for improvement.

## 3.0 REMARKS

ADDITIONAL REMARKS  YES  NO

THE RISK IS SITUATED ON THENORTH SIDE OF RANGEVIEW ROAD IN A INDUSTRIAL PARK LOCATED IN THE SOUTH END OF THE CITY OF MISSISSAUGA, ONTARIO. THE PREMISES IS A 1 STOREY STRUCTURE WITH NO BASEMENT. THE BUILDING CONSISTS OF 3 TENANT UNITS. THE BUILDING APPEARS TO BE IN GOOD CONDITION AND IS WELL MAINTAINED. THE PREMISES IS WELL ARRANGED WITH GOOD WALKING SURFACES AND GOOD HOUSEKEEPING WAS OBSERVED THROUGHOUT. THERE WERE NO UNUSUAL CONDITIONS OR HAZARDS NOTED AT THE TIME OF INSPECTION.

AT TIME OF THE INSPECTION THE INSURED STATED THAT THERE IN NO U.S. BUSINESS EXPOSURE AS ALL CURRENT SALES AND CUSTOMERS REMAIN IN CANADA. ESTAIMATED ANNUAL INCOME WAS NOT DISCLOSED BY THE INSURED AT TIME OF THE INSPECTION.

# ALLRISK

## 3.0 REMARKS

MANAGEMENT EXPRESSED AN INTEREST IN LOSS PREVENTION AND LOSS CONTROL CONCERNS.

## 4.0 RECOMMENDATIONS

Please note that these recommendations are classified as either CRITICAL, IMPORTANT, or DESIRABLE IMPROVEMENT. "CRITICAL" recommendations are those aimed at correcting undesirable feature/s which, if left unattended, could cause a serious loss and should be rectified IMMEDIATELY. This class of recommendation is only used in extreme situations. "IMPORTANT" recommendations are intended to highlight undesirable feature/s which if left unattended, could cause a serious loss and should be rectified as soon as possible. "DESIRABLE IMPROVEMENT" recommendations are those aimed at correcting an undesirable feature which can be improved when feasible, to help reduce the risk of a loss.

<b>Underwriter:</b> Lucie Delisle	<b>Broker:</b> Worden Insurance		

The **CGI Risk•Score** and comments contained in this report are based on conditions and practices observed during our survey and other pertinent data supplied by management personnel at the risk.

Recommendations in this report are made to point out those areas where remedial action could have the beneficial effect of making the above premises safer and thus more desirable from an underwriting standpoint.

Thank you for choosing CGI to perform this inspection. Please do not hesitate to contact us if we can be of any further assistance.

### **Committed to Service Excellence**

CGI reports, prepared in compliance with commonly accepted risk control standards existing at the time services are rendered, are developed from an inspection of the premises and/or from data supplied by or on behalf of the Purchaser. CGI does not purport to list all hazards. While changes and modifications referred to in the reports are designed to upgrade protection and loss prevention of the premises, CGI assumes no responsibility for management and control of these activities. CGI will not be responsible to the Purchaser for any losses or damages, whether consequential or other, however caused, incurred or suffered, as a result of the services being provided.

**RISK ALERT ISSUED:**  Yes  No **IF YES, DESCRIBE** (A risk alert is a telephone notification to the Inspection requestor, of a situation which could imminently cause a serious loss. A Critical Recommendation will be issued to address the situation.)

**Meaning of the CGI Risk-Score:** The CGI Score is a grading of the risk inspected versus other risks in this class. Similar to the "Commercial" Fire Protection Grading system in design, there is range of 9 categories, with a grading or "score" of 1 being the most desirable. The CGI Score is based on a number of objective criteria pertaining to the risk at the time of our survey, tempered with the experienced judgement of our Loss Control Specialist. As a general guideline, the scores mean the following criteria:

<b>1-3</b>	Risks in this range are well maintained, with no apparent moral hazards or management problems. Undesirable features are non-existent and recommendations, if any, are desirable. Risks in this category are excellent (no deficiencies) to better than average for their class.
<b>4-6</b>	The maintenance of Risks in this range is considered average. Moral hazards are not apparent, but there may be possible management problems (e.g. poor housekeeping). Undesirable features noted are correctable, and recommendations will vary from desirable to important. Risks in this category are considered average for their class.
<b>7-9</b>	Risks in this range tend to be poorly maintained. Moral hazards and management problems (e.g. poor housekeeping and maintenance, poor attitude) are evident. Significant undesirable conditions are present and cannot or will not be corrected. Critical Recommendations may be present. Risks in this category are significantly below average for their class with little or no indication for improvement.

### 3.0 REMARKS

Risk is located on Rangeview Road in a commercial/industrial neighbourhood of Mississauga. The insured occupies one unit in the building. The building appears to be old and needs proper maintenance (Rec. made).

The building is fully sprinklered but the sprinkler system and the water supply were not tested or evaluated during this inspection.

Multi-purpose portable fire extinguishers have not been serviced since May 2004 (Rec. made). Data back not taken off premises (Rec. made). Metal coping or flashing on the parapet wall on the south east side of the building is damaged and hanging precariously (Rec. made). Considerable evidence of trip and fall hazards exists due uneven asphalt surfaces and cracked driveways, parking lot and around building (Rec. made). Considerable evidence of spalling of bricks on the southeast side and around the building (Rec. made).

### 4.0 RECOMMENDATIONS

Please note that these recommendations are classified as either  Critical,  Important, or  Desirable Improvement. "Critical" recommendations are those aimed at correcting undesirable feature/s which, if left unattended, could cause a serious loss and should be rectified immediately. This class of recommendation is only used in extreme situations. "Important" recommendations are intended to highlight undesirable feature/s which if left unattended, could cause a serious loss and should be rectified as soon as possible. "Desirable Improvement" recommendations are those aimed at correcting an undesirable feature which can be improved when feasible, to help reduce the risk of a loss.

Listed below      or       None

07-1     Critical     Important     Desirable Improvement

**All portable fire extinguishers in your unit should be serviced and tagged by an authorized serviced contractor to ensure good working order in compliance with N.F.P.A. # 10 Code standard requirements.**

07-2     Critical     Important     Desirable Improvement

**Backed up computer data should be taken out of the premises and kept in a totally separate location to prevent loss of important business data.**

07-3     Critical     Important     Desirable Improvement

**Metal coping or flashing on the parapet wall on the south east side of the building is damaged and hanging precariously, should be repaired immediately by a qualified contractor to prevent damage to building. Also prevent the any liability issues arising out flying or falling this metal causing damage or injury.**

07-4  Critical  Important  Desirable Improvement

**All uneven/cracked asphalt surfaces and pot holed driveways, parking lot and around the premises should be repaired to prevent trip and fall hazards.**

07-5  Critical  Important  Desirable Improvement

**Bricks on the south east side and around the building should be repaired immediately by a qualified contractor to prevent further damage to the front wall of the building.**

## 5.0 OCCUPANCY INFORMATION

The Insured is:	<input type="checkbox"/> Owner Occupant	<input type="checkbox"/> Non-occupant building owner	<input checked="" type="checkbox"/> Tenant
<b>Insured's Occupancy Description:</b> Occupied for providing book binding, and promotion material distribution services to various customers. Equipment used in the book binding are one large and one small folding machine, one die cutter (that is currently being installed), one automatic cutting machine, one manual operated cutting machine, one 3 hole drillin machine, one stitching and trimming machine and one shrink wrap machine with a air flow tunnel. Waste paper vaccum machine connected to the stitching and trimming machine has been disconnected. Currently waste paper is being collected manually and stored on the north side of the unit before disposal. Insured has sub-let a portion to an extent of 125 sq.m., to a company known as Code Fullfillment, for storage of goods. These goods are hotel promotion material in cartons that are stored on standard racks. This sub tenant has been in the location since October 2005. Multi-purpose portable fire extinguishers have not been serviced since May 2005 (Rec. made).

## Opta Historical Environmental Services Enviroscan<sup>TM</sup> Terms and Conditions

### Report

The documents (hereinafter referred to as the "Documents") to be released as part of the report (hereinafter referred to as the "Report") to be delivered to the purchaser as set out above are documents in Opta's records relating to the described property (hereinafter referred to as the "Property"). Opta makes no representations or warranties respecting the Documents whatsoever, including, without limitation, with respect to the completeness, accuracy or usefulness of the Documents, and does not represent or warrant that these are the only plans and reports prepared in association with the Property or in Opta's possession at the time of Report delivery to the purchaser. The Documents are current as of the date(s) indicated on them. Interpretation of the Documents, if any, is by inference based upon the information which is apparent and obvious on the face of the Documents only. Opta does not represent, warrant or guarantee that interpretations other than those referred to do not exist from other sources. The Report will be prepared for use by the purchaser of the services as shown above hereof only.

### Disclaimer

Opta disclaims responsibility for any losses or damages of any kind whatsoever, whether consequential or other, however caused, incurred or suffered, arising directly or indirectly as a result of the services (which services include, but are not limited to, the preparation of the Report provided hereunder), including but not limited to, any losses or damages arising directly or indirectly from any breach of contract, fundamental or otherwise, from reliance on Opta Reports or from any tortious acts or omissions of Opta's agents, employees or representatives.

### Entire Agreement

The parties hereto acknowledge and agree to be bound by the terms and conditions hereof. The request form constitutes the entire agreement between the parties pertaining to the subject matter hereof and supersedes all prior and contemporaneous agreements, negotiations and discussions, whether oral or written, and there are no representations or warranties, or other agreements between the parties in connection with the subject matter hereof except as specifically set forth herein. No supplement, modification, waiver, or termination of the request shall be binding, unless confirmed in writing by the parties hereto.

### Governing Document

In the event of any conflicts or inconsistencies between the provisions hereof and the Reports, the rights and obligations of the parties shall be deemed to be governed by the request form, which shall be the paramount document.

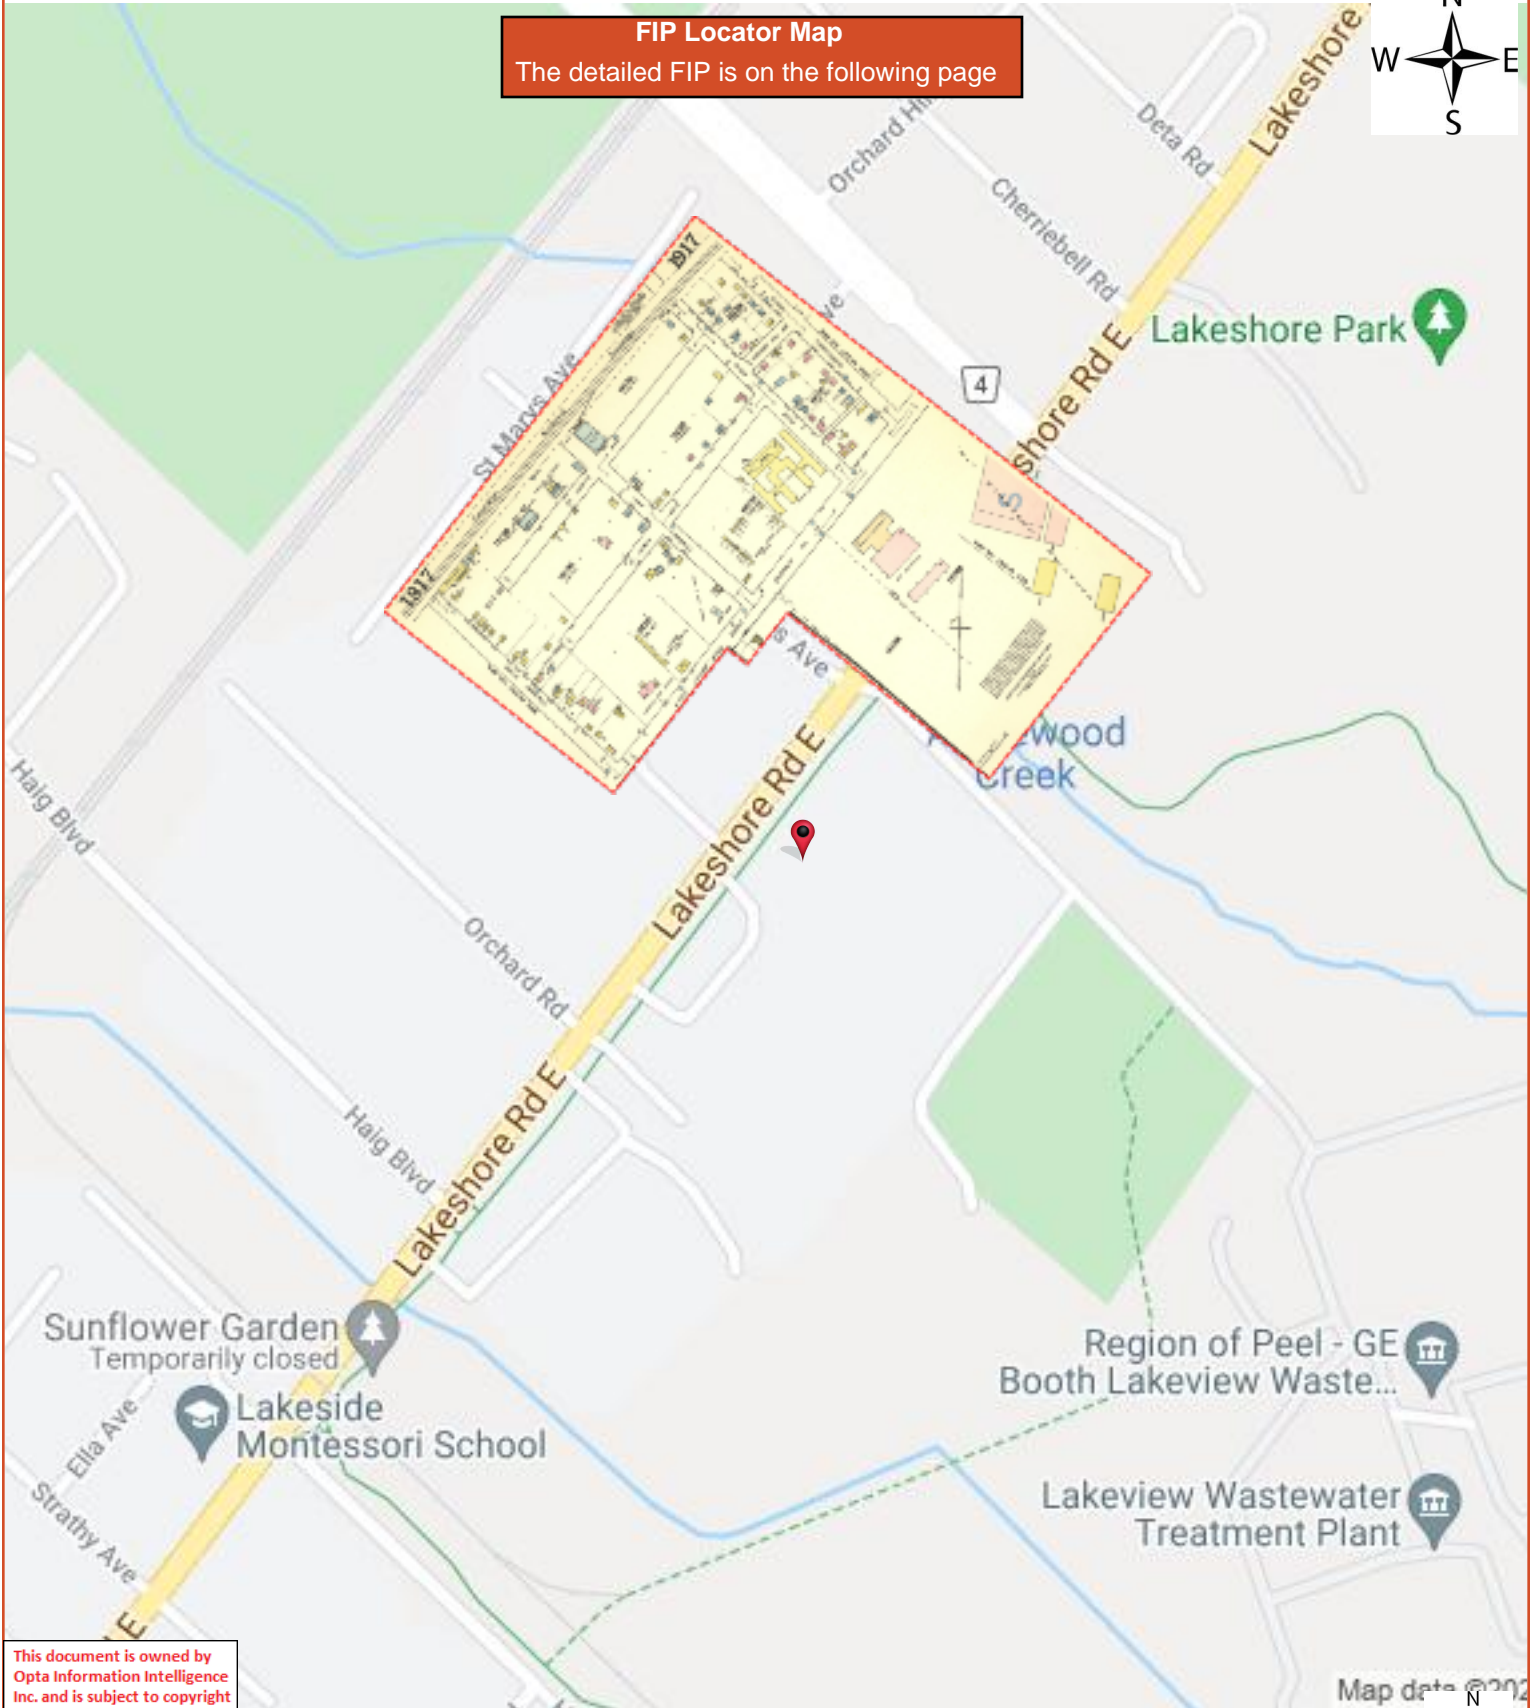

### Law

This agreement shall be governed by and construed in accordance with the laws of the Province of Ontario and the laws of Canada applicable therein.

CONTACT: Mr. D. McLean,  
Warehouse Supervisor

SURVEY-FIRE AND EXTENDED COVERAGE INSURANCE

The survey of the above property on January 20, 1993 was made on behalf of participating insurance companies. The information gathered on this survey is used by these insurers to aid in deciding whether to underwrite the risk, and if so, at what cost.

The following comments were developed from this survey, and are based on conditions, practices observed, other pertinent data supplied by management personnel at the risk, and information secured at the time of survey.

Please note that the following recommendations have been made with the intention of pointing out those areas in which remedial action could have the beneficial effect of making your premises safer.

RECOMMENDATIONS IN CAPITAL LETTERS ARE OF PARTICULAR IMPORTANCE, AND THEIR EARLY IMPLEMENTATION IS ENCOURAGED.

Thank you for your co-operation during this visit, and please do not hesitate to get in touch with us if we can be of any further assistance.

Representative: Reg Guay

1993 This document is owned by Opta Information Intelligence Inc. and is subject to copyright protection. Please see the full Terms and Conditions at the front of this document.

IAO reports, prepared in compliance with commonly accepted risk control standards existing at the time services are rendered, are developed from an inspection of the premises and/or from data supplied by or on behalf of the Purchaser. IAO does not purport to list all hazards. While changes and modifications referred to in the reports are designed to upgrade protection and loss prevention of the premises, IAO assumes no responsibility for management and control of these activities. IAO will not be responsible to the Purchaser for any loss or damages, whether consequential or other, however caused, incurred or suffered, as a result of the service being provided.

REMARKS:

- 1. This is the first survey of this building by the IAO since 1987.
- 2. There was no sprinkler system test performed at the time of this survey, however, a sprinkler test was performed on November 7, 1992 by Center Fire Protection Limited and documentation of such was provided.
- 3. Since there was a recent sprinkler system test performed, Recommendation 83-1 will be deleted. The warehouse area is no longer used for the storage of electronic equipment (tape decks, television sets, etc.) and therefore "in-rack" sprinklers are not necessary and Recommendation 83-4 will be deleted.

RECOMMENDATIONS:

- 80-1 Consideration should be given to extending the supervisory service of Wells Fargo Alarm Services to the outside post indicator valves and shut-off valves located in the pits.
- 83-2 The two valve pits installed on the incoming fire mains at the north end of the property were flooded with water at the time of inspection. These pits should be made waterproof or sump pumps should be installed to prevent them from flooding in the future.
- 83-3 A breakdown valve should be provided on the city main between the two water supply connections.
- 93-1 As a result of the sprinkler test performed by Center Fire Protection Limited on November 7, 1992, it was observed that the water motor gong and the inside electric bells for Systems No. 1 and 5 did not function. These deficiencies should be rectified.
- 93-2 The sprinkler tests should include a 50.8 mm (2") drain test result in order to meet the requirements of a sprinkler test in accordance with NFPA 13A (Standrd for Testing and Inspection of Sprinkler Systems).

INSPECTION REPORT

File No. 31018  
Reference: 046161

Not on Plan

NAME OF RISK: McKenna Holdings Limited

LOCATION: 1260 Lakeshore Road East  
Mississauga, Ontario

SURVEYED BY: Reg Guay

SURVEY DATE: January 20, 1993

IAO reports, prepared in compliance with commonly accepted risk control standards existing at the time services are rendered, are developed from an inspection of the premises and/or from data supplied by or on behalf of the Purchaser. IAO does not purport to list all hazards. While changes and modifications referred to in the reports are designed to upgrade protection and loss prevention of the premises, IAO assumes no responsibility for management and control of these activities. IAO will not be responsible to the Purchaser for any loss or damages, whether consequential or other, however caused, incurred or suffered, as a result of the service being provided.

GENERAL COMMENTS

OCCUPANCY: General purpose warehouse with multi-tnany offices and vacant areas.

CONSTRUCTION

FIRE DIVISIONS: See "Multiple Fire Section Sheets". The risk is in one fire division.

HAZARDS

COMMON HAZARD:

Heating: Safe. Heat for the warehouse area is provided by natural gas-fired ceiling suspended unit heaters. Heat or the 1959 office area is provided by two natural gas-fired hot air furnaces located on the floor at the rear of the offices and in the 1979 office building by roof mounted heat pump.

Chimneys and Flues: Standard

This document is owned by Opta Information Intelligence Inc. and is subject to copyright protection. Please see the full Terms and Conditions at the front of this document.

AIS Ref No.: 10461618  
...\Page 2

1993 This document is owned by Opta Information Intelligence Inc. and is subject to copyright protection. Please see the full Terms and Conditions at the front of this document.

Air-Conditioning: Central; 15% air conditioned.

Electrical: Safe. Circuit breakers used. Wiring installed in 1959, 1963, 1966 and 1979. Transformers PCB filled: No.

SPECIAL HAZARDS: Safe, see "Tenants"

RADIOACTIVE MATERIAL: None

HIGH PILING: The warehouse area is generally used for high piled storage (see "Tenants" for further details).

HOUSEKEEPING: Safe

HAZARDOUS MATERIAL: Safe. Lubricating oil in 1 litre and 204.75 L (45 IMP gal) containers is stored palletized to 2.44 m (8') in the 1963 warehouse and in the southwest 1979 warehouse.

EXPOSURES:

	Light	
South	Protection Required: N	Protection Provided: N
	Light	
East	Protection Required: N	Protection Provided: N
	Light	
West	Protection Required: N	Protection Provided: N
	Moderate	

ACTIVITY: Moderate, 10 hours/day, 5 days/week.

SMOKING RESTRICTED: Smoking is restricted to the office areas and washrooms and the rule is strictly enforced.

ELECTRONIC DATA PROCESSING: No

PROCESS DESCRIPTION: See "Tenants".

PROTECTION

OVERALL GRADING: 100 (EF) x 90/100 (RF) x 88/100 (AT) = 79

- RF - acceptable dry pipe valve;
- no breakdown valve in incoming main.

This document is owned by Opta Information Intelligence Inc. and is subject to copyright protection. Please see the full Terms and Conditions at the front of this document.

AIS Ref No.: 10461618  
...\Page 3

1993

This document is owned by Opta Information Intelligence Inc. and is subject to copyright protection. Please see the full Terms and Conditions at the front of this document.

AT - inoperative water motor gong and inside electric bell;  
- no 50.8 mm (2") drain test results.

Area Sprinklered (excluding concealed spaces): 100%; 3% Wet, 97% Dry

Sprinkler Installation Date: 56%: 1977; 44%: 1979

Protection Against Freezing: In order

Sprinkler Protection Required: No

Equipment Standard: No

Alarms: Consists of the ULC listed full supervisory service of Wells Fargo Alarm Services connected to their Toronto Central Station. Local alarms consist of inside electric bells and manual pull stations connected to a fire alarm control panel located in the 1966 addition with slave panels located at the entrances into the two office areas. Also, outside water motor gong on the sprinkler systems. (Grading = 15%)

Note: The outside post indicator valves are not supervised but they are chained in the open position (Recommendation made).

Primary Water Supplies: Municipal - Standard

Secondary Water Supplies: No, not required.

ADDITIONAL SPRINKLER PROTECTION DETAILS:

Standard single supply from a 203.2 mm (8") and 254 mm (10") connection to a 508 mm (20") municipal main in Lakeshore Road East and a 254 mm (10") private yard main looped around the building. Static pressure 586.5 kPa (85 psi), residual pressure 552 kPa (80 psi) with the 50.8 mm (2") drain flowing fully opened, from a previous survey in 1987. A full sprinkler test was performed by Centre Fire Protection Ltd. on November 7, 1992, however, a 50.8 mm (2") drain test was not performed (Recommendation made).

A water flow test conducted in 1979 on the private yard main indicated that 3009.6 L/min (792 US gpm) at 524.4 kPa (76 psi), 5464.4 L/min (1438 US gpm) at 489.9 kPa (71 psi) and 8686.8 L/min (2286 US gpm) at 386.4 kPa (56 psi) are available with a static pressure of 565.8 kPa (82 psi).

This Ordinary Hazard Group 2 occupancy with high piled storage, is protected by hydraulically calculated sprinkler systems (see below).

1959 Warehouse - The sprinkler system in this area has been hydraulically designed to provide a minimum density of 9.37 mm/min (.23 US gpm/sq ft) over 362.31 m2 (3900 sq ft) with a demand of 6422 L/min (1690 US gpm) at 434.7 kPa (63 psi).

1963 Warehouse - The sprinkler system in this area has been hydraulically designed to provide a minimum density of 19.4 mm/min (.476 US gpm/sq ft) over 301.925 m2 (3250 sq ft) with a demand of 8797 L/min (2315 US gpm) at 448.5

AIS Ref No.: 10461618

...\Page 4

1993

This document is owned by Opta Information Intelligence Inc. and is subject to copyright protection. Please see the full Terms and Conditions at the front of this document.

kPa (65 psi).

1966 Warehouse - The sprinkler system in this area has been hydraulically designed to provide a minimum density of 19.4 mm/min (.476 US gpm/sq ft) over 241.54 m2 (2600 sq ft) with a demand of 7706.4 L/min (2028 US gpm) at 441.6 kPa (64 psi).

1979 Warehouse -

Southwest Section - The sprinkler system in this area has been hydraulically designed to provide a minimum density of 18.75 mm/min (.46 US gpm/sq ft) over 362.31 m2 (3900 sq ft) with a demand of 9135.2 L/min (2404 US gpm) at 269.1 kPa (39 psi).

Northeast Section - The sprinkler system in this area has been hydraulically designed to provide a minimum density of 19.89 mm/min (.488 US gpm/sq ft) over 483.08 m2 (5200 sq ft) with a demand of 12095.4 L/min (3183 US gpm) at 262.2 kPa (38 psi).

Note: All hydraulic calculations include 2660 L/min (700 US gpm) for inside and outside hose allowances except for the 1979 addition which has a hose allowance of 1900 L/min (500 US gpm). All sprinklers are 141.224 Deg C (286 Deg F) temperature rated with 14 mm (17/32") orifices.

Fire Department Pumper Connection: Yes

OTHER PROTECTION:

Extinguishers: Standard

Standpipe and Hose: Standard. There is a total of four inside handhose stations located throughout the various warehouse areas.

Watchman Service: None

Special Equipment: None

OUTSIDE PROTECTION:

Public Hydrants: Standard

Public Fire Department: Paid

Distance to Fire Hall: 2.42 km (1 1/2 miles)

F.U.S. Municipality Classificaiton: 2

Accessibility: To Property: Good

Into Building: Good

EXTENDED COVERAGE

No unusual hazards overall.

WINDSTORM - No

LIGHTNING (FEATURES) - No

EXPLOSION - No

SPRINKLER LEAKAGE - Stock Skidded or Shelved: Yes

Stock Susceptible to Large Water Damage: Yes, food items in cardboard boxes, electrical equipment in cardboard boxes.

Floors Drained: No

RIOT, VANDALISM, MALICIOUS ACTS

Access Restricted: No

Guard Supervised: No

Yards Fenced: No

Yards Lit: Yes, minimal yard illumination is provided.

Remote from Populated Areas: No

EARTHQUAKE - Zone: 0

IMPACT HAZARDS:

By Aircraft: No

By Road Vehicles: Possible, from shipping and receiving operations.

By Trains: No

By Floating Vessels: No

SMOKE DAMAGE - Susceptibility of stock to smoke damage: No

UNDESIRABLE FEATURES

PROMINENT:

1. None.

-----  
 Please note that the information contained in this report was gathered during  
 a physical inspection of the risk by an IAO Loss Control Representative.

If you wish to obtain building or contents rates for this risk, please refer  
 to the Rate Card in the list of products available for this risk.  
 Please call the IAO Help Desk or your local IAO Representative for help in  
 obtaining a rate for this risk, or do it yourself by going to [www.iao.ca](http://www.iao.ca)  
 and using the New X-rate to generate a new rate yourself.

-----  
 IAO reports, prepared in compliance with commonly accepted risk control  
 standards existing at the time services are rendered, are developed from an  
 inspection of the premises and/or from data supplied by or on behalf of the  
 Purchaser. IAO does not purport to list all hazards. While changes and  
 modifications referred to in the reports are designed to upgrade protection  
 and loss prevention of the premises, IAO assumes no responsibility for  
 management and control of these activities. IAO will not be responsible to  
 the Purchaser for any loss or damages, whether consequential or other,  
 however caused, incurred or suffered, as a result of the service being  
 provided.

-----

OCCUPANCY:

The insured is a tenant at this location. They have been in business for an unknown length of time, and at this location for a length of time that could not be determined at the time of the survey. They occupy 50 sq. m and are not the major occupant, having no employees. The premises are in good condition. The insured is interested in loss prevention, however there have not been any losses during the last 3 years.

\* Occupancy Description (Insured / major tenant if insured is non-occupant)

The insured leases space in the main warehouse at this location for wholesale storage of tennis court surfacing liquid in plastic drums, in addition to net winches and wind screens as used on tennis courts. Stock is stored on wood pallets and on steel racks and is well arranged. The insured is also a tennis court building contractor. During the busier season towards spring and summer, the inventory and storage space increases.

\* Other Classes of Occupants

The remainder of this large building is occupied as a public storage warehouse with multiple office tenants and vacant space.

\* Undersirable Features

None

It is recommended that this location be resurveyed in 1 year(s).

REMARKS:

\* Fire, Liability & Basic Crime - The insured's storage is well arranged in the 1966 section of this large warehouse and office building which overall over one fire division and 5 separate fire sections, all separated by standard fire doors in masonry walls between sections. The building is known as the McKenna Warehouse and is located near the intersection of Lakeshore Rd. E. and Dixie Rd. The building is in good overall repair with the building owner on the premises. The warehouse operates from 7:30am to 5pm, 5 days a week. Storage by others on the premises includes mainly soaps and detergents, pharmaceuticals, camping equipment and small electrical appliances, all in solid piles to 3m (10') and on steel racks to 6.1m (20'). There are no flammables of note stored. The sprinkler system was neither tested or evaluated at the time of this survey. The latest full SR survey on file was made in Jan. 1993, a copy of which can be obtained by written request to IAO Toronto (File SR 31018).

No recommendations made at this time.

The **IAO Risk•Score** and comments contained in this report are based on conditions and practices observed during our survey and other pertinent data supplied by management personnel at the risk.

Recommendations in this report are made to point out those areas where remedial action could have the beneficial effect of making the above premises safer, and thus more desirable from an underwriting standpoint.

Thank you for choosing IAO to perform this inspection. Please do not hesitate to contact us if we can be of any further assistance.

**RISK ALERT ISSUED :**  Yes  No If yes, describe (A risk alert is a telephone notification to the Inspection requestor, of a situation which could imminently cause a serious loss. A Critical Recommendation will be issued to address the situation. )

#### **Committed to Service Excellence**

IAO reports, prepared in compliance with commonly accepted risk control standards existing at the time services are rendered, are developed from an inspection of the premises and/or from data supplied by or on behalf of the Purchaser. IAO does not purport to list all hazards. While changes and modifications referred to in the reports are designed to upgrade protection and loss prevention of the premises, IAO assumes no responsibility for management and control of these activities. IAO will not be responsible to the Purchaser for any losses or damages, whether consequential or other, however caused, incurred or suffered, as a result of the services being provided.

SP201FORM

**Meaning of the IAO Risk-Score:** The IAO Score is a grading of the risk inspected versus other risks in this class. Similar to the "Commercial" Fire Protection Grading system in design, there is range of 9 categories, with a grading or "score" of 1 being the most desirable. The IAO Score is based on a number of objective criteria pertaining to the risk at the time of our survey, tempered with the experienced judgement of our Loss Control Specialist. As a general guideline, the scores mean the following criteria:

<b>1-3</b>	Risks in this range are well maintained, with no apparent moral hazards or management problems. Undesirable features are non-existent and recommendations, if any, are minor. Risks in this category are excellent (no deficiencies) to better than average for their class.
<b>4-6</b>	The maintenance of Risks in this range is considered average. Moral hazards are not apparent, but there may be possible management problems (e.g. poor housekeeping). Undesirable features noted are correctable, and recommendations will vary from desirable to important. Risks in this category are considered average for their class.
<b>7-9</b>	Risks in this range tend to be poorly maintained. Moral hazards and management problems (e.g. poor housekeeping and maintenance, poor attitude) are evident. Significant undesirable conditions are present and cannot or will not be corrected. Critical Recommendations may be present. Risks in this category are significantly below average for their class with little or no indication for improvement.

### 3.0 REMARKS

1. The risk is located in a commercial and residential area on the south side of Lakeshore blvd E. just west of Dixie Road in Mississauga. Insued occupies approximately 100-sq. m. space in this warehouse as storage of dry cleaners chemicals shipped from U.S. Stock of dry cleaners chemicals are stored in containers on skids with adequate spaces. This warehousing and distribution centre is owned and operated by the contact Mr. John McKenna. The owner of Fabritec Canada Inc is Paul Osterhage at 1-800- 543-0406. and he has been using this location as warehousing for the last 15 years as per contact.  
The building is old but in good repair. Common area of the premises are well set up, good walking surfaces are evident throughout, housekeeping is good.  
Portable fire extinguishers are standard.  
No unusual features and conditions were noted at the time of survey.  
Physical protection and the monitored burglar alarm system appear to be adequate for the risk.  
The contact was co-operative and is interested in loss control.

2.

3.

### 4.0 RECOMMENDATIONS

Please note that these recommendations are classified as either  **Critical**,  **Important**, or  **Desirable Improvement**. "**Critical**" recommendations are those aimed at correcting undesirable feature/s which, if left unattended, could cause a serious loss and should be rectified immediately. This class of recommendation is only used in extreme situations. "**Important**" recommendations are intended to highlight undesirable feature/s which if left unattended, could cause a serious loss and should be rectified as soon as possible. "**Desirable Improvement**" recommendations are those aimed at correcting an undesirable feature which can be improved when feasible, to help reduce the risk of a loss.

Listed below      or       None

00-1     Critical     Important     Desirable Improvement

00-2     Critical     Important     Desirable Improvement

00-3	<input type="checkbox"/> Critical <input type="checkbox"/> Important <input type="checkbox"/> Desirable Improvement

## Report

The documents (hereinafter referred to as the "Documents") to be released as part of the report (hereinafter referred to as the "Report") to be delivered to the purchaser as set out above are documents in Opta's records relating to the described property (hereinafter referred to as the "Property"). Opta makes no representations or warranties respecting the Documents whatsoever, including, without limitation, with respect to the completeness, accuracy or usefulness of the Documents, and does not represent or warrant that these are the only plans and reports prepared in association with the Property or in Opta's possession at the time of Report delivery to the purchaser. The Documents are current as of the date(s) indicated on them. Interpretation of the Documents, if any, is by inference based upon the information which is apparent and obvious on the face of the Documents only. Opta does not represent, warrant or guarantee that interpretations other than those referred to do not exist from other sources. The Report will be prepared for use by the purchaser of the services as shown above hereof only.

## Disclaimer

Opta disclaims responsibility for any losses or damages of any kind whatsoever, whether consequential or other, however caused, incurred or suffered, arising directly or indirectly as a result of the services (which services include, but are not limited to, the preparation of the Report provided hereunder), including but not limited to, any losses or damages arising directly or indirectly from any breach of contract, fundamental or otherwise, from reliance on Opta Reports or from any tortious acts or omissions of Opta's agents, employees or representatives.

## Entire Agreement

The parties hereto acknowledge and agree to be bound by the terms and conditions hereof. The request form constitutes the entire agreement between the parties pertaining to the subject matter hereof and supersedes all prior and contemporaneous agreements, negotiations and discussions, whether oral or written, and there are no representations or warranties, or other agreements between the parties in connection with the subject matter hereof except as specifically set forth herein. No supplement, modification, waiver, or termination of the request shall be binding, unless confirmed in writing by the parties hereto.

## Governing Document

In the event of any conflicts or inconsistencies between the provisions hereof and the Reports, the rights and obligations of the parties shall be deemed to be governed by the request form, which shall be the paramount document.

## Law

This agreement shall be governed by and construed in accordance with the laws of the Province of Ontario and the laws of Canada applicable therein.

SURVEY-FIRE AND EXTENDED COVERAGE INSURANCE

The survey of the above property on January 31, 1989 was made on behalf of participating insurance companies. The information gathered on this survey is used by these insurers to aid in deciding whether to underwrite the risk, and if so, at what cost.

The following comments were developed from this survey, and are based on conditions, practices observed, other pertinent data supplied by management personnel at the risk, and information secured at the time of survey.

Please note that the following recommendations have been made with the intention of pointing out those areas in which remedial action could have the beneficial effect of making your premises safer.

RECOMMENDATIONS IN CAPITAL LETTERS ARE OF PARTICULAR IMPORTANCE, AND THEIR EARLY IMPLEMENTATION IS ENCOURAGED.

Thank you for your co-operation during this visit, and please do not hesitate to get in touch with us if we can be of any further assistance.

Representative: Colbert Martin

full Terms and Conditions at  
the front of this document.

IAO reports, prepared in compliance with commonly accepted risk control standards existing at the time services are rendered, are developed from an inspection of the premises and/or from data supplied by or on behalf of the Purchaser. IAO does not purport to list all hazards. While changes and modifications referred to in the reports are designed to upgrade protection and loss prevention of the premises, IAO assumes no responsibility for management and control of these activities. IAO will not be responsible to the Purchaser for any loss or damages, whether consequential or other, however caused, incurred or suffered, as a result of the service being provided.

REMARKS:

- 1. It was noted that a raised sill is not provided for the flammable liquids room and the metal door is kept closed by a weight and string.
- 2. Cigarette butts were observed on the floor around the printing machine.

RECOMMENDATIONS:

- 89-1 The "No Smoking" rules should be rigidly enforced.

Flammable Liquids Room:

- 89-2 ANY OPENINGS FROM THE ROOM INTO THE BUILDING SHOULD BE PROTECTED BY UNDERWEITERS' LABORATORIES OF CANADA LABELLED FIRE DOORS AND HARDWARE WITH DOORS HAVING A FIRE RESISTANCE RATING OF AT LEAST ONE HOUR. OPENINGS SHOULD BE PROVIDED WITH A NON-COMBUSTIBLE, LIQUID-TIGHT RAISED SILL, AT LEAST 100mm (4") IN HEIGHT, TO PREVENT ANY SPILLS FROM GETTING INTO THE REMAINDER OF THE BUILDING.

INTERIOR FINISH - Walls: 24.4cm (10") fluted concrete block and 30.4cm (12")  
brick on concrete block

(e) Floors: Concrete

80%                    10%                    10%

INTERIOR FINISH - Ceilings: 92%                    8%                    0%

(k) Combustible Concealed Spaces: Minor

Non-Combustible Concealed Spaces: Minor

(l) Smoke and Heat Venting: Yes

COMBUSTIBLE CONCEALED SPACES: (f) Roof: Class I steel deck

(g) Supporting Steel Inadequately Protected

(h) Total Grade Floor Area: 1477.1 sq. m (15,900 sq. ft.)

(i) Vertical openings: None

HAZARDS

COMMON HAZARD:

Heating: The offices are heated by forced air, gas fired suspended ceiling  
furnaces with the shop heated by natural gas fired suspended unit heaters;  
all appliances vent to type "B" gas vents. Safely and permanently installed  
electric baseboard heaters are provided in the lunchroom.

Air-Conditioning: 8% Central & Window.

Electrical: Circuit breakers.

SPECIAL HAZARDS: Safe

(i) The bag making machines are electrically heated, air powered, and  
operate at 93.3C. (200F.) to 398.9C. (750F.). These machines are  
thermostatically controlled, and are equipped with pilot lights.

(ii) The printing machine has a dryer which is electrically heated and  
operates at 82.2C. (180F.). The machine appears to be safely arranged.

RADIOACTIVE MATERIAL: None

HIGH PILING: Safe

Stock is safely stored in the south end of the building on metal racks  
leaving adequate aisle spaces and ceiling clearances.

HOUSEKEEPING: Safe

Ink soaked wiping rags are stored in labelled treadle cans.

3(f) Hazardous Materials:

(i) Bolts of polyethylene stock are safely stored on metal racks leaving adequate aisle spaces and ceiling clearances. Approximately 68,040 kg (150,000 lbs.) of plastic is the average amount of plastic stored, however at the time of the survey, supplies of raw materials were considerably less.

(ii) Four, 36.3 kg (80 lb.) propane cylinders were safely stored outdoors at the time of the survey.

(iii) Bulk storage of flammable inks and solvents are kept in a flammable liquids storage room. The walls of the room are constructed of 20.3cm (8") thick concrete block extending from the concrete floor to a wood joist roof protected by two 1.6cm (5/8") thick gypsumboard. Access to the room is provided by an opening protected by an unlabelled metal door which is kept closed by a weight attached to a string (Recommendation made). Adequate mechanical ventilation is provided for the room, with all electrical equipment and heating suitable for Class I, Group D, Division I hazardous locations. The room measures 1.2m x 6.1m x 2.4m (4' x 20' x 8') and is fully sprinklered. Bonding and grounding operation is practised with all solvents dispensed from labelled safety containers. Only the minimum daily requirements of inks are taken from the room and returned at the end of the day. The room is not equipped with a sill to prevent leakage into the plant, an underground storage tank or the floor coated with a non-sparking material (Recommendation made).

Flammable liquids stored in the room at the time of the survey consisted of, six 204.6 L (45 gallon) drums of "Cansco Flexo 1 & 2" (alcohol and acetate), flashpoints below 37.8C (100F), and sixty 22.7 L (5 gallon) cans of inks, flashpoint below 37.8C. (100F.).

HAZARDOUS MATERIAL: Unsafe

ACTIVITY: Moderate 18 Hrs/Day 5 Days/Wk

SMOKING RESTRICTED: Yes

ELECTRONIC DATA PROCESSING: Yes

See attached sheet.

PROCESS DESCRIPTION: A total of thirty-four hands over two 8 hour shifts are employed manufacturing and printing plastic bags. Rolls of polyethylene plastic (Group 1) are fed into a printing machine which automatically applies the desired lettering after which the bag is passed through an electrically heated dryer. The printed bags are then placed on automatic perforating tear-off machines which cut, seal and perforate the bags. The machines are powered by compressed air. The finished bags are then packed in cardboard boxes or baled whereupon they are shipped to the customer.

Polyethylene and polypropylene film are manufactured by taking a resin compound, placing it in a hopper which is fed through an electrically heated screw conveyor. This heat melts the resin, which at this point air is injected into the liquid which in turn produces a bubble. The plastic then dries into a sheet of film. The film is then placed on a bag machine which in turn manufactures a plastic bag.

Overall, the process appears organized, and safely operated. Propane powered lift trucks are utilized for material handling.

MAINTENANCE WELDING: Yes

Occasional maintenance welding is conducted in a separate room of wood construction. This operation appears to be safe as it is done only by supervisory personnel. A permit system is not deemed necessary.

3(j) Smoking: "No Smoking" signs are posted but is not rigidly enforced (Recommendation made)

PROTECTION

SPRINKLER PROTECTION:

- (i) 0% Area Sprinklered
- (b) Other

OTHER PROTECTION:

Extinguishers: Standard

Standard. It was stated that all plant personnel have been instructed on the proper use of fire extinguishers by Cronin Safety.

5(e) Yard Lit: The yard is lit by ordinary incandescent lights attached

ADDITIONAL BUSINESS INTERRUPTION DETAILS:

No

UNDESIRABLE FEATURES

PROMINENT:

Non-standard flammable liquids room.

OTHER:

No smoking rule not strictly enforced.

REPORT DETAILS

2(j) Interior Finish: The interior office finish consists  
of  
plasterboard, and wood sheathing on the walls, with suspended  
mineral the ceilings.

2(k) Combustible Concealed Spaces: The wood sheathing on  
the office  
walls creates a minor combustible concealed space.
