

October 23, 2025

**Re: Update to School Streets Pilot Project**

Dear Resident,

As of October 22, the School Streets program at Corliss Public School is paused. The City will work with the community to re-evaluate and determine next steps for the program. Further updates will be shared as they become available.

The traffic calming bollards on Corliss Crescent near the school will remain in place until they are removed for the winter season. However, staff will not be putting up barriers, and the road will remain open to vehicles during school drop-off and pickup times until further notice.

**Getting involved in the project**

The City's goal is for this project to be a partnership between the City of Mississauga and your local community. We have established a Local Project Planning Team, including representatives from Corliss Public School, local residents and other community partners. The Project Planning team met four times between April and October of 2025, and will meet again approximately once every two months or as needed until the end of the 2025-2026 school year.

**We are currently planning our next meeting for November.** If you are interested in participating in the Local Project Planning Team, please contact the Project Lead directly for more information (contact information below).

We welcome any questions and feedback you may have about the project, to help us improve the project and maximize benefits for your community.

Sincerely,

City of Mississauga
