

Stop Motion Movies

You can make your own movie - it's easier than you might think!

Time to complete: 30min - many hours

Age Group: 7yrs+

Materials:

- smartphone/tablet + free app like  StopMotionStudio or  StopMo
- Whatever you want to make move! Might be:
- Rocks, Lego, Barbie, clay, toy cars, your drawings, etc.

Instructions:

1. Think about the story you want to tell. If you want, draw out a story board and plan out your scenes.
2. Set up your scene & your camera. Try to secure them, so they won't move between frame/photos.
3. Set up your first scene. Take a photo. Move your objects slightly and take your next photo. Keep going, stopping every once in a while to review your work and ensure you like it.
4. Add audio (optional)
5. Have a screening! Show your family & friends your masterpiece!
