

# Puzzle piece hunt

**Time to complete:** 2hrs+

**Age Group:** 4yrs+ (tip: make it age appropriate)

## Materials:

- For younger children wooden puzzles
- For older children, a jigsaw puzzle works well
- Don't have a puzzle? Here are some other suggestions: create a secret message or age appropriate math problem. Cut out parts of the message or math problem to hide.

## Instructions:

1. Hide puzzle pieces, secret message or math problem pieces in tricky and in plain sight.
2. Ready, get set, hunt!
3. Idea: To make this a cooperative activity, remind kids they are working as a team to beat the one (Mom or Dad) who hid the pieces. If they find all the pieces and complete the puzzle, sentence or math problem then they win! If not Mom or Dad wins.
