Contacts and Approvals

You are responsible to contact and verify whether your property meets the requirements or is not affected by the agencies mentioned below, before you submit a Swimming Pool Enclosure Inspection Request to Compliance & Licensing Enforcement.

Approvals / Permits	Requirements	Contact
Alectra Utilities	Alectra Utilities must review and approve your survey & site plan for all in-ground and above ground installations to ensure your installation is safe.	Alectra Utilities - 905-273-7425 3240 Mavis Rd. Mississauga ON L5C 3K1 recordsMississauga.pool@alectrautilities.com
Conservation Authorities	You must obtain approval if any part of construction is within an area regulated by a conservation authority.	Credit Valley Conservation Authority - 905-670-1615 1255 Old Derry Rd. Mississauga ON L5N 6R4 Home - Credit Valley Conservation Credit Valley Conservation (cvc.ca) Conservation Halton - 905-336-1158 2596 Britannia Rd W Burlington ON L7P 0G3 https://conservationhalton.ca/contact-us Toronto and Region Conservation Authority - 416-661-6600 101 Exchange Ave. Vaughan ON L4K 5R6 Toronto and Region Conservation Authority (TRCA)
Heritage Properties	You need heritage approval from the City to make any alterations on a designated heritage property.	Heritage Properties 905-615-3200 x 4061 Heritage.planning@mississauga.ca
Community Services Park Access	You will need a park access permit if you need to access your private property through a City park or natural area to complete construction of a pool	Community Services Park Access Permit park.planning@mississauga.ca
Ontario One Call	You must contact Ontario One Call to get buried cables, pipes and wires located so you can dig safely.	Ontario One Call – Call or Click Before You Dig 1-800-400-2255 www.ontarioonecall.ca

IF YOU HAVE NOT OBTAINED APPROVALS FROM THE ABOVE AGENCIES, Compliance & Licensing Enforcement will NOT accept and process a Swimming Pool Enclosure Inspection Request.

You must use the latest version of all forms.

What happens next?

Swimming Pool Enclosure Inspection Request	Submit Swimming Pool Enclosure Inspection Request & required documents with the current enclosure inspection fee. We will disperse your site plan and survey to the following departments.	Compliance & Licensing Enforcement City of Mississauga 300 City Centre Dr. – ground floor Mississauga ON L5B 3C1 311 or 905-615-4311 In Person Appointment: https://reservation.frontdesksuite.com/mississauga/compliance
Survey & Site Plan	Your site plan & survey will be reviewed to ensure the swimming pool/hot tub/swim spa meets regulations	You will be copied in our email to Transportation & Works Department Development & Construction You will be informed whether or not the survey and site plan is acceptable and to pay lot grading and municipal service protection fees prior to the initial property inspection.
Pool Site Plan	Your site plan will be reviewed to ensure the swimming pool/hot tub/swim spa meets Zoning regulations	You will be copied in our email to Planning & Building Dept. Zoning You will be informed whether or not the site plan is acceptable.
Site Plan Control	If your property is subject to Site Plan Control, you will be informed to obtain Site Plan Approval	You will be notified by email if Site Plan Approval is required. Planning & Building Department Development & Design Contact 311 or (905-615-3200 if calling from outside of City limits) Development & Design Division – eplans.devdes@mississauga.ca Site Plan Control Information :

Note: Requirements are subject to change without notice

RESIDENTIAL SWIMMING POOL AND HOT TUB/SWIM SPA INSTALLATION GUIDE

STEP 1: Initiating the Process

Follow the steps below and provide the documents required to initiate your Swimming Pool Enclosure Inspection Request for all types of pools that are capable of holding water exceeding 24" (61 cm) in depth at any point. For more information, refer to the [Swimming Pool Enclosure Bylaw 0191-2011](#).

Residential swimming pools are for the sole use of the property residents and their invited guests only and cannot be used for any commercial or business related activities.

LEGAL SURVEY

You are required to supply one 11"x 17" legal survey of the property where the swimming pool, hot tub, or swim spa is being installed. The legal survey must accurately reflect all current and existing fencing, structures, easements and property boundaries. Further information about surveys and how to obtain one visit the Association of Ontario Land Surveyors at <https://www.aols.org/>.

SWIMMING POOL SITE PLAN

You are required to submit one 11" x 17" scaled drawing of the **swimming pool site plan** showing the location of the proposed pool, pool equipment, accessory structure(s), landscaping features and relevant grade elevations. **Free-hand drawn sketches will not be accepted.** See a sample drawing below.

The Swimming Pool Site Plan must include:

- a. the street location and street name (if the property is in a corner lot, show both street names)
- b. the shape and size of the lot
- c. the dimensions of the yard
- d. the house location with municipal address
- e. the proposed swimming pool with elevations, set-backs to property line and all accessory structures (sheds/cabanas/detached garages) and or pool equipment - the shape, location and overall dimensions, including the width of the coping to be around the pool (if proposed). These structures may require a building permit.
- f. the distance from the dwelling to the closed inside wall of the pool
- g. existing and proposed landscaping such as gardens, grassy areas, retaining walls, etc., with height and setback from the property line (minimum 0.6 metres or 2 feet)
- h. all hard surfaces such as decks, patio stones, interlocking brick, etc., include elevations and size (provide dimensions in brackets) and set-backs to property lines
- i. all easements and right-of-way's and their widths (check your property title if you are not sure)

- j. existing and proposed fence with self-closing gate location(s)
- k. construction access
- l. existing and proposed grading:
 - Start at the back door sill and use it as the base point measurement, assign a measurement value, for example 100.00. Use metres as unit of measurement
 - Indicate the grading by estimating the difference in elevation at different points of property, i.e. points that are either above or below the base point measurement. If you look at the sample plan, you will see that the base value of the back door sill is 100.00, the North East corner of the lot slopes down slightly with a value of 99.70 and the North West corner slopes down a bit more and has a value 99.40
 - Indicate existing and proposed grading elevations at various points throughout the backyard property, including points along the property lines using the above method for assigning a value
- m. show street trees and adjacent parkland/greenbelt if applicable

Hot Tub/Swim Spa/ Portable Pool

An 11" X 17" site plan and legal survey is required for Hot Tubs/Swim Spas and portable pools that will be installed above ground. The site plan must show the location of the proposed pool, pool equipment, all accessory structure(s), landscaping features, relevant grade elevations and setbacks to property lines.

Types of Pools

In-ground Pool: a permanent pool installed in the ground or an artificial pond

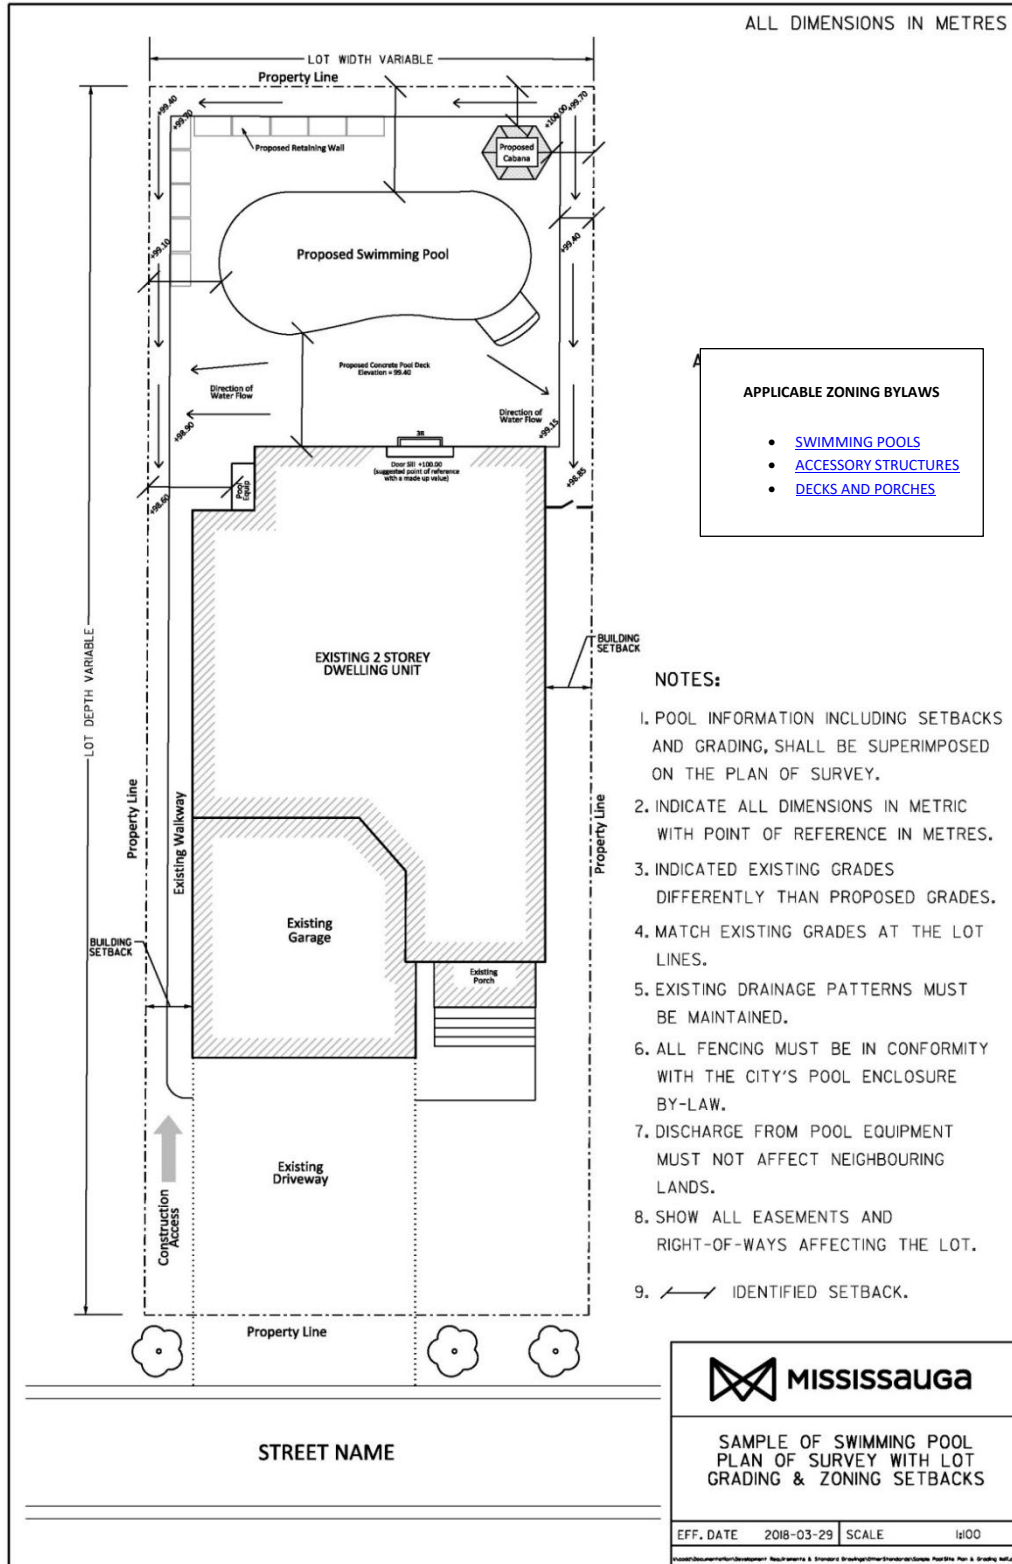

Above Ground Pool: a permanent pool installed completely above grade

On-ground Pool: a permanent pool installed partially below and above grade

Inflatable/Portable Pool: a temporary pool which can be moved or removed

Hot Tub/Swim Spa: an above ground portable, self contained vessel

STATUTORY DECLARATION - Information

A Statutory Declaration is a written declaration or statement of facts which a person swears, affirms or declares to be true in the presence of an authorized witness. City staff may not commission this declaration and therefore the person must seek other individuals who are authorized to administer oaths - usually a Commissioner of Oaths, Notary Public, or lawyer.

If there is more than one (1) registered homeowner, **EACH** homeowner will need to sign the Statutory Declaration.

It is a criminal offence to solemnly declare a false Statutory Declaration, and may be subject to prosecution resulting in an offence punishable on summary conviction (Section 134, Criminal Code of Canada).

The City of Mississauga will only accept an **ORIGINAL** signed copy of the Statutory Declaration. The person who is authorized to administer oaths (e.g. lawyer) must stamp the document and clearly provide their contact information.

The **ORIGINAL** signed Statutory Declaration for Swimming Pool Installation must be submitted to the Compliance and Licensing Enforcement Division services counter located on the ground floor of the Mississauga Civic Centre, 300 City Centre Drive with all other required documentation.

For more information, contact:

By Phone: 3-1-1 (if calling outside of City 905-615-4311)

By Email: bylaw.enforcement@mississauga.ca

In Person: **By Appointment Only**

Mississauga, Ontario L5B 3C1

Statutory Declaration

CANADA PROVINCE OF ONTARIO	Swimming Pool Installation MUNICIPAL ADDRESS: _____ Mississauga, Ontario (the "Lands")
-------------------------------------------------	---------------------------------------------------------------------------------------------------------

I/We _____ and _____, of the City of Mississauga, in the Regional Municipality of Peel, DO SOLEMNLY DECLARE THAT:

1. I am/ We are the registered owners of the above described Lands and as such have direct knowledge of the matters hereinafter deposed to.
2. I/We confirm that the swimming pool and the fence surrounding the swimming pool, including any equipment, buildings or structures relating to the swimming pool (the "Installations") are or will be located entirely within the boundaries of the Lands that I/We own.
3. I/We have conducted a proper title search of the lands and confirm that none of the Installations referred to in section 2 are or will be located upon or encroach upon any City owned property, easements, right-of- ways, neighbour's property or any property owned by the Credit Valley Conservation Authority, the Toronto Region Conservation Authority, or the Halton Region Conservation Authority.
4. I/We have or will satisfy all applicable requirements imposed by the relevant conservation authority (i.e. the Credit Valley Conservation Authority or the Toronto Region Conservation Authority or the Halton Region Conservation Authority).
5. I/We have reviewed the applicable provisions of the Mississauga Zoning By-law regarding permitted uses and property line setbacks and hereby confirm that all such provisions have been or will be fully complied with.
6. I/We confirm that I/We are solely responsible for lot grading and drainage works within the identified Lands; and that any and all works associated with the lot grading and drainage will be completed and maintained so as to not adversely impact any surrounding lands.
7. I/We have or will supervise the work of all contractors on our Lands to ensure strict conformity with all the statements made herein.

I/WE make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath.

Declared before me at the City of _____ this _____ day of _____ 20____	_____ <i>Signature</i>
_____ <i>Lawyer, Notary or Commissioner for taking Oaths</i>	_____ <i>Signature</i>

Personal information collected on the statutory declaration is collected as part of the building permit application process in order to satisfy Section 8 (2) (a) of the *Building Code Act, 1992*, S.O. 1992, c. 23, and will be used to confirm the proposed and/or existing use of the subject property and may be used in an enforcement proceeding should the property be used in a manner contrary to the facts set out in the statutory declaration. Questions about the collection of this information should be directed to Customer Service at 3-1-1 (905-615-4311 outside City limits).

SWIMMING POOL ENCLOSURE INSPECTION REQUEST FORM (Sample)

You are required to complete a **Swimming Pool Enclosure Inspection Request form** . Submit the original signed form and Statutory Declaration with all other required documents and the **2024** pool enclosure inspection fee of **\$379.42** (335.77 + 43.65 HST). Please note an application for a Swimming Pool Enclosure Inspection is only valid for ONE (1) year from the date the application is submitted. If the enclosure permit is not issued within one year of application, you will need to submit a new Swimming Pool Enclosure Inspection Request, fee and all required documents.

Agreement

I hereby certify that I am the registered owner of the Property as described in the records of the land registry office.

In completing and submitting this application and the payment for an inspection fee, I hereby request City staff enter onto the "Property" to conduct an inspection of the pool enclosure pursuant to the City of Mississauga Swimming Pool Enclosure By-Law 191-11, as amended. I acknowledge and understand that inspections are necessary to verify compliance with the Swimming Pool Enclosure By-Law and have a Certificate of Approval issued for the enclosure.

I hereby authorize my Agent of
Name Company Phone Number

Email Address to act on my behalf for any inspection processes that may be required.

I understand that pursuant to the Swimming Pool Enclosure By-Law 191-11, as amended, I must ensure that the swimming pool on my property is not filled with water and that no water is allowed to remain in the pool unless a Certificate of Approval has been issued by the Manager of Compliance & Licensing Enforcement.

Certificates of Approval issued under the provisions of the By-Law do not address or verify the property boundary lines. It remains the complete responsibility of the applicant to ensure that the swimming pool and enclosure are situated on or within the boundary lines of the property.

Important Notes:

Pursuant to section 6 of the City of Mississauga Swimming Pool Enclosure By-Law 191-11, every owner of a property on which a swimming pool is located, constructed, or erected shall:

- Erect or cause to be erected a swimming pool enclosure around the entire swimming pool in accordance with the provisions of the By-Law;
- Ensure that the swimming pool is not filled with water and that no water is allowed to remain in the swimming pool unless a valid Certificate of Approval has been issued for the swimming pool enclosure;
- Maintain the swimming pool enclosure in compliance with the provisions of the By-Law and the City of Mississauga Property Standards By-Law 654-96, as amended.

The Certificate of Approval will only be issued where a Request for Swimming Pool Enclosure Inspection form has been signed by the owner and the enclosure complies with all the requirements of By-Law 191-11, as amended.

Form 2449 P14 (Rev. 2021 01)

PRINT

STEP 2: Survey & Site Plan Review

We will forward your survey and site plan to the following City departments:

- Zoning Section – for applicable zoning regulations
- Development Construction – for grading and assessment of the submitted survey
- Compliance & Licensing Enforcement – for a Hot Tub/Swim Spa/Portable Pool that is located entirely above ground. It must have a suitable enclosure that meets the requirements of the Swimming Pool Enclosure Bylaw or equipped with a fitted and secured prefabricated cover so as to prevent access when not in use.

STEP 3: Development & Construction Payments & Deposits

Once your site plan and survey are deemed acceptable by all applicable City departments and prior to the preconstruction site meeting, you will be informed to provide the appropriate refundable Deposits for Municipal Services Protection and Lot Grading, together with a non-refundable Administration Fee in accordance to the Fees and Charges Bylaw (subject to change if paid following year) as follows:

- ✓ Inspection & Administration 2024 Fees
In / On Ground Pools: \$525.75 (\$500 + \$25.75 hst)
Above Ground Pools: \$275.75 (\$250 + \$25.75 hst)
- ✓ Municipal Services Protection Deposit – “MSPD” (refundable)
In /On Ground Pools: \$1,500
Above-ground or \$500.
- ✓ Lot Grading Deposit (refundable) **\$5,000** (above ground pools, hot tubs and swim spas exempted, unless excavating is required).
- Method of payment is restricted to certified cheque(s) or bank draft only and all development and construction fees and applicable deposit(s) can be paid together. Submission requirements of the applicable fee and/or deposit(s) will be confirmed and identified through the Lot Grading review process.
- All fees and charges are in accordance with the Transportation and Works Department’s Fees and Charges By-law 0251-2020, as amended or replaced from time to time. Lot Grading and Municipal Services Protection Deposits are collected through the Lot Grading and Municipal Services Protection Deposit By-law, No. 0172-2020, as amended, or a deposit amount as determined by the Commissioner, Transportation and Works Division.
- Once you have made all required payments, Development Construction will inform you when may proceed to construct the pool.

STEP 4: Joint Pre-construction Meeting

- Once the site plan and survey has been approved, a Compliance & Licensing Enforcement officer will contact the applicant to arrange for a pre-construction site meeting. The homeowner and/or agent must be present at the meeting and will include staff from Compliance & Licensing Enforcement, Development Construction, and if required Community Services, Heritage conservation authorities (CVC, CH or TRCA).
- During the meeting, the Inspectors will determine if there are any by-law, lot grading or other issues that may impact the proposed location and construction of the pool. It is important that the location and configuration of the pool be staked accurately according to the submitted site plan. If the homeowner or agent is not present and/or the site is not prepared, the meeting **will not** proceed and may delay the pool installation process.
- Trees on the boulevard and/or adjacent to parkland/greenbelt require hoarding and/or sediment control to be installed prior to the initial inspection so Community Services can inspect on site to accelerate the process and not have to wait for another inspection or photo.
- If changes to the site plan are identified during the inspection, you will receive a notice from the Development Construction section advising you not to proceed with construction until the changes have been addressed and a revised site plan is submitted.

STEP 5: Pool Installation Phase

The contractor/applicant/homeowner must ensure during the swimming pool installation phase that:

- there are no infield changes made to the information submitted on the site plan(s) with regard to grades, elevations, landscaping and setbacks;
- all existing grades at the lot lines and all existing drainage patterns are maintained; and
- all municipal rights-of-way (which includes roads, boulevards, sidewalks, City-owned lands and all easements) are maintained free of equipment, debris and mud at all times.
- It will be necessary to obtain a Road Occupancy Permit (ROP) to utilize a mobile crane and/or place/store dumpsters, equipment/machinery, materials or portable washrooms within a municipal right-of-way. For further information on, and to apply for an ROP, please contact the Transportation and Works Department's Customer Service Counter at tw.counter@mississauga.ca; call at 905-615-4950; or visit in person at Transportation and Works Department's Customer Service Counter, 3185 Mavis Road, 1st Floor.

By-Law Requirements

Zoning

- Ensure that the swimming pool/hot tub/swim spa meets the regulations of the Zoning By-Law 225-07. Information can be found at <http://www.mississauga.ca/portal/pb/swimmingpools>
 - ❖ No part of an outdoor **swimming pool** is permitted in a front or required **exterior side yard**
 - ❖ An outdoor **swimming pool** shall be set back a minimum of 1.5 m from all **lot lines**, measured from the inside wall of the outdoor **swimming pool**
 - ❖ Pool heating/filtering equipment may be located in a required **yard**, other than a **front yard**, provided that it is not closer than 0.61 m to any **lot line**
 - ❖ All setbacks to Greenland Zones are met

Encroachment

- Make sure no part of your swimming pool, enclosure (fence), pool equipment, sheds, or structures are encroaching on **ANY** public lands owned by the City of Mississauga.
- City lands include parks, boulevards, and easements (city right-of-way) that may run adjacent to or on your property.

Heritage Planning

- If the property is designated under the Ontario Heritage Act, a heritage permit may be required. This is an additional process that will impact timelines. For more information on the process, visit www.mississauga.ca/heritageplanning

Fiberglass Pool Installation

Fiberglass Swimming Pools are required to be filled with water as part of the installation process. Prior to the installation, the homeowner or agent must contact Compliance and Licensing Enforcement with the installation date. The officer will attend the property on that date to inspect the temporary enclosure and provide a Fiberglass Swimming Pool Temporary Fencing Letter allowing the swimming pool to be filled, prior to a Final Swimming Pool Enclosure inspection.

- The swimming pool must be surrounded by a substantially completed enclosure or a temporary enclosure that will restrict any access to the swimming pool except for those persons installing the pool.
- After the swimming pool is filled with water, it must be kept enclosed by the swimming pool enclosure or temporary enclosure. Any breaches or openings must be immediately repaired and secured so that no person can access the swimming pool.

Pool and Spa Wastewater Safety

Debris and Anti Littering By-Law 219-85 places strict conditions for discharge of pool and spa water including filter backwash.

- Filter backwash water should **only** be directed to the closest sanitary sewer connection **on the pool owner's property**.

A plumbing permit is required from the City's Planning and Building Department prior to the installation of a direct connection to the sanitary sewer system for the purpose of discharging backwash water. The **Storm Sewer Use By-Law 259-05** makes it illegal to discharge water to a storm drain that contains contaminants. If you discharge (or hire someone to discharge) water that exceeds the Storm Sewer Use By-Law limits, you may be subject to enforcement action.

- **Chlorine or Bromine** treated pool and spa water may be discharged to a storm drain **ONLY** if the water meets the following conditions:
 - ✓ It is free of chemicals in toxic amounts including, but not limited to, chlorine, bromine, hydrogen peroxide-based sanitizers, algaecides, fungicides, copper, silver, muriatic acid, soda ash and cyanuric acid. Remember, most pool and spa chemicals are toxic to aquatic organisms.
 - ✓ It is free of debris, vegetation or algae
 - ✓ It has a pH of between 6 and 9
 - ✓ It has a chlorine concentration of no more than 1 ppm (1 mg/L)
- To help to reduce chemical concentrations, stop adding chlorine and bromine 7-10 days before pumping down the pool and leave the cover off to allow exposure to sunlight.

Saltwater pools and spas contain elevated levels of sodium chloride or sodium bromide. Because these salts cannot be removed from the water, saltwater pool and spa owners should direct all saltwater discharge to the **sanitary sewer connection**.

The Region of Peel suggests the following conditions for discharge to the sanitary sewer system:

- ✓ Direct the discharge from the pool to your nearest drain inside your house
- ✓ Limit the size of the discharge hose from the pool to 4 cm (1 1/2 inches) or less in diameter
- ✓ Discharge the water at a non-peak time such as evenings after 8 p.m. or weekends after 10 a.m.

FAILURE TO FOLLOW REGIONAL SANITARY DISCHARGE GUIDELINES MAY CAUSE FLOODING IN BASEMENTS OF NEARBY HOMES AND MAY ALSO RESULT IN SURCHARGES BEING ADDED TO YOUR ACCOUNT.

Pool Enclosure (Fence) Inspection Checklist

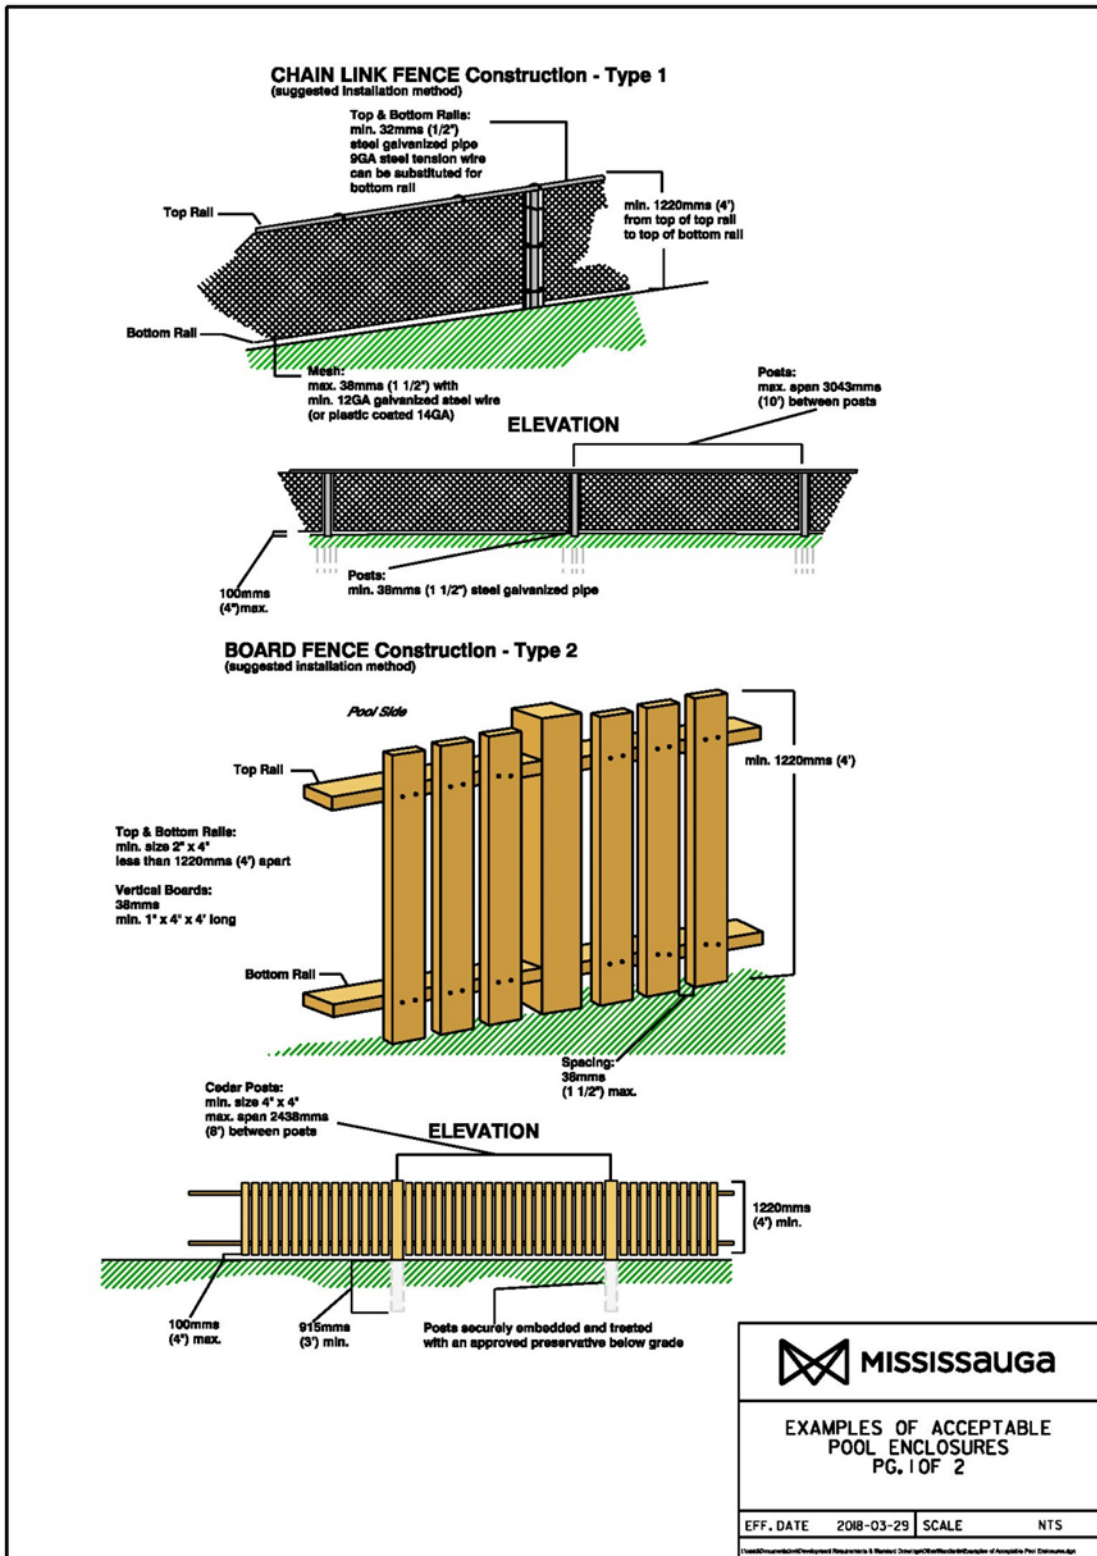

Prior to calling Compliance and Licensing Enforcement for your Final Pool Enclosure Inspection, ensure that the enclosure meets the following minimum requirements. Swimming pool enclosures not meeting the minimum requirements will delay the progression of installing the liner and filling the pool.

- ✓ **Height of Pool Enclosure (fence)** - A continuous **non climbable fence**, having a minimum height of **1.2 metre (4 feet)** around the pool, but not higher than 2 metres (6 feet, 7 inches) above effective ground level. Decorative/ornamental items, accessible latches on wrought iron fencing, or exposed diagonal braces on wood gates would not be acceptable as part of the enclosure and would have to be removed.
- ✓ **Vertical Spacing** - A separation distance between vertical boards, bars, pipes, tubes, rails or other material does not exceed **10 centimetres (4 inches)**, or in the case of a chain link fence, have a chain link mesh does not exceed **38 millimetres (1 ½ inches)**.
- ✓ **Chain Link Fence** - Must be at least **1.2 metre (4 feet)** in height, with maximum **38 millimetres (1 1/2 inch)** mesh, a continuous solid top rail, and a bottom tension wire.
- ✓ **No Fence Stepping** - Where there is a grade change that affects the height of the swimming pool enclosure, the height measurement is taken from the “effective ground level” which is the highest level of the ground within **1.0 metre (3 feet 3 inches)** measured in a horizontal distance in any direction from the swimming pool enclosure.
- ✓ **Fence type Changes** - Where fence materials change from one type to another, the vertical spacing between materials must not be greater than 2 inches.
- ✓ **Bottom Spacing** - any ground clearance space or gap cannot be more than **10 centimetres (4 inches)** at any point under the enclosure.
- ✓ **Gates** - Gates must be **self-closing and self-latching**. The latches must be located at the top of the pool side of the gate. A padlock on the gate is not considered adequate, even if the intention is to keep the gate permanently locked. You cannot have decorative ornaments or cross-braces that could be climbable from the outside.

Hot Tubs/Swim Spas

Where an above ground Hot Tub/Swim Spa meets the required Zoning By-Law setbacks, a prefabricated fitted and secured cover may be considered as a swimming pool enclosure. You must submit a Swimming Pool Enclosure Inspection Request, Inspection fee, Declaration, Site Plan and Survey for review.

-----------	------------	-------	-----

Revised: Councilmember/Commissioner/Chairpersons & Board/Design/Chief/Board/Chairpersons of Acceptable Pool Enclosures

STEP 6: Final Pool Enclosure Inspection

After the fence has been erected and **before** you fill the pool, you must call 311 or 905-615-4311 if calling outside of Mississauga to request a final inspection of the pool enclosure. A Compliance & Licensing Enforcement Officer will conduct an inspection and determine whether or not you may proceed to fill the pool. Once the swimming pool enclosure has been approved, you will receive a Certificate of Approval. **It is illegal to fill a pool without an approved swimming pool enclosure.**

STEP 7: Lot Grading and Municipal Services Protection Deposit Refund Process

After the pool has been installed, all associated sodding and landscaping works have been completed and the Swimming Pool Enclosure Approval has been issued by Compliance & Licensing Enforcement, you must request a lot grading and municipal right-of-way inspection by calling 3-1-1 (or 905-615-4311) if calling from outside city limits) and ask the Call Center Advisor to direct a service request to Development and Construction department. **Please note, should the landscaping and sodding work not be completed at the time of inspection, additional inspection fees may be charged for each subsequent inspection.**

It is preferred that the homeowner, agent, and/or contractor are present at the inspection to review the lot grading and address any outstanding work that may be required. Prior to receiving a refund of the Lot Grading Deposit, all identified deficiencies shall be repaired and re-inspected.

Should there be damage identified to the municipal right-of-way, the Development and Construction Inspector will provide details of the damaged area/item(s). All associated costs will be assessed to the held Deposits. Repair work may take up to 18 months to complete and can only be completed by City staff. Both Deposits (Lot Grading and the MSPD) will be retained in full until the reinstatement work is completed.

If all is in order, and no damage and/or deficiencies are identified, a refund of the applicable deposits will be processed within four to six (4-6) weeks.

For all other Deposits, please contact the relevant City Department and/or external Agency for their respective refund process.
