**Tree Hoarding Notes**

- The hoarding is to be supplied, installed and maintained in good condition by the developer at their own cost prior to any demolition, topsoil stripping, preservative, or any construction activities on site.
- The hoarding is to be maintained in good repair throughout all phases of servicing and construction on the site.
- The hoarding will be installed to the satisfaction of the Community Services Department - Park Planning Section.

**Tree Protection Note:**

The applicant is responsible for ensuring that tree protection hoarding is maintained throughout all phases of demolition and construction in the location and condition as approved by the Planning and Building Department. No materials (building materials, soil, etc.) may be stockpiled within the area of hoarding. Failure to maintain the hoarding as originally approved or the storage of materials within the hoarding will be cause for the Letter of Credit to be held for two years following completion of all site works. Hoarding must be inspected prior to the removal of any tree hoarding from the site.
