1 Executive Summary

UPRC c/o Turner & Townsend retained Grounded Engineering Inc., to complete a Phase One Environmental Site Assessment (Phase One ESA) of the Phase One Property (Property) located at the south corner of Tomken road and Rathburn road east at the municipal address of Westminster United Church 4094 Tomken Rd, Mississauga, Ontario. The site location is presented in Figure 1.

The Property is irregular in shape, with a total area of approximately 0.90 ha. The site is currently developed with one building on the Property with a surficial parking lot and landscaping. The current Property use is institutional per Ontario Regulation (O. Reg.) 153/04. It is understood that the Phase One Property will be developed with two 13-storey residential structures with three underground parking levels (P3). The Phase One ESA has been prepared for due diligence and in general accordance with O. Reg. 153/04. The Phase One Property Site Plan is presented in Figure 2.

The Phase One ESA identified Areas of Potential Environmental Concern on the Property summarized in Table 2 with the corresponding locations shown on Figure 5.

Further environmental investigations would be required to investigate the Areas of Potential Environmental Concern for the Contaminants of Potential Concern that have been identified on the Property or other recommendation as shown in Section 9.

2 Introduction

UPRC c/o Turner & Townsend retained Grounded Engineering Inc., to complete a Phase One Environmental Site Assessment (Phase One ESA) of the Phase One Property (Property) located at the south corner of Tomken road and Rathburn Road East at the municipal address of 4094 Tomken Rd, Mississauga, Ontario (Westminster United Church). The site location is presented in Figure 1.

The Property is irregular in shape, with a total area of approximately 0.90 ha. The site is currently developed with one building on the Property with a surficial parking lot and associated landscaping. The current property use is institutional per Ontario Regulation (O. Reg.) 153/04. We understand that the Phase One Property will be developed with 12-storey residential structures with three underground parking levels (P3). The Phase One ESA has been prepared for due diligence and in general accord with O. Reg. 153/04. The Phase One Property is presented in Figure 2.

The Property information is provided below:

Table 1 Phase One Property Information

Municipal Address	4094 Tomken Road, Mississauga, Ontario
Legal Description	Part 0002 - Part Block 100 Plan M361
PIN(s)	Part 0003 - Part Lot 9 Con NDS Part 0002 - 13310-0002 (LT) Part 0003 - 13310-0003 (LT)
Current Land Use	Institutional
Property Owner Information	Trustees of the Westminster Congregation of The United Church of Canada
Person who has engaged the Qualified Person to conduct the Phase One ESA	Ross Edwards, Kindred Works

3 Scope of Investigation

The Phase One ESA includes the following components:

- Records review of historical and current occupancies and activities on the Phase One Property and Phase One Study Area.
- Interviews with available personnel with knowledge to the historical and current activities on the Phase One Property.
- Site reconnaissance of the Phase One Property and Study Area to identify potential environmental concerns based on observations of historical and current uses, and potentially contaminating activities at the Phase One Property and in the Study Area.

- Evaluation of information from records review, interviews and site reconnaissance and completion of a conceptual site model (CSM).

4 Records Review

4.1 General

4.1.1 Phase One Study Area Determination

The Phase One Study Area (Study Area) includes properties located wholly or partly within a 250-m radius from the Phase One Property boundary.

The Property is surrounded by residential houses with a commercial plaza located to the northwest. The Study Area is presented in Figure 3.

4.1.2 First Developed Use Determination

The determination of the date of the first developed use of the Phase One Property is based on review of historical records of the Property. It is estimated that the first developed use of the Property was for agricultural or other prior to 1954.

4.1.3 Fire Insurance Plans

There were no Fire Insurance Plans (FIP) available for review for the Phase One Property and Study Area. Adequate information was provided by other sources.

4.1.4 Chain of Title

Chains-of-title dating back to crown were available for review for the Phase One Property. Based on the chain of title records, the Property had been assumed by the Crown until 1810. The Property is subsequently owned by private individuals from 1810 to 1987 and by corporate entities from 1964 to present. The Property is currently owned by Trustees of The Westminster Congregation of The United Church of Canada since 1989. The Chain of Title are presented in Appendix C.

Chains-of-title dating back to crown were available for review for the Phase One Property.

PIN	Municipal Address	Assumed by Crown Until	Owned by Private Individuals	Owned by Corporate/ Institutional Entities	Current Owners
13310-0002 (LT)	4094 Tomken Road	1810	1810 to 1964	1964 to Present	Trustees of The Westminster Congregation of The

PIN	Municipal Address	Assumed by Crown Until	Owned by Private Individuals	Owned by Corporate/ Institutional Entities	Current Owners
					United Church of Canada (1989)
13310-0003 (LT)	4094 Tomken Road	1810	1810 to 1987	1987 to Present	Trustees of the Westminster Congregation of The United Church of Canada

The Chains-of-title are presented in Appendix C.

The Chains-of-title search did not identify any Potentially Contaminating Activities (PCAs).

4.1.5 City Directory

Available City Directories were reviewed for the Property and adjacent properties. The full search results can be found in Appendix D.

The City Directory search identified the following Potentially Contaminating Activities (PCAs):

Location of PCA	PCA	Description
925 Rathburn Road E 165 m northwest	#37 – Operation of Dry-Cleaning Equipment (where chemicals are used)	Tomken cleaners listen from 1990 to 2001

4.1.6 Environmental Reports

No environmental reports were available for review for the Property.

4.2 Environmental Source Information

4.2.1 EcoLog ERIS

Ecolog Environmental Risk Information Services Ltd. (ERIS) is a provider of detailed environmental risk data and research for properties in Canada. A search of the ERIS database was requested for the Property and the Study Area. The ERIS report is provided in Appendix E.

Potentially Contaminating Activities (PCAs) were observed within the Study Area. The ERIS search identified the following PCAs:

Location of PCA	PCA	Description
925 Rathburn Rd E Tomken Cleaners (165 m northwest)	#37 – Operation of Dry-Cleaning Equipment (where chemicals are used)	Tomken cleaners registered as generator of waste class 241, halogenated solvents.
925 Rathburn Rd E (125 m northwest, in front of No Frills)	Other 2 – Ontario Spills	Damaged equipment causing diesel leak of an unknown volume onto asphalt and into storm sewer in 1997. Truck causing diesel leak of 100 L to the ground and 50 L to the storm sewer in 1998

There were no sites within the Study Area that were identified to have a Record of Site Condition (RSC).

4.2.2 Other Source Information

Other source information listed below were searched as part of the Phase One ESA. The regulatory information requests and responses are provided in Appendix F and summarized below:

Source of Information	Response
Ministry of the Environment, Conservation and Parks (MECP) PCB Storage Sites and Waste Disposal Sites	The MECP PCB Storage Sites and Waste Disposal Sites were searched through EcoLog ERIS database and reviewed in Section 4.2.1. There were no PCB Storage Sites or Waste Disposal Sites identified on the Property or within the Study Area.
Technical Standards and Safety Authority (TSSA)	A response from the TSSA indicated that there are no records of fuel storage tanks in the database for the Phase One Property and adjacent properties. The TSSA response and list of addresses searched is provided in Appendix F.
Conservation Authority	A response from the local Conservation Authority indicates that the Property is located within the Toronto and Region Conservation Authority's (TRCA) jurisdiction but does not fall within a TRCA-regulated area.
Zoning	Zone E2-59(In Force) Business Employment
Freedom of Information (FOI)	An FOI request was submitted to MECP on June 20, 2022. A response from the MECP to the FOI request has not been received as of the date of this report. If the MECP response documents events/items which change the outcome of this assessment, Grounded will issue an addendum to this Phase One ESA.

The other source information search did not identify any PCAs.

4.3 Physical Setting Sources

4.3.1 Aerial Photographs

Aerial photographs and satellite images were reviewed as part of the Phase One ESA. The developmental chronology of the Property and the Study Area is summarized below and presented in Appendix G.

Year	Source	Property	Study Area
1954	Aerial photograph from City of Mississauga	The property appeared to have multiple buildings on the property, most likely for residential and agricultural purposes.	The surrounding area appeared to be used for agricultural purposes
1966	Aerial Photograph from City of Mississauga	No significant changes observed.	Additional residential houses were observed south and east of the Property.
1977	Aerial photograph from City of Mississauga	No significant changes observed.	Additional residential houses were observed in the surrounding properties.
1985	Aerial photograph from City of Mississauga	No significant changes observed.	Rathburn Road East present north of the property. Additional residential streets and houses present to the east and north of the property. Shopping plaza observed north of the property.
1992	Aerial photograph from City of Mississauga	New building present on property along with surficial parking lot.	Additional residential houses and streets present in the Study Area.
2003	Aerial photograph from City of Mississauga	No significant changes observed.	No significant changes observed.
2010	Aerial photograph from City of Mississauga	No significant changes observed.	No significant changes observed.
2020	Aerial photograph from City of Mississauga	No significant changes observed.	No significant changes observed.

The aerial photographs search identified the following PCAs:

Location of PCA	PCA	Description
Phase One Property	#30 - Importation of Fill Material of Unknown Quality	The 1992 aerial photo identified a new building and parking lot on the property. Fill may have been used for historical grading purposes and to backfill within the previous buildings foundations.
Phase One Property North Portion of Property	#40 – Pesticides (including Herbicides, Fungicides, and anti-fouling Agents) Manufacturing, Processing, Bulk Storage and Large – Scale Applications	The 1954 to 1992 aerial photos identified potential agricultural use on the north portion of the Property

4.3.2 Topography, Hydrology, Geology

The Ministry of Natural Resources and Forestry (MNRF) and Ministry of Energy, Northern Development and Mines (MENDM) database were searched to obtain topographic and geological maps of Ontario for review. The maps are provided in Appendix H and the information obtained are summarized below:

Records	Information
Topographic Maps	The approximate elevation of the Property was 139 m above sea level (masl) and is relatively flat.
Hydrology	Surface water flow was expected infiltrate the soil within the greenspace at Property. Groundwater is expected to flow locally to little Etobicoke Creek which is present to the north, south, east and West of the site and regionally southeast to Lake Ontario.
Geological Maps	Overburden: Till - Clay to silt-textured till (derived from glaciolacustrine deposits or shale) Bedrock: Georgian Bay Formation comprised of shale, limestone, dolostone and siltstone.

4.3.3 Fill Materials

From a review of the aerial photos on the property it was observed that fill material of an unknown quality may have been used to fill the historical building footprints of the former rural dwelling and the surficial parking lot on the Property.

The PCAs associated with the fill material are:

Location of PCA	PCA	Description
Phase One Property	#30 – Importation of Fill of Unknown Quality	Fill may have been used for historical grading purposes and to backfill the previous buildings footprints.

4.3.4 Water Bodies and Areas of Natural Significance

Maps from Ministry of Northern Development, Mines, Natural Resources and Forestry (NDMNRF) were reviewed to determine if water bodies were present on the Property and within the Study Area. The Ontario Ministry of Natural Resources Natural Heritage Information Centre database for Areas of Natural or Scientific Interest (ANSIs) was also reviewed as part of the Phase One ESA. The maps are provided in Appendix F and the information is summarized below:

Water Bodies	There are no water bodies located on the Phase One Property or within the Phase One Study Area. The nearest water body is little Etobicoke Creek located approximately 540 m to the northeast.
---------------------	--

Wetlands	There are no Provincially Significant, Non-Provincially Significant, or unevaluated wetlands on the Phase One Property nor within the Phase One Study Area.
ANSIs	There are no Provincially-Significant Life Science and Earth Science ANSIs located on the Phase One Property nor within the Phase One Study Area.

4.3.5 Well Records

The Ministry of the Environment, Conservation and Parks (MECP) well records database was accessed online and through an ERIS search. Several records for wells, located on the Property and in the Study Area, were identified. The comprehensive well record is provided in Appendix I and is summarized below:

Well Records	<p>Phase One Property:</p> <p>No wells were identified on the Phase One Property.</p> <p>Study Area:</p> <p>Four (4) wells were identified in the Study Area.</p> <ul style="list-style-type: none"> • One well labelled as a monitoring well • Two wells not in use or unlabelled • One well used for livestock purposes.
Stratigraphy	<ul style="list-style-type: none"> • 0 – 0.6 mBGS hard brown sand and silt • 0.6 – 1.8 mBGS hard brown clay • 1.8 mBGS hard brown rock
Depth to Bedrock	Bedrock was encountered at 1.8 mBGS
Depth to the Water Table	Groundwater was encountered at approximately 12 mBGS.

4.3.6 Municipal Drinking Water System

The Phase One Property and properties within the Phase One Study Area are supplied by a municipal drinking water system as defined in the Safe Drinking Water Act, 2002.

4.3.7 Well-Head Protection Area

The Phase One Property is not located within an area designated in the official plan of the municipality as a well-head protection area or another area designated in the official plan as an area for the protection of groundwater.

5 Site Operating Records

No site operating records was provided for review.

6 Interviews

Interviewee(s)	Jim Sinclair, Board of Trustees at present and DC and Corporate Director of Tomken Grove H Inc.
Date of Interview	May 31 st 2022
Location and Methods of Interview	Via email
Justification for Selection	Mr. Sinclair has been involved with the property since 1986.
Relevant Information concerning Potentially Contaminating Activities	<p>Current operations at the Property include, Church services, children's Choir Academy and Tomken Grove Non-Profit Housing.</p> <p>The Property has been used as a church since 1986. Prior to Westminster United it was occupied by one single family dwelling with surrounding agriculture/orchards.</p> <p>To their knowledge the site has not been used, past or present, for:</p> <ul style="list-style-type: none"> • industrial operations • on-site dry-cleaning, • fuel distribution or storage, • vehicle servicing and/or maintenance <p>The interviewee was not aware of any:</p> <ul style="list-style-type: none"> • bulk storage of chemicals or hazardous products at the Property • existing or historical underground/above-grade tanks • hazardous waste generation • on-site PCB storage or registration as a PCB storage facility • spills or leaks at the Property • All wastewater at the Property is discharged to the sanitary sewer. • reportable/regulated air emissions produced at the Property • public agency investigations at the Property

The interview identified the following PCAs:

Location of PCA	PCA	Description
Phase One Property	#30 - Importation of Fill Material of Unknown Quality	Mr. Sinclair mentioned that the Property was historically occupied by a bungalow. The footprint of the house may have been backfilled for regrading purposes.

7 Site Reconnaissance

7.1 General Requirements

Date and Time of Investigation	September 1, 2023 1:00 PM
Weather Condition	22°C and sunny with clear skies
Duration of Investigation	1 hour
Was the Facility Operating at the Time of Investigation?	Yes, the facility was operating as a Montessori school and a church.
Name and Qualifications of the Person Conducting the Investigation	Emma Leet, EIT

A site reconnaissance of the Phase One Property consisted of detailed observation of the Property including exterior and interior portions of any existing buildings on site, documentation of any areas of potential environmental concern and illustration of relevant structures. Phase One Property features are displayed in Figure 2 and site photographs are presented in Appendix J. The results of the site reconnaissance are provided below.

7.2 Specific Observations at Phase One Property

7.2.1 Exterior Site Conditions

The utilities and services on the Property is summarized below:

Hydro	Overhead hydro enters the Property via the neighbouring building located to the east.
Gas	Gas meters were observed on the Property and lines are expected to enter from Tomken Rd.
Communication	No communication lines were observed on the property.
Electrical/Street Lighting	Electrical line enters the Property via the northeast from Tomken Road to supply both the building and lights in the parking lot
Storm Sewer	Catch basins and manholes are observed on the property in the parking lot.
Sanitary Sewer	Manholes are observed on the property in the northwest portion of the property.
Water Source	The Property is serviced with Municipal water.

7.2.2 Building Structures and Building Systems

One building was observed on the Property.

Building #	Above Grade Levels	Below Grade Levels	Use	Entry/Exits
1	1	2	Institutional	Entry from surficial parking lot and fire door exiting onto Tomken rd.

Building #	1
Walls	Drywall and concrete block.
Floors	Vinyl floor tiles.
Ceilings	Acoustic tiles and drywall.
Lighting	Fluorescent lighting and pot lights.
Exterior	Brick
Roof (if accessed)	n/a
Heating and Cooling System	Central air and HVAC systems. Natural Gas-fired boiler for heating.
Drains, Pits, Sumps Observed	One Sump Pump observed in the western portion of the basement.
Staining and Corrosion	Staining from water leakage was observed
Air Emissions	No air emission concerns were observed

7.2.3 Above Ground Storage Tanks

There was no evidence of above ground storage tanks (ASTs) visually observed on the accessed areas of Property.

7.2.4 Underground Storage Tanks and Below Grade Structures

No obvious evidence of underground storage tanks (USTs) or below grade structures were visually observed on the accessed areas of Property.

7.2.5 Enhanced Investigation Property (Additional Information)

The Property is not considered to be an Enhanced Investigation Property.

7.3 Investigation of the Phase One Study Area

The site investigation includes an inspection of the Phase One Study Area (Study Area). The adjacent properties were identified below during the investigation.

North	925 Rathburn Road East – Shopping plaza including a dry cleaners (Commercial) Rathburn Road East adjacent to the north
South	Residential houses
West	Residential apartment building and residential houses
East	Tomken road located adjacent to the east and residential houses.

The investigation of the Study Area identified the following PCAs:

Location of PCA	PCA	Description
925 Rathburn Rd E (165 m northwest)	#37 – Operation of Dry-Cleaning Equipment (where chemicals are used)	Tomken Cleaners is registered as generator of waste class 241, halogenated solvents.

7.4 Water Wells, Waterbodies & Areas of Natural Significance

7.4.1 Water Wells

The Phase One Property and all properties within the Study Area are serviced by a municipal drinking water system.

7.4.2 Waterbodies

There are no waterbodies observed on the Phase One Property or within the Study Area during the reconnaissance.

7.4.3 Areas of Natural Significance

There are no Areas of Natural Significance observed on the Phase One Property or within the Study Area.

7.5 Written Description of Investigation

The Phase One ESA reconnaissance identified the following PCAs:

Location of PCA	PCA	Description
Phase One Property	Other 1 -De-icing Activities	The Property has surficial parking on site and landscaped grass area bound by municipal road with accompany sidewalks. During the winter months, salt is applied to the roads, sidewalks, and parking lot for de-icing purpose.
925 Rathburn Rd E (165 m northwest)	#37 – Operation of Dry Cleaning Equipment (where chemicals are used)	Tomken Cleaners was observed present in the strip mall. ERIS records identified its registration as generator of waste halogenated solvents (waste class 241).

8 Review and Evaluation of Information

8.1 Current and Past Uses

A Table of Current and Past Uses of the Phase One Property in a form approved by the Director with description of the current and past uses of the Phase One Property to its first developed use is provided in Table 1.

8.2 Potentially Contaminating Activity

The Phase One ESA has been prepared in accordance with O. Reg. 153/04. Based on the review of the available historical information and a detailed inspection of the Phase One Property and reconnaissance of the Phase One Study Area, the following Potentially Contaminating Activities (PCAs) have been identified on the Property and within the Study Area.

Location of PCA	PCA	APEC (Yes/No)	Rationalization
Phase One Property	#30 - Importation of Fill Material of Unknown Quality	Yes (APEC #1)	The 1992 aerial photo identified a new building and parking lot on the property. Fill may have been used for historical grading purposes and to backfill the previous buildings footprints.
Phase One Property	Other 1 - De-icing Activities	Yes (APEC #2)	The Property has surficial parking on site and landscaped grass area bound by municipal road with accompany sidewalks. During the winter months, salt is applied to the roads, sidewalks, and parking lot for de-icing purpose. The PCA has potential to cause an APEC on the Property.
Phase One Property Southwest Portion of Property	#40 – Pesticides (including Herbicides, Fungicides, and anti-fouling Agents) Manufacturing, Processing, Bulk Storage and Large – Scale Applications	Yes (APEC #3)	The 1954 to 1992 aerial photos identified potential agricultural use on the north portion of the Property. This PCA has the potential to cause an APEC on the Property.
925 Rathburn Rd E	#37 – Operation of Dry Cleaning Equipment (where chemicals are used)	Yes (APEC #4)	The ERIS report, city directory and Phase One Study area inspection displayed evidence of an operational dry cleaners located at 925 Rathburn Rd E. Based on the

Location of PCA	PCA	APEC (Yes/No)	Rationalization
Tomken Cleaners (165 m northwest)			location of the drycleaner, the flow direction of groundwater and of nature of contaminant this PCA has the potential to cause an APEC on the Property.
925 Rathburn Rd E (125 m northwest, in front of No Frills)	Other 2 – Ontario Spills	No	Based on the volume of the spill and the pathway of the material spilled it is in the opinion of the QP that this PCA will not cause an APEC.

8.3 Areas of Potential Environmental Concern

Table 2 identifies the Areas of Potential Environmental Concern in a form approved by the Director. The rationale for the assessment of APECs are summarized in Section 8.2.

8.4 Uncertainty and Absence of Information

During the records review, Grounded have relied on information obtained from municipal, provincial, and independent sources as referenced in this report. Although we assessed the information for consistency, verification of the accuracy or the completeness of this third-party information was not completed.

Grounded have made reasonable inquiries to obtain accessible information for this assessment as required by O. Reg. 153/04 Schedule D Table 1: Mandatory Requirements for Phase One Environmental Site Assessment Reports. The evaluation provided in this report reflects our best judgment in light of the information available at the time of its preparation.

8.5 Phase One Conceptual Site Model

A Phase One Conceptual Site Model (CSM) is provided in Figures 3 to 5 with supporting text in Appendix K.

9 Conclusions

9.1 Whether Phase Two Environmental Site Assessment Required Before Record of Site Condition Submitted

Based on the results of the Phase One ESA, a Phase Two ESA will be required prior to the submission of a Record of Site Condition (RSC). A Phase Two ESA is required to assess the soil and groundwater quality on site to address the identified APECs on the Property.

9.2 Record of Site Condition Based on Phase One Environmental Site Assessment Alone

Based on the results of the Phase One ESA, a Phase Two ESA will be required prior to the submission of a Record of Site Condition (RSC). A Phase Two ESA is required to assess the soil and groundwater quality on site to address the identified APECs on the Property. An RSC cannot be submitted based on the Phase One ESA alone.

9.3 Signatures

The Phase One ESA was conducted by Emma Leet, EIT, under the supervision of Bailey Walters, MSc PGeo QP_{ESA/IRA}. The Phase One ESA has been conducted in general accordance with Ontario Regulation 153/04.

We trust that this report meets your requirements at present.

For and on behalf of our team,

Emma Leet, EIT
Project Coordinator

Bailey Walters, MSc PGeo QP_{ESA/IRA}

11 Limitations and Restrictions

The assessment should not be considered a comprehensive investigation that eliminates all risks of encountering environmental problems. The information presented in this report is based on information collected during the completion of the Phase One Environmental Site Assessment by Grounded Engineering Inc. It was based on the conditions on the Phase One Property at the time of the site inspection supplemented by a review of historical information to assess the environmental conditions regarding the Phase One Property.

Sampling and analysis of soil, groundwater or any other material was not carried out as part of the Phase One Environmental Site Assessment. As a result, the presence and/or extent of any adverse environmental impact cannot be confirmed. The potential for environmental liability and/or environmental impact is an opinion as a result of the scope of this assessment.

In assessing the environmental conditions and history of the Phase One Property, Grounded Engineering Inc. has relied on information provided by others, as noted in this report, and has assumed that the information provided by those individuals is factual and accurate. Grounded Engineering Inc. accepts no responsibility for any deficiency or inaccuracy in this report resulting from the information provided by those individuals.

If new information regarding the environmental condition of the Phase One Property is identified during future work, or outstanding responses from regulatory agencies indicate outstanding issues on file with respect to the Phase One Property, Grounded Engineering Inc. should be notified so that we may re-evaluate the findings of this assessment and provide amendments.

The authorized user of this report is UPRC c/o Turner & Townsend, for whom this report has been prepared. Grounded Engineering Inc. maintains the copyright and ownership of this document. Reproduction of this report in any format or medium requires explicit prior authorization from Grounded Engineering Inc.

1891 to 1944	John R. Kennedy						
1878 to 1891	John Kennedy						
1837 to 1878	Francis Mckinney						
1835 to 1837	Aaron Silverthorn						
1832 to 1835	Elisha Harris						
1811 to 1832	John Lottridge						
1810 to 1811	William Kent						
Prior to 1810	Crown				Undeveloped	Agricultural or other	No other observations

Notes:

SI is satellite imagery
AP is aerial photograph
CD is city directory
FIP is fire insurance plan
HM is Historical Map
OBM is Ontario Base Map

For each owner, specify one of the following types of Property Use (as defined in O.Reg. 153/04) that applies:

Agriculture or Other, Commercial, Community, Industrial, Institutional, Parkland, Residential

TABLE 2:
TABLE OF AREAS OF POTENTIAL ENVIRONMENTAL CONCERN
(Refer to clause 16(2)(a), Schedule D, O. Reg. 153/04)

Area of Potential Environmental Concern	Location of Area of Potential Environmental Concern on Phase One Property	Potentially Contaminating Activity	Location of PCA (on-site or off-site)	Contaminants of Potential Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
APEC 1	Entire Phase One Property	#30 – Importation of Fill Material of Unknown Quality	On-site	Metals As, Sb, Se B-HWS CN- Hg Cr(VI) Low or high pH PAHs VOCs	Soil & Groundwater Soil & Groundwater Soil (Shallow) Soil & Groundwater Soil & Groundwater Soil & Groundwater Soil Soil & Groundwater Soil & Groundwater
APEC 2	Entire Phase One Property	Other 1 - De-icing Activities	On-site	EC SAR Cl Na	Soil Soil Groundwater Groundwater
APEC 3	Southwest Portion of Phase One Property	#40 – Pesticides (including Herbicides, Fungicides, and anti-fouling Agents) Manufacturing, Processing, Bulk Storage and Large – Scale Applications	On-site	OCs	Soil
APEC 4	Northwest Portion of Phase One Property	#37 - Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site	VOCs	Groundwater

Notes:

1 - Area of Potential Environmental Concern means the area on, in or under a phase one property where one or more contaminants are potentially present, as determined through the phase one environmental site assessment, including through,

- (a) identification of past or present uses on, in or under the phase one property, and
- (b) identification of potentially contaminating activity.

2 - Potentially Contaminating Activity means a use or activity set out in Column A of Table 2 of Schedule D that is occurring or has occurred in a phase one study area

3 - when completing this column, identify all contaminants of potential concern using the Method Groups as identified in the

Protocol for in the Assessment of Properties under Part XV.1 of the Environmental Protection Act, March 9, 2004, amended as of July 1, 2011, as specified below:

ABNs	Metals
CPs	As, Sb, Se
1,4-Dioxane	Na
Dioxins/Furans, PCDDs/PCDFs	B-HWS
OCs	Cl-
PHCs	CN-
PCBs	Electrical Conductivity
PAHs	Cr (VI)
THMs	Hg
VOCs	Methyl Mercury
BTEX	Low or high pH,
Ca, Mg	SAR

4 - when submitting a record of site condition for filing, a copy of this table must be attached

Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY

Reliance on information in Report: This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as a database review of environmental records.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Limited Partnership ("ERIS") using various sources of information, including information provided by Federal and Provincial government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report (s) are protected by copyright owned by ERIS Information Limited Partnership. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

Executive Summary

Property Information:

Project Property: 4094 Tomken Rd
4094 Tomken Road Mississauga ON L4W 4H5

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. **Note:** Databases denoted with " * " indicates that the database will no longer be updated. See the individual database description for more information.

Abandoned Aggregate Inventory:

Provincial

[AAGR](#)

The MAAP Program maintains a database of abandoned pits and quarries. Please note that the database is only referenced by lot and concession and city/town location. The database provides information regarding the location, type, size, land use, status and general comments.*

Government Publication Date: Sept 2002*

Aggregate Inventory:

Provincial

[AGR](#)

The Ontario Ministry of Northern Development, Mines, Natural Resources and Forestry (ONDMNRF) maintains this database of pits and quarries. The database provides information regarding the registered owner/operator, location name, operation type, approval type, and maximum annual tonnage.

Government Publication Date: Up to Oct 2022

Abandoned Mine Information System:

Provincial

[AMIS](#)

The Abandoned Mines Information System contains data on known abandoned and inactive mines located on both Crown and privately held lands. The information was provided by the Ministry of Northern Development and Mines (MNDM), with the following disclaimer: "the database provided has been compiled from various sources, and the Ministry of Northern Development and Mines makes no representation and takes no responsibility that such information is accurate, current or complete". Reported information includes official mine name, status, background information, mine start/end date, primary commodity, mine features, hazards and remediation.

Government Publication Date: 1800-Mar 2022

Anderson's Waste Disposal Sites:

Private

[ANDR](#)

The information provided in this database was collected by examining various historical documents which aimed to characterize the likely position of former waste disposal sites from 1860 to present. The research initiative behind the creation of this database was to identify those sites that are missing from the Ontario MOE Waste Disposal Site Inventory, as well as to provide revisions and corrections to the positions and descriptions of sites currently listed in the MOE inventory. In addition to historic waste disposal facilities, the database also identifies certain auto wreckers and scrap yards that have been extrapolated from documentary sources. Please note that the data is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

Government Publication Date: 1860s-Present

Aboveground Storage Tanks:

Provincial

[AST](#)

Historical listing of aboveground storage tanks made available by the Department of Natural Resources and Forestry. Includes tanks used to hold water or petroleum. This dataset has been retired as of September 25, 2014 and will no longer be updated.

Government Publication Date: May 31, 2014

Automobile Wrecking & Supplies:

Private

[AUWR](#)

This database provides an inventory of known locations that are involved in the scrap metal, automobile wrecking/recycling, and automobile parts & supplies industry. Information is provided on the company name, location and business type.

Government Publication Date: 1999-Feb 28, 2022

Borehole:

Provincial

[BORE](#)

A borehole is the generalized term for any narrow shaft drilled in the ground, either vertically or horizontally. The information here includes geotechnical investigations or environmental site assessments, mineral exploration, or as a pilot hole for installing piers or underground utilities. Information is from many sources such as the Ministry of Transportation (MTO) boreholes from engineering reports and projects from the 1950 to 1990's in Southern Ontario. Boreholes from the Ontario Geological Survey (OGS) including The Urban Geology Analysis Information System (UGAIS) and the York Peel Durham Toronto (YPDT) database of the Conservation Authority Moraine Coalition. This database will include fields such as location, stratigraphy, depth, elevation, year drilled, etc. For all water well data or oil and gas well data for Ontario please refer to WWIS and OOGW.

Government Publication Date: 1875-Jul 2018

Certificates of Approval:

Provincial CA

This database contains the following types of approvals: Air & Noise, Industrial Sewage, Municipal & Private Sewage, Waste Management Systems and Renewable Energy Approvals. The MOE in Ontario states that any facility that releases emissions to the atmosphere, discharges contaminants to ground or surface water, provides potable water supplies, or stores, transports or disposes of waste, must have a Certificate of Approval before it can operate lawfully. Fields include approval number, business name, address, approval date, approval type and status. This database will no longer be updated, as CofA's have been replaced by either Environmental Activity and Sector Registry (EASR) or Environmental Compliance Approval (ECA). Please refer to those individual databases for any information after Oct.31, 2011.

Government Publication Date: 1985-Oct 30, 2011*

Dry Cleaning Facilities:

Federal CDRY

List of dry cleaning facilities made available by Environment and Climate Change Canada. Environment and Climate Change Canada's Tetrachloroethylene (Use in Dry Cleaning and Reporting Requirements) Regulations (SOR/2003-79) are intended to reduce releases of tetrachloroethylene to the environment from dry cleaning facilities.

Government Publication Date: Jan 2004-Dec 2021

Commercial Fuel Oil Tanks:

Provincial CFOT

Locations of commercial underground fuel oil tanks. This is not a comprehensive or complete inventory of commercial fuel tanks in the province; this listing is a copy of records of registered commercial underground fuel oil tanks obtained under Access to Public Information.

Note that the following types of tanks do not require registration: waste oil tanks in apartments, office buildings, residences, etc.; aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

Government Publication Date: Feb 28, 2022

Chemical Manufacturers and Distributors:

Private CHEM

This database includes information from both a one time study conducted in 1992 and private source and is a listing of facilities that manufacture or distribute chemicals. The production of these chemical substances may involve one or more chemical reactions and/or chemical separation processes (i.e. fractionation, solvent extraction, crystallization, etc.).

Government Publication Date: 1999-Jan 31, 2020

Chemical Register:

Private CHM

This database includes a listing of locations of facilities within the Province or Territory that either manufacture and/or distributes chemicals.

Government Publication Date: 1999-Feb 28, 2023

Compressed Natural Gas Stations:

Private CNG

Canada has a network of public access compressed natural gas (CNG) refuelling stations. These stations dispense natural gas in compressed form at 3,000 pounds per square inch (psi), the pressure which is allowed within the current Canadian codes and standards. The majority of natural gas refuelling is located at existing retail gasoline that have a separate refuelling island for natural gas. This list of stations is made available by the Canadian Natural Gas Vehicle Alliance.

Government Publication Date: Dec 2012 -May 2023

Inventory of Coal Gasification Plants and Coal Tar Sites:

Provincial COAL

This inventory includes both the "Inventory of Coal Gasification Plant Waste Sites in Ontario-April 1987" and the Inventory of Industrial Sites Producing or Using Coal Tar and Related Tars in Ontario-November 1988) collected by the MOE. It identifies industrial sites that produced and continue to produce or use coal tar and other related tars. Detailed information is available and includes: facility type, size, land use, information on adjoining properties, soil condition, site operators/occupants, site description, potential environmental impacts and historic maps available. This was a one-time inventory.*

Government Publication Date: Apr 1987 and Nov 1988*

Compliance and Convictions:

Provincial CONV

This database summarizes the fines and convictions handed down by the Ontario courts beginning in 1989. Companies and individuals named here have been found guilty of environmental offenses in Ontario courts of law.

Government Publication Date: 1989-Apr 2023

Certificates of Property Use:

Provincial CPU

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include CPU's on the registry such as (EPA s. 168.6) - Certificate of Property Use.

Government Publication Date: 1994 - Jun 30, 2023

Drill Hole Database:Provincial [DRL](#)

The Ontario Drill Hole Database contains information on more than 113,000 percussion, overburden, sonic and diamond drill holes from assessment files on record with the department of Mines and Minerals. Please note that limited data is available for southern Ontario, as it was the last area to be completed. The database was created when surveys submitted to the Ministry were converted in the Assessment File Research Image Database (AFRI) project. However, the degree of accuracy (coordinates) as to the exact location of drill holes is dependent upon the source document submitted to the MNDM. Levels of accuracy used to locate holes are: centering on the mining claim; a sketch of the mining claim; a 1:50,000 map; a detailed company map; or from submitted a "Report of Work".

Government Publication Date: 1886 - Oct 2022**Delisted Fuel Tanks:**Provincial [DTNK](#)

List of fuel storage tank sites that were once found in - and have since been removed from - the list of fuel storage tanks made available by the regulatory agency under Access to Public Information.

Government Publication Date: Feb 28, 2022**Environmental Activity and Sector Registry:**Provincial [EASR](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. The EASR allows businesses to register certain activities with the ministry, rather than apply for an approval. The registry is available for common systems and processes, to which preset rules of operation can be applied. The EASR is currently available for: heating systems, standby power systems and automotive refinishing. Businesses whose activities aren't subject to the EASR may apply for an ECA (Environmental Compliance Approval), Please see our ECA database.

Government Publication Date: Oct 2011- Jun 30, 2023**Environmental Registry:**Provincial [EBR](#)

The Environmental Registry lists proposals, decisions and exceptions regarding policies, Acts, instruments, or regulations that could significantly affect the environment. Through the Registry, thirteen provincial ministries notify the public of upcoming proposals and invite their comments. For example, if a local business is requesting a permit, license, or certificate of approval to release substances into the air or water; these are notified on the registry. Data includes: Approval for discharge into the natural environment other than water (i.e. Air) - EPA s. 9, Approval for sewage works - OWRA s. 53(1), and EPA s. 27 - Approval for a waste disposal site. For information regarding Permit to Take Water (PTTW), Certificate of Property Use (CPU) and (ORD) Orders please refer to those individual databases.

Government Publication Date: 1994 - Jun 30, 2023**Environmental Compliance Approval:**Provincial [ECA](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. In the past, a business had to apply for multiple approvals (known as certificates of approval) for individual processes and pieces of equipment. Today, a business either registers itself, or applies for a single approval, depending on the types of activities it conducts. Businesses whose activities aren't subject to the EASR may apply for an ECA. A single ECA addresses all of a business's emissions, discharges and wastes. Separate approvals for air, noise and waste are no longer required. This database will also include Renewable Energy Approvals. For certificates of approval prior to Nov 1st, 2011, please refer to the CA database. For all Waste Disposal Sites please refer to the WDS database.

Government Publication Date: Oct 2011- Jun 30, 2023**Environmental Effects Monitoring:**Federal [EEM](#)

The Environmental Effects Monitoring program assesses the effects of effluent from industrial or other sources on fish, fish habitat and human usage of fisheries resources. Since 1992, pulp and paper mills have been required to conduct EEM studies under the Pulp and Paper Effluent Regulations. This database provides information on the mill name, geographical location and sub-lethal toxicity data.

Government Publication Date: 1992-2007***ERIS Historical Searches:**Private [EHS](#)

ERIS has compiled a database of all environmental risk reports completed since March 1999. Available fields for this database include: site location, date of report, type of report, and search radius. As per all other databases, the ERIS database can be referenced on both the map and "Statistical Profile" page.

Government Publication Date: 1999-Jun 30, 2023**Environmental Issues Inventory System:**Federal [EIIS](#)

The Environmental Issues Inventory System was developed through the implementation of the Environmental Issues and Remediation Plan. This plan was established to determine the location and severity of contaminated sites on inhabited First Nation reserves, and where necessary, to remediate those that posed a risk to health and safety; and to prevent future environmental problems. The EIIS provides information on the reserve under investigation, inventory number, name of site, environmental issue, site action (Remediation, Site Assessment), and date investigation completed.

Government Publication Date: 1992-2001*

Emergency Management Historical Event:

Provincial **EMHE**

List of locations of historical occurrences of emergency events, including those assigned to the Ministry of Natural Resources by Order-In-Council (OIC) under the Emergency Management and Civil Protection Act, as well as events where MNR provided requested emergency response assistance. Many of these events will have involved community evacuations, significant structural loss, and/or involvement of MNR emergency response staff. These events fall into one of ten (10) type categories: Dam Failure; Drought / Low Water; Erosion; Flood; Forest Fire; Soil and Bedrock Instability; Petroleum Resource Center Event, EMO Requested Assistance, Continuity of Operations Event, Other Requested Assistance. EMHE record details are reproduced by ERIS under License with the Ontario Ministry of Natural Resources © Queen's Printer for Ontario, 2017.

Government Publication Date: Apr 30, 2022

Environmental Penalty Annual Report:

Provincial **EPAR**

This database contains data from Ontario's annual environmental penalty report published by the Ministry of the Environment and Climate Change. These reports provide information on environmental penalties for land / water violations issued to companies in one of the nine industrial sectors covered by the Municipal Industrial Strategy for Abatement (MISA) regulations.

Government Publication Date: Jan 1, 2011 - Dec 31, 2022

List of Expired Fuels Safety Facilities:

Provincial **EXP**

List of facilities and tanks for which there was once a fuel registration. This is not a comprehensive or complete inventory of expired tanks/tank facilities in the province; this listing is a copy of previously registered tanks and facilities obtained under Access to Public Information. Includes private fuel outlets, bulk plants, fuel oil tanks, gasoline stations, marinas, propane filling stations, liquid fuel tanks, piping systems, etc; includes tanks which have been removed from the ground.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

Government Publication Date: Feb 28, 2022

Federal Convictions:

Federal **FCON**

Environment Canada maintains a database referred to as the "Environmental Registry" that details prosecutions under the Canadian Environmental Protection Act (CEPA) and the Fisheries Act (FA). Information is provided on the company name, location, charge date, offence and penalty.

Government Publication Date: 1988-Jun 2007*

Contaminated Sites on Federal Land:

Federal **FCS**

The Federal Contaminated Sites Inventory includes information on known federal contaminated sites under the custodianship of departments, agencies and consolidated Crown corporations as well as those that are being or have been investigated to determine whether they have contamination arising from past use that could pose a risk to human health or the environment. The inventory also includes non-federal contaminated sites for which the Government of Canada has accepted some or all financial responsibility. It does not include sites where contamination has been caused by, and which are under the control of, enterprise Crown corporations, private individuals, firms or other levels of government. Includes fire training sites and sites at which Per- and Polyfluoroalkyl Substances (PFAS) are a concern.

Government Publication Date: Jun 2000-Mar 2023

Fisheries & Oceans Fuel Tanks:

Federal **FOFT**

Fisheries & Oceans Canada maintains an inventory of aboveground & underground fuel storage tanks located on Fisheries & Oceans property or controlled by DFO. Our inventory provides information on the site name, location, tank owner, tank operator, facility type, storage tank location, tank contents & capacity, and date of tank installation.

Government Publication Date: 1964-Sep 2019

Federal Identification Registry for Storage Tank Systems (FIRSTS):

Federal **FRST**

A list of federally regulated Storage tanks from the Federal Identification Registry for Storage Tank Systems (FIRSTS). FIRSTS is Environment and Climate Change Canada's database of storage tank systems subject to the Storage Tank for Petroleum Products and Allied Petroleum Products Regulations. The main objective of the Regulations is to prevent soil and groundwater contamination from storage tank systems located on federal and aboriginal lands. Storage tank systems that do not have a valid identification number displayed in a readily visible location on or near the storage tank system may be refused product delivery.

Government Publication Date: May 31, 2018

Fuel Storage Tank:

Provincial **FST**

List of registered private and retail fuel storage tanks. This is not a comprehensive or complete inventory of private and retail fuel storage tanks in the province; this listing is a copy of registered private and retail fuel storage tanks, obtained under Access to Public Information.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

Government Publication Date: Feb 28, 2022

Fuel Storage Tank - Historic:

Provincial

[FSTH](#)

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks. Public records of private fuel storage tanks are only available since the registration became effective in September 1989. This information is now collected by the Technical Standards and Safety Authority.

Government Publication Date: Pre-Jan 2010*

Ontario Regulation 347 Waste Generators Summary:

Provincial

[GEN](#)

Regulation 347 of the Ontario EPA defines a waste generation site as any site, equipment and/or operation involved in the production, collection, handling and/or storage of regulated wastes. A generator of regulated waste is required to register the waste generation site and each waste produced, collected, handled, or stored at the site. This database contains the registration number, company name and address of registered generators including the types of hazardous wastes generated. It includes data on waste generating facilities such as: drycleaners, waste treatment and disposal facilities, machine shops, electric power distribution etc. This information is a summary of all years from 1986 including the most currently available data. Some records may contain, within the company name, the phrase "See & Use..." followed by a series of letters and numbers. This occurs when one company is amalgamated with or taken over by another registered company. The number listed as "See & Use", refers to the new ownership and the other identification number refers to the original ownership. This phrase serves as a link between the 2 companies until operations have been fully transferred.

Government Publication Date: 1986-Oct 31, 2022

Greenhouse Gas Emissions from Large Facilities:

Federal

[GHG](#)

List of greenhouse gas emissions from large facilities made available by Environment Canada. Greenhouse gas emissions in kilotonnes of carbon dioxide equivalents (kt CO2 eq).

Government Publication Date: 2013-Dec 2019

TSSA Historic Incidents:

Provincial

[HINC](#)

List of historic incidences of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen recorded by the TSSA in their previous incident tracking system. The TSSA's Fuels Safety Program administers the Technical Standards & Safety Act 2000, providing fuel-related safety services associated with the safe transportation, storage, handling and use of fuels such as gasoline, diesel, propane, natural gas and hydrogen. Under this Act, the TSSA regulates fuel suppliers, storage facilities, transport trucks, pipelines, contractors and equipment or appliances that use fuels. Records are not verified for accuracy or completeness. This is not a comprehensive or complete inventory of historical fuel spills and leaks in the province. This listing is a copy of the data captured at one moment in time and is hence limited by the record date provided here.

Government Publication Date: 2006-June 2009*

Indian & Northern Affairs Fuel Tanks:

Federal

[IAFT](#)

The Department of Indian & Northern Affairs Canada (INAC) maintains an inventory of aboveground & underground fuel storage tanks located on both federal and crown land. Our inventory provides information on the reserve name, location, facility type, site/facility name, tank type, material & ID number, tank contents & capacity, and date of tank installation.

Government Publication Date: 1950-Aug 2003*

Fuel Oil Spills and Leaks:

Provincial

[INC](#)

Listing of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen reported to the Spills Action Centre (SAC). This is not a comprehensive or complete inventory of fuel-related leaks, spills, and incidents in the province; this listing is a copy of incidents reported to the SAC, obtained under Access to Public Information. Includes incidents from fuel-related hazards such as spills, fires, and explosions. Records are not verified for accuracy or completeness.

Government Publication Date: Feb 28, 2022

Landfill Inventory Management Ontario:

Provincial

[LIMO](#)

The Landfill Inventory Management Ontario (LIMO) database is updated every year, as the Ministry of the Environment, Conservation and Parks compiles new and updated information. Includes small and large landfills currently operating as well as those which are closed and historic. Operators of larger landfills provide landfill information for the previous operating year to the ministry for LIMO including: estimated amount of total waste received, landfill capacity, estimated total remaining landfill capacity, fill rates, engineering designs, reporting and monitoring details, size of location, service area, approved waste types, leachate of site treatment, contaminant attenuation zone and more. The small landfills include information such as site owner, site location and certificate of approval # and status.

Government Publication Date: Mar 21, 2022

Canadian Mine Locations:

Private

[MINE](#)

This information is collected from the Canadian & American Mines Handbook. The Mines database is a national database that provides over 290 listings on mines (listed as public companies) dealing primarily with precious metals and hard rocks. Listed are mines that are currently in operation, closed, suspended, or are still being developed (advanced projects). Their locations are provided as geographic coordinates (x, y and/or longitude, latitude). As of 2002, data pertaining to Canadian smelters and refineries has been appended to this database.

Government Publication Date: 1998-2009*

Mineral Occurrences:

Provincial [MNR](#)

In the early 70's, the Ministry of Northern Development and Mines created an inventory of approximately 19,000 mineral occurrences in Ontario, in regard to metallic and industrial minerals, as well as some information on building stones and aggregate deposits. Please note that the "Horizontal Positional Accuracy" is approximately +/- 200 m. Many reference elements for each record were derived from field sketches using pace or chain/tape measurements against claim posts or topographic features in the area. The primary limiting factor for the level of positional accuracy is the scale of the source material. The testing of horizontal accuracy of the source materials was accomplished by comparing the plan metric (X and Y) coordinates of that point with the coordinates of the same point as defined from a source of higher accuracy.

Government Publication Date: 1846-Feb 2023

National Analysis of Trends in Emergencies System (NATES):

Federal [NATE](#)

In 1974 Environment Canada established the National Analysis of Trends in Emergencies System (NATES) database, for the voluntary reporting of significant spill incidents. The data was to be used to assist in directing the work of the emergencies program. NATES ran from 1974 to 1994. Extensive information is available within this database including company names, place where the spill occurred, date of spill, cause, reason and source of spill, damage incurred, and amount, concentration, and volume of materials released.

Government Publication Date: 1974-1994*

Non-Compliance Reports:

Provincial [NCPL](#)

The Ministry of the Environment provides information about non-compliant discharges of contaminants to air and water that exceed legal allowable limits, from regulated industrial and municipal facilities. A reported non-compliance failure may be in regard to a Control Order, Certificate of Approval, Sectoral Regulation or specific regulation/act.

Government Publication Date: Dec 31, 2021

National Defense & Canadian Forces Fuel Tanks:

Federal [NDFT](#)

The Department of National Defense and the Canadian Forces maintains an inventory of all aboveground & underground fuel storage tanks located on DND lands. Our inventory provides information on the base name, location, tank type & capacity, tank contents, tank class, date of tank installation, date tank last used, and status of tank as of May 2001. This database will no longer be updated due to the new National Security protocols which have prohibited any release of this database.

Government Publication Date: Up to May 2001*

National Defense & Canadian Forces Spills:

Federal [NDSP](#)

The Department of National Defense and the Canadian Forces maintains an inventory of spills to land and water. All spill sites have been classified under the "Transportation of Dangerous Goods Act - 1992". Our inventory provides information on the facility name, location, spill ID #, spill date, type of spill, as well as the quantity of substance spilled & recovered.

Government Publication Date: Mar 1999-Oct 2022

National Defence & Canadian Forces Waste Disposal Sites:

Federal [NDWD](#)

The Department of National Defence and the Canadian Forces maintains an inventory of waste disposal sites located on DND lands. Where available, our inventory provides information on the base name, location, type of waste received, area of site, depth of site, year site opened/closed and status.

Government Publication Date: 2001-Apr 2007*

National Energy Board Pipeline Incidents:

Federal [NEBI](#)

Locations of pipeline incidents from 2008 to present, made available by the Canada Energy Regulator (CER) - previously the National Energy Board (NEB). Includes incidents reported under the Onshore Pipeline Regulations and the Processing Plant Regulations related to pipelines under federal jurisdiction, does not include incident data related to pipelines under provincial or territorial jurisdiction.

Government Publication Date: 2008-Jun 30, 2021

National Energy Board Wells:

Federal [NEBP](#)

The NEBW database contains information on onshore & offshore oil and gas wells that are outside provincial jurisdiction(s) and are thereby regulated by the National Energy Board. Data is provided regarding the operator, well name, well ID No./UWI, status, classification, well depth, spud and release date.

Government Publication Date: 1920-Feb 2003*

National Environmental Emergencies System (NEES):

Federal

[NEES](#)

In 2000, the Emergencies program implemented NEES, a reporting system for spills of hazardous substances. For the most part, this system only captured data from the Atlantic Provinces, some from Quebec and Ontario and a portion from British Columbia. Data for Alberta, Saskatchewan, Manitoba and the Territories was not captured. However, NEES is also a repository for previous Environment Canada spill datasets. NEES is composed of the historic datasets ' or Trends ' which dates from approximately 1974 to present. NEES Trends is a compilation of historic databases, which were merged and includes data from NATES (National Analysis of Trends in Emergencies System), ARTS (Atlantic Regional Trends System), and NEES. In 2001, the Emergencies Program determined that variations in reporting regimes and requirements between federal and provincial agencies made national spill reporting and trend analysis difficult to achieve. As a consequence, the department has focused efforts on capturing data on spills of substances which fall under its legislative authority only (CEPA and FA). As such, the NEES database will be decommissioned in December 2004.

Government Publication Date: 1974-2003*

National PCB Inventory:

Federal

[NPCB](#)

Environment Canada's National PCB inventory includes information on in-use PCB containing equipment in Canada including federal, provincial and private facilities. Federal out-of-service PCB containing equipment and PCB waste owned by the federal government or by federally regulated industries such as airlines, railway companies, broadcasting companies, telephone and telecommunications companies, pipeline companies, etc. are also listed. Although it is not Environment Canada's mandate to collect data on non-federal PCB waste, the National PCB inventory includes some information on provincial and private PCB waste and storage sites. Some addresses provided may be Head Office addresses and are not necessarily the location of where the waste is being used or stored.

Government Publication Date: 1988-2008*

National Pollutant Release Inventory 1993-2020:

Federal

[NPR2](#)

The National Pollutant Release Inventory (NPRI) is Canada's public inventory of pollutant releases (to air, water and land), disposals, and transfers for recycling. The inventory, managed by Environment and Climate Change Canada, tracks over 300 substances. Under the authority of the Canadian Environmental Protection Act (CEPA), owners or operators of facilities that meet published reporting requirements are required to report to the NPRI.

Government Publication Date: Sep 2020

National Pollutant Release Inventory - Historic:

Federal

[NPRI](#)

Environment Canada has defined the National Pollutant Release Inventory ("NPRI") as a federal government initiative designed to collect comprehensive national data regarding releases to air, water, or land, and waste transfers for recycling for more than 300 listed substances. This data holds historic records; current records are found in NPR2.

Government Publication Date: 1993-May 2017

Oil and Gas Wells:

Private

[OGWE](#)

The Nickle's Energy Group (publisher of the Daily Oil Bulletin) collects information on drilling activity including operator and well statistics. The well information database includes name, location, class, status and depth. The main Nickle's database is updated on a daily basis, however, this database is updated on a monthly basis. More information is available at www.nickles.com.

Government Publication Date: 1988-May 31, 2023

Ontario Oil and Gas Wells:

Provincial

[OOGW](#)

In 1998, the MNR handed over to the Ontario Oil, Gas and Salt Resources Corporation, the responsibility of maintaining a database of oil and gas wells drilled in Ontario. The OGSR Library has over 20,000+ wells in their database. Information available for all wells in the ERIS database include well owner/operator, location, permit issue date, and well cap date, license No., status, depth and the primary target (rock unit) of the well being drilled. All geology/stratigraphy table information, plus all water table information is also provide for each well record.

Government Publication Date: 1800-Aug 2021

Inventory of PCB Storage Sites:

Provincial

[OPCB](#)

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of PCB storage sites within the province. Ontario Regulation 11/82 (Waste Management - PCB) and Regulation 347 (Generator Waste Management) under the Ontario EPA requires the registration of inactive PCB storage equipment and/or disposal sites of PCB waste with the Ontario Ministry of Environment. This database contains information on: 1) waste quantities; 2) major and minor sites storing liquid or solid waste; and 3) a waste storage inventory.

Government Publication Date: 1987-Oct 2004; 2012-Dec 2013

Orders:

Provincial

[ORD](#)

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include Orders on the registry such as (EPA s. 17) - Order for remedial work, (EPA s. 18) - Order for preventative measures, (EPA s. 43) - Order for removal of waste and restoration of site, (EPA s. 44) - Order for conformity with Act for waste disposal sites, (EPA s. 136) - Order for performance of environmental measures.

Government Publication Date: 1994 - Jun 30, 2023

Canadian Pulp and Paper:

Private **PAP**

This information is part of the Pulp and Paper Canada Directory. The Directory provides a comprehensive listing of the locations of pulp and paper mills and the products that they produce.

Government Publication Date: 1999, 2002, 2004, 2005, 2009-2014

Parks Canada Fuel Storage Tanks:

Federal **PCFT**

Canadian Heritage maintains an inventory of known fuel storage tanks operated by Parks Canada, in both National Parks and at National Historic Sites. The database details information on site name, location, tank install/removal date, capacity, fuel type, facility type, tank design and owner/operator.

Government Publication Date: 1920-Jan 2005*

Pesticide Register:

Provincial **PES**

The Ontario Ministry of the Environment and Climate Change maintains a database of licensed operators and vendors of registered pesticides.

Government Publication Date: Oct 2011- Jun 30, 2023

Pipeline Incidents:

Provincial **PINC**

List of pipeline incidents (strikes, leaks, spills). This is not a comprehensive or complete inventory of pipeline incidents in the province; this listing is in an historical copy of records previously obtained under Access to Public Information. Records are not verified for accuracy or completeness.

Government Publication Date: Feb 28, 2021

Private and Retail Fuel Storage Tanks:

Provincial **PRT**

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks and licensed retail fuel outlets. This database includes an inventory of locations that have gasoline, oil, waste oil, natural gas and/or propane storage tanks on their property. The MCCR no longer collects this information. This information is now collected by the Technical Standards and Safety Authority (TSSA).

Government Publication Date: 1989-1996*

Permit to Take Water:

Provincial **PTTW**

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include PTTW's on the registry such as OWRA s. 34 - Permit to take water.

Government Publication Date: 1994 - Jun 30, 2023

Ontario Regulation 347 Waste Receivers Summary:

Provincial **REC**

Part V of the Ontario Environmental Protection Act ("EPA") regulates the disposal of regulated waste through an operating waste management system or a waste disposal site operated or used pursuant to the terms and conditions of a Certificate of Approval or a Provisional Certificate of Approval. Regulation 347 of the Ontario EPA defines a waste receiving site as any site or facility to which waste is transferred by a waste carrier. A receiver of regulated waste is required to register the waste receiving facility. This database represents registered receivers of regulated wastes, identified by registration number, company name and address, and includes receivers of waste such as: landfills, incinerators, transfer stations, PCB storage sites, sludge farms and water pollution control plants. This information is a summary of all years from 1986 including the most currently available data.

Government Publication Date: 1986-1990, 1992-2021

Record of Site Condition:

Provincial **RSC**

The Record of Site Condition (RSC) is part of the Ministry of the Environment's Brownfields Environmental Site Registry. Protection from environmental cleanup orders for property owners is contingent upon documentation known as a record of site condition (RSC) being filed in the Environmental Site Registry. In order to file an RSC, the property must have been properly assessed and shown to meet the soil, sediment and groundwater standards appropriate for the use (such as residential) proposed to take place on the property. The Record of Site Condition Regulation (O. Reg. 153/04) details requirements related to site assessment and clean up. RSCs filed after July 1, 2011 will also be included as part of the new (O.Reg. 511/09).

Government Publication Date: 1997-Sept 2001, Oct 2004-May 2023

Retail Fuel Storage Tanks:

Private **RST**

This database includes an inventory of retail fuel outlet locations (including marinas) that have on their property gasoline, oil, waste oil, natural gas and / or propane storage tanks.

Government Publication Date: 1999-Feb 28, 2023

Scott's Manufacturing Directory:

Private **SCT**

Scott's Directories is a data bank containing information on over 200,000 manufacturers across Canada. Even though Scott's listings are voluntary, it is the most comprehensive database of Canadian manufacturers available. Information concerning a company's address, plant size, and main products are included in this database.

Government Publication Date: 1992-Mar 2011*

Ontario Spills:

Provincial [SPL](#)

List of spills and incidents made available the Ministry of the Environment, Conservation and Parks. This database identifies information such as location (approximate), type and quantity of contaminant, date of spill, environmental impact, cause, nature of impact, etc. Information from 1988-2002 was part of the ORIS (Occurrence Reporting Information System). The SAC (Spills Action Centre) handles all spills reported in Ontario. Regulations for spills in Ontario are part of the MOE's Environmental Protection Act, Part X. The Ministry of the Environment, Conservation and Parks cites the coronavirus pandemic as an explanation for delays in releasing data pursuant to requests.

Government Publication Date: 1988-Oct 2021

Wastewater Discharger Registration Database:

Provincial [SRDS](#)

Facilities that report either municipal treated wastewater effluent or industrial wastewater discharges under the Effluent Monitoring and Effluent Limits (EMEL) and Municipal/Industrial Strategy for Abatement Regulations. The Municipal/Industrial Strategy for Abatement (MISA) division of the Ontario Ministry of Environment keeps record of direct dischargers of toxic pollutants within nine sectors including: Electric Power Generation, Mining, Petroleum Refining, Organic Chemicals, Inorganic Chemicals, Pulp & Paper, Metal Casting, Iron & Steel, and Quarries.

Government Publication Date: 1990-Dec 31, 2020

Anderson's Storage Tanks:

Private [TANK](#)

The information provided in this database was collected by examining various historical documents, which identified the location of former storage tanks, containing substances such as fuel, water, gas, oil, and other various types of miscellaneous products. Information is available in regard to business operating at tank site, tank location, permit year, permit & installation type, no. of tanks installed & configuration and tank capacity. Data contained within this database pertains only to the city of Toronto and is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

Government Publication Date: 1915-1953*

Transport Canada Fuel Storage Tanks:

Federal [TCFT](#)

List of fuel storage tanks currently or previously owned or operated by Transport Canada. This inventory also includes tanks on The Pickering Lands, which refers to 7,530 hectares (18,600 acres) of land in Pickering, Markham, and Uxbridge owned by the Government of Canada since 1972; properties on this land has been leased by the government since 1975, and falls under the Site Management Policy of Transport Canada, but is administered by Public Works and Government Services Canada. This inventory provides information on the site name, location, tank age, capacity and fuel type.

Government Publication Date: 1970 - Apr 2023

Variances for Abandonment of Underground Storage Tanks:

Provincial [VAR](#)

Listing of variances granted for storage tank abandonment. This is not a comprehensive or complete inventory of tank abandonment variances in the province; this listing is a copy of tank abandonment variance records previously obtained under Access to Public Information. In Ontario, registered underground storage tanks must be removed within two years of disuse; if removal of a tank is not feasible, an application may be sought for a variance from this code requirement.

Records are not verified for accuracy or completeness.

Government Publication Date: Feb 28, 2022

Waste Disposal Sites - MOE CA Inventory:

Provincial [WDS](#)

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of known open (active or inactive) and closed disposal sites in the Province of Ontario. Active sites maintain a Certificate of Approval, are approved to receive and are receiving waste. Inactive sites maintain Certificate(s) of Approval but are not receiving waste. Closed sites are not receiving waste. The data contained within this database was compiled from the MOE's Certificate of Approval database. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number. All new Environmental Compliance Approvals handed out after Oct 31, 2011 for Waste Disposal Sites will still be found in this database.

Government Publication Date: Oct 2011- Jun 30, 2023

Waste Disposal Sites - MOE 1991 Historical Approval Inventory:

Provincial [WDSH](#)

In June 1991, the Ontario Ministry of Environment, Waste Management Branch, published the "June 1991 Waste Disposal Site Inventory", of all known active and closed waste disposal sites as of October 30st, 1990. For each "active" site as of October 31st 1990, information is provided on site location, site/CA number, waste type, site status and site classification. For each "closed" site as of October 31st 1990, information is provided on site location, site/CA number, closure date and site classification. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number.

Government Publication Date: Up to Oct 1990*

Water Well Information System:

Provincial [WWIS](#)

This database describes locations and characteristics of water wells found within Ontario in accordance with Regulation 903. It includes such information as coordinates, construction date, well depth, primary and secondary use, pump rate, static water level, well status, etc. Also included are detailed stratigraphy information, approximate depth to bedrock and the approximate depth to the water table.

Government Publication Date: Mar 31 2023

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

Phase One Environmental Conceptual Site Model
Westminster United Church
4094 Tomken Rd, Mississauga, Ontario

Phase One ESA including Figures of the Phase One Study Area, which identify the following:	Phase One ESA Information:
Existing buildings and structures	Existing building and structures are presented in Figure 2.
Water bodies located in whole or in part on the Phase One Study Area	All water bodies on the Phase One Property and Phase One Study Area are shown on Figure 3.
Areas of Natural Significance located in whole or in part on the Phase One Study Area	No Life Science ANSIs were identified on the property or within the study area. No Earth Science ANSIs were identified on the property or within the study area.
Roads (including names) within the Phase One Study Area	All roads within the Phase One Study Area are shown on Figure 3.
Use of properties adjacent to the Phase One Property	The land use of properties adjacent to the Phase One Property is shown on Figure 3.
Location of drinking water wells on the Phase One Property	No drinking water wells were present on the Phase One Property.
Areas where any PCA has occurred, and locations of tanks in the Phase One Study Area	The location of PCAs and tanks, if any, is shown on Figure 4.
APECs on the Phase One Property	The location of APECs on the Phase One Property is shown on Figure 5.
Narrative Description and Assessments	
Any areas where Potentially Contaminating Activity (PCAs) on, or potentially affecting, the Phase One Property have occurred	<p><u>On-site PCAs Associated with APEC 1:</u></p> <ul style="list-style-type: none"> #30 – Importation of Fill Material of Unknown Quality <p><u>On-site PCAs Associated with APEC 2:</u></p> <ul style="list-style-type: none"> Other 1 – De-icing Activities <p><u>On-site PCAs Associated with APEC 3:</u></p>

	<ul style="list-style-type: none"> #40 – Pesticides (including Herbicides, Fungicides, and anti-fouling Agents) Manufacturing, Processing, Bulk Storage and Large – Scale Applications <p><u>On-site PCAs Associated with APEC 4:</u></p> <ul style="list-style-type: none"> #37 – Operation of Dry Cleaning Equipment (where chemicals are used)
<p>Any Contaminants of Potential Concerns (CoPCs)</p>	<p><u>CoPCs Associated with APEC 1:</u></p> <ul style="list-style-type: none"> Metals, As, Sb, Se, B-HWS, CN-, Hg, Cr(VI), PAHs, and VOCs in soil Metals, As, Sb, Se, CN-, Hg, Cr(VI), PAHs, and VOCs in groundwater <p><u>CoPCs Associated with APEC 2:</u></p> <ul style="list-style-type: none"> EC and SAR in soil NA and Cl in groundwater <p><u>CoPCs Associated with APEC 3:</u></p> <ul style="list-style-type: none"> OCs in soil <p><u>CoPCs Associated with APEC 4:</u></p> <ul style="list-style-type: none"> VOCs in groundwater
<p>The potential of underground utilities (if any present) to affect contaminant distribution and transport</p>	<p>Buried hydro, gas, communication, water and electrical all run through the Property. Based on these observations, there is the potential for underground utilities to affect the distribution and transportation of contaminants underneath the Property.</p>
<p>Available regional or site specific geological and hydrogeological information</p>	<p><u>Topography:</u></p> <ul style="list-style-type: none"> The approximate elevation of the Property was 139 m above sea level (masl) and is relatively flat. <p><u>Hydrology:</u></p> <ul style="list-style-type: none"> Surface water flow was expected infiltrate into the greenspace at Property. Groundwater is expected to flow locally southeast towards Little Etobicoke Creek, and regionally southeast to Lake Ontario <p><u>Overburden:</u></p> <ul style="list-style-type: none"> Till - Clay to silt-textured till (derived from glaciolacustrine deposits or shale). <p><u>Bedrock:</u></p> <ul style="list-style-type: none"> Georgian Bay Formation comprised of shale, limestone, dolostone and siltstone. MECP well record indicated bedrock observed at a depth of 1.8 mbgs. A map of draft thickness confirmed this depth

Any uncertainty or absence of information obtained in the Phase One ESA that could affect the validity of the CSM

No uncertainty or absence of information obtained in the Phase One ESA is identified to have an affect on the validity of the CSM.

11 Limitations and Restrictions

The assessment should not be considered a comprehensive investigation that eliminates all risks of encountering environmental problems. The information presented in this report is based on information collected during the completion of the Phase One Environmental Site Assessment by Grounded Engineering Inc. It was based on the conditions on the Phase One Property at the time of the site inspection supplemented by a review of historical information to assess the environmental conditions regarding the Phase One Property.

Sampling and analysis of soil, groundwater or any other material was not carried out as part of the Phase One Environmental Site Assessment. As a result, the presence and/or extent of any adverse environmental impact cannot be confirmed. The potential for environmental liability and/or environmental impact is an opinion as a result of the scope of this assessment.

In assessing the environmental conditions and history of the Phase One Property, Grounded Engineering Inc. has relied on information provided by others, as noted in this report, and has assumed that the information provided by those individuals is factual and accurate. Grounded Engineering Inc. accepts no responsibility for any deficiency or inaccuracy in this report resulting from the information provided by those individuals.

If new information regarding the environmental condition of the Phase One Property is identified during future work, or outstanding responses from regulatory agencies indicate outstanding issues on file with respect to the Phase One Property, Grounded Engineering Inc. should be notified so that we may re-evaluate the findings of this assessment and provide amendments.

The authorized user of this report is UPRC c/o Turner & Townsend, for whom this report has been prepared. Grounded Engineering Inc. maintains the copyright and ownership of this document. Reproduction of this report in any format or medium requires explicit prior authorization from Grounded Engineering Inc.
