

Family Karaoke Night

Family karaoke night is a fun activity that will give everyone a chance to show their talents and share music across the generations.

Time to complete: As long as you like

Age Group: All ages

Materials

- Computer/Laptop/Phone/CD Player/Radio that can play music
- Optional: microphone (you could use your thumb, a broom, or create your own out of recyclable materials)
- Optional: props like silly hats, glasses, costumes, wigs, etc.

Instructions:

The easiest way to get going is to find karaoke videos online with lyrics that scroll across the screen (there are a lot of them out there!)

You can also choose to put on a family favourite CD or playlist and sing along to that if you are uncomfortable using the internet.

Remember to play the songs with the volume low so that everyone can hear your singing voice. Take turns singing the songs out using a prop or your thumb as a microphone and don't forget to bust out some awesome dance moves as you sing along.
