## Next Steps

- Once we receive your application, we'll create and send you a notice to let local residents know about your exemption. You'll need to distribute this notice to all residents within a 120 metre radius from the event location. We'll send you a list of addresses within the specific area.
- You must notify city staff once your notices have been distributed.
- City staff will do random checks to confirm that the notice has been circulated.
- Local residents will then have two weeks to contact the City to voice their concerns, objections or comments about the event.
- A final decision will be made on whether to grant the exemption or not. If granted terms and conditions may be applied.

## Noise Exemption for Construction

In addition to the steps above, if your application is approved you will be required to distribute a final notification to residence **within 1 week of commencement of work**. This notification will be provided to you by staff.

## Noise Exemption for Amplified Sound

Additional terms and conditions may be applied including a decibel limit to a maximum of 85 dB(A) or 105 dB(C) measured from the lot line of the property where the event is occurring.

A monitoring fee may be charged to ensure that the noise volume(s) are kept within the allowable decibel limits. The noise monitoring fee will be charged as outlined in the User Fees and Charges By-law 0199-2023, as amended. The fee will be for a minimum of two hours per officer and may require more than one officer.
